University History

Brigham Young University, formerly designated the Brigham Young Academy, was founded by a deed of trust executed by President Brigham Young, October 16, 1875.

It is in charge of a board of trustees, elected triennially, by the vote of the Latter-day Saints, acting through the First Presidency of the Church of Jesus Christ of Latter-day Saints.

For many years it was dependent upon fees and the proceeds of the original endowment for its maintenance, but in recent years an annual church appropriation has been the chief source of its financial support.

Buildings. The first home of the institution was in Lewis Hall, a mercantile building, standing on the northeast corner at the intersection of Center and Third West streets.

Subsequently, this building with several additions, was destroyed by fire. The school, however, resumed its sessions with the loss of but one day. The basement of the Stake Tabernacle, a store, and the First National Bank Building each housed the school for a short time.

From these temporary quarters it moved into the upper story of the Z. C. M. I. warehouse, at the corner of Sixth South street and University avenue. This was the home of the school for seven years.

In 1891 the school moved to what is now known as the Education building, a structure costing \$75,000, made possible chiefly through the personal credit of President Abraham O. Smoot and his associates on the Board of Trustees.

The College building, a gift of ten persons whose names are upon a marble tablet in a hall of the building, was erected in 1898. The responsibility for raising the funds for this building was undertaken voluntarily by the late Reed Smoot, a member of the Board of Trustees.

The Training School building was built in 1902, the cost of which was met by the contributions of friends of the school chief among whom was "Uncle" Jesse Knight.

The Art building was erected in 1904, a gift of the nearby stakes comprising what was known at that time as the B. Y. U. academic district.

The Alumni Association, in honor of Dr. Karl G. Maeser, presented the institution with the Maeser Memorial building in 1911. The cost of this building was \$112,000.00 "Uncle" Jesse Knight contributed liberally to the Alumni Association in this project. The heating plant and furnishings were provided by the Church. This building was the first to be erected on University Hill.

The Women's Gymnasium, which is also a recreation building, was erected in 1913.

The Mechanic Arts building, a one-story structure, on University Hill, was erected in 1919.

The Heber J. Grant Library building, also on University Hill, was erected in 1925.

The last three named buildings were built by Church appropriations.

In 1935, two stories were added to the Mechanic Arts building to provide additional classrooms and laboratories. The name was changed to George H. Brimhall building.

The Y stadium was built during the year 1928-29.

During the year 1935-36, a Stadium House, on the west side of the football field, was erected.

In 1937-38, Allen Hall—a men's dormitory—and in 1938-39, Amanda Knight Hall—a women's dormitory—were constructed. These will accomodate eighty and one hundred sixty students, respectively.

The Joseph Smith building was commenced on the upper campus in 1939 and completed in 1941 as a project of the Church Welfare program to serve as the religious and social center of the University.

During the year 1943 the University acquired the National Youth Administration building on the east part of the campus for use of the Mechanic Arts Department.

In 1944, because of the acute housing problem created by the building of the Geneva steel plant, the National Youth Administration Building, acquired for a mechanical arts shop, was fitted up for a temporary dormitory for women and was so used until the spring of 1947. In 1947-48 a new wing was added to this structure. This wing was completed as a permanent housing unit, called the Upper Campus Dormitory. It houses 350 women. The dormitory lounges, cafeteria, and dining hall are a part of the old structure which has been remodeled, and contains also some

classrooms, a spacious ballroom, which serves as a campus recreational center, and as a chapel which is used by some of the L. D. S. wards.

Because of the enlarged student body since the war, student housing facilities have been greatly increased. Through co-operation with the government, housing for 200 married veterans and 300 single veterans in a building project known as Wymount has been provided. This new village is located on the easterly edge of the campus directly below the symbolic Y on the mountainside. Buildings for an enlarged service to students have been constructed. These include: a student health center, a large bookstore, some classrooms, many offices, a cafeteria, and some shops. In 1948 the Speech Department moved into a series of buildings on the Upper Campus known as the Speech and Radio Center. Here the B. Y. U. broadcasting station, K.B.Y.U. is located.

A large steam plant, costing \$100,000, was constructed in 1946.

Other buildings which have been approved by the board and will be constructed as soon as materials are available, include an up-to-date field house and a student union building. A magnificent science building is now in the process of construction to the north of the Joseph Smith building.

Campus. The first campus of the school was limited to a small playground back of the building which was destroyed by fire. The present Education building was erected in the center of a block 24 by 24 rods.

Then came the purchase of University Hill. As early as 1904, steps were taken to acquire land on this site. A purchase of seventeen acres was made from Provo City. A gift of something over seven acres came from the Fourth ecclesiastical ward of Provo; part of an acre was purchased by an alumnus, and the point of the hill by the student body. Following a movement initiated by the Alumni Association, seventy-five acres were purchased in 1923-24. Since that time purchases have been made of other tracts, not only on University Hill, but adjacent to and between the two campuses, until the area now comprises approximately two hundred acres.

Administration. The first faculty consisted of the principal and two assistants, Dr. Karl G. Maeser, Dr. Milton K. Hardy, and Kristina Smoot. Dr. Karl Maeser served as principal until 1891, when he was called to the general superintendency of Church schools. Dr. Benjamin Cluff, Jr., succeeded Dr. Maeser and served as the executive head of the school until December 22, 1903. Dr. George H. Brimhall succeeded Dr. Cluff and served the institution

as president until April 26, 1921, when he was made president-emeritus. On the same date Dr. Franklin Stewart Harris was appointed president, taking office July 1, 1921. Dr. Harris served until June 30, 1945, at which time he was succeeded by Howard S. McDonald.

Educational Growth. The first credential granted by the institution was a teacher's certificate given on the completion of one year's normal work. This was followed by a certificate requiring two year's normal work, followed later by the degree of Bachelor of Pedagogy, issued upon the completion of four years' normal work. Later the Bachelor of Arts and Bachelor of Science degrees were authorized to be conferred upon the completion of the regular four years' college course.

The degrees of Master of Arts and Master of Science have been authorized since 1918.

On February 11, 1909, by an action of the General Church Board of Education, the collegiate department of the University was designated The Church Teachers' College.

At the beginning of the school year 1920-21, the name Church Teachers' College was changed to School of Education, and the School of Arts and Sciences was established. During 1921 a College of Commerce and Business Administration was organized and courses leading to a degree of Bachelor of Science outlined. The names, School of Education and School of Arts and Sciences, were changed to College of Education and College of Arts and Sciences. At the same time an Extension Division, a Research Division, and a Graduate Division were organized.

On January 25, 1922, a college of Applied Science was established to include the departments of Agronomy, Animal Husbandry, Art, Auto Mechanics, Foods and Nutrition, Horticulture, Household Administration, Textiles and Clothing, and Woodwork. On April 21, 1925, a College of Fine Arts was established to include the departments of Art, Music, and Speech.

During the year 1928-29 the name of the College of Commerce and Business Administration was changed to College of Commerce, and the Graduate Division was changed to Graduate School.

On January 11, 1940, there was established a Division of Religion in which were centered the religious teaching and religious activity of the institution.

War Service. During the War the University aided in training personnel for the Army through the following programs: The Army Specialized Training Program, Engineering Science Management and Defense Training, and Civil Pilot Training.

Requirements

General Requirements For Undergraduate Work

ADMISSION

Admission to the University is granted on the basis of an official application, form for which will be furnished by the Admissions Committee on request of the applicant. The prospective student should have this application on file with the Admissions Committee not later than the following dates preceding registration:

| | |
|----------------------|-------------|
| Autumn Quarter | September 1 |
| Winter Quarter | December 1 |
| Spring Quarter | March 1 |

For admission to the University, a student must be a graduate of an accredited high school, present sixteen units of high school work, or pass special subject matter examinations. The student admitted on the basis of high school credits earned must offer among his credits the following:

| | |
|-------------------------|-----------------|
| English | 3 units |
| A principal group | 3 or more units |
| A secondary group | 2 or more units |

The principal and secondary groups must be selected either from Mathematics and Science or from History and Social Science. At least one unit in Mathematics, either Algebra or Geometry, must be included in either the principal or the secondary group. If the principal group is from Mathematics and Science, the secondary group must be from History and Social Science, or vice versa.

A student twenty-one years of age or over, who has not completed sixteen units of high school work, may register as an unmatriculated student. He may pursue any course for which he has sufficient educational background. Students twenty-one years of age or over and all veterans are permitted to register as regular students after successful completion of the General Educational Development Tests.

WITHDRAWAL FROM CLASSES

Students discontinuing registration at the University are required to clear their termination through the office of the Dean of Students.

Students withdrawing from individual classes shall clear with the dean of the college or the chairman of the Counseling Service.

- a. If a student withdraws from a class during the first three weeks of a quarter, the permanent record will show no registration for the class in question.
- b. If a student withdraws from a class during the second three weeks of a quarter, the permanent record will show the letter "W" for the class in question.
- c. The permanent record for students who withdraw after the first six weeks of each quarter will show "W" for classes in which the student is doing passing work at the time of withdrawal and "E" for classes in which the student is doing failing work at the time of withdrawal.

Course Divisions

Undergraduate courses of study are divided into:

- (a) Lower Division
- (b) Upper Division

Lower Division courses are numbered in the catalogue from "1" to "99." Upper Division courses from "100" to "199."

Graduate courses are given numbers "200" and above.

Election of Studies

The student, in electing his studies, should, with the advice and approval of the dean of the college in which he registers, elect such studies as are desirable. The major and minor, as well as the general, requirements for graduation should be kept in mind in electing studies. **Three credit hours in lower division Physical Education and one credit hour in Health I are required of all freshmen.**

Should a resident student desire to take courses by correspondence or in extension classes, the approval of the student's dean must be secured, and the correspondence or extension work entered upon the regular registration card. Excess work taken by correspondence or extension classes not approved in this manner, will not be recorded for credit. Resident students of other institutions who apply for correspondence or extension class work at this University must have their proposed registration approved by the president of the institution in which they are registered. Students wishing to transfer correspondence credits from other institutions are subject to examination by the University department concerned.

At least five quarters of lower division work should be completed before the student registers for upper division work, unless in certain sequences the dean, with the consent of the instructor, advises otherwise. Included in the lower division work must be English 1, 2, 3; and, for the A. B. degree, twelve hours in foreign language work. In order to qualify for the Bachelor of Arts degree a candidate must furnish a training equivalent to 24 hours of college credit in a foreign language. It is recommended that as far as possible, group requirements be completed by the close of the sophomore year.

Classification of Students

A regular student with fewer than forty-five credit hours at the beginning of the school year will be classed that year as a freshman.

A regular student with more than forty-five credit hours and fewer than eighty-nine credit hours at the beginning of the year will be classed during that year as a sophomore.

A regular student with more than eighty-nine credit hours and fewer than one hundred thirty-five at the beginning of the school year will be classed during that year as a junior.

A regular student with more than one hundred thirty-four credit hours at the beginning of the school year will be classed during that year as a senior.

A student who has met the entrance requirements but who registers for nine hours of work or less will be designated a "special student."

Credits

A student may have credit entered on the books of the University as follows: 1. For work done in the regular courses offered by the institution. 2. For work done in an accredited college when such credit is to be used for graduation from the University, the amount to be determined by the committee on Admission and Credits. 3. By passing a satisfactory examination in any course offered by the University under the supervision of the head of the department concerned. Credits from other schools should be filed with the Registrar upon entrance.

Special examinations for advance credit will be given only with the consent of the head of the department concerned, the dean of the college in which the student is registered, and the committee on Admission and Credits.

An incomplete course of study must be completed during the next quarter of residence, provided the next quarter of residence is within one year; otherwise the course must be retaken in a class, or a special examination taken to obtain credit.

A fee of \$3.00 per credit hour is charged for special examinations, provided the total fee for any one subject does not exceed \$25.00.

University Credits Recognized

Brigham Young University is on the list of approved colleges of the Association of American Universities. It is also a member of the Northwest Association of Secondary and Higher Schools, the American Council on Education, and the Association of American Colleges.

The university is on the approved list of the American Association of the University Women.

The Extension Division is a member of the National University Extension Association and the American Association for Adult Education.

University credits are accepted as widely as those of other similarly rated institutions.

Graduation

General Requirements

For a student to be admitted to candidacy for a diploma or a degree, his scholastic record must show that he has satisfied the entrance requirements and that he can fulfill all the requirements for graduation on the completion of the courses for which he is registered. At the time of graduation each candidate must be properly registered in the University, and must have completed at least forty-five hours of work in residence.

The following graduation requirements apply to all candidates for a bachelor's degree from any of the colleges of the University:

| | |
|------------------------------------|----------------|
| Total amount of credit..... | 186 hours |
| Upper division work (minimum)..... | 60 hours |
| Requirement for a major..... | 35 to 45 hours |
| Requirement for a minor..... | 20 hours |

Group Requirements:

| | |
|---------------------------------------|----------|
| Mathematics and Physical Science..... | 12 hours |
| Biology and Psychology..... | 12 hours |
| Social Science..... | 12 hours |
| English and Foreign Languages..... | 18 hours |

Two credit hours in Religion are required of every student for each quarter in residence.

Lower Division Courses Required:

English 1, 2, and 3.

Physical Education: Three credit hours in lower division.

Health 1.

A candidate for a Bachelor of Arts degree is required to furnish a training equivalent to 24 hours of college credit in a foreign language. Shopwork, shorthand, and typing will not be credited toward the A. B. degree.

Not more than 28 hours of "D" grade credit will be applied towards graduation.

Students who expect to be graduated at the end of the Spring quarter should file application with their dean not later than the beginning of the Winter quarter. All conditions must be removed not later than ten days before graduation.

Students who fulfill all requirements for graduation at the close of the Summer session and who have filed application for

graduation not later than thirty days preceding the close of the Spring quarter may have their graduation certified to by the proper authorities of the University, but they shall not be publicly graduated until the annual commencement of the following year.

The University reserves the right to change the requirements for graduation, and a candidate for graduation will be asked to comply with all changes which pertain to the uncompleted portion of his course. The University Council is the body authorized to prescribe requirements of graduation and to pass on candidates.

Group Requirements

Ordinarily the object of the first two years of the University curriculum is to introduce the student to fundamental fields of human interest and to provide a broad basis for later specialization. In order that these purposes may be achieved, certain studies should be completed under the direction of the respective deans. Before a regular student will be permitted to register for more than five quarter hours of upper division work during any one quarter, he must choose or be tentatively assigned to a major professor and must have completed the number of hours prescribed in each of the following groups:

1. Mathematics and Physical Science, 12 hours. (Mathematics, Chemistry, Physics, Geology, and Geography.) To satisfy the twelve-hour group requirement, the student is urged to take work in at least two departments. At least one of the courses taken must require no fewer than two hours of laboratory work each week.

2. Biology and Psychology, 12 hours. (Bacteriology, Botany, Zoology and Entomology, Psychology.) To satisfy the twelve-hour group requirement, the student is urged to take work in at least two departments. At least one of the courses must require no fewer than two hours of laboratory work each week.

3. Social Science, 12 hours. (Archaeology, Economics, History, Political Science, Sociology.) To satisfy the 12-hour group requirement, the student is urged to take work in at least two departments.

4. English and Foreign Languages, 18 hours, at least 12 of which must be in English. This group must include English 1, 2, and 3. If a student has credit for at least two units of foreign language taken in high school, this group may be reduced to 14 hours.

Major and Minor Requirements

At the beginning of his college course, and in no case later than his Junior year, each student should select his major department, the head of which, in connection with his dean, will serve as his special adviser. At the time of his graduation he must have completed from thirty to forty-five quarter hours in the department, and no fewer than twenty hours in collateral or minor subjects which meet the approval of the head of his major department.

When the prospective graduate's high school and college work shows marked evidence of deficiencies in grade of scholarship, in breadth of training, or a preparation for probable future activity, the head of the department in consultation with the dean may prescribe certain additional specified courses to the extent of fifteen quarter hours, according to the needs of the particular student.

Scholarship Honors

In recognition of especially meritorious work, scholarship honors are granted to certain members of classes graduating with the Bachelor's degree. Such honors will be accorded on the following basis:

First: There is only one designation in recognition of high scholarship merit: Graduation with Honor.

Second: The award of Graduation with Honor is made on the basis of excellence shown in work up to but not including the Spring quarter of the Senior year.

Third: A student receiving the award of Graduation with Honor must rate as one of the highest five percent in scholarship in the graduating class. This rating is determined by computing a grade-point average by weighting the grades as follows: "A" counts 3, "B" counts 2, "C" counts 1, "D" counts 0, "E" counts -1; and by dividing the total number of points by the number of credit hours acquired.

Fourth: It shall be the duty of the Committee on Graduation to make selection of candidates in accordance with these provisions.

Fifth: The announcement of honor awards is to be made at the annual commencement exercises.

Term Honors. The University will post and publish at the close of each quarter of the regular school year the names of the students who have received 'A' grades in not fewer than sixteen hours credit.

The Graduate School

Asahel D. Woodruff, Dean

All graduate work leading to higher degrees is administered under the direction of the Council of the Graduate School.

Graduate courses, numbered above 200, are listed under the departments of instruction but are administered by the department heads and the Dean of the Graduate School. Graduate students are under the direct jurisdiction of their major professor, the head of their major department, and the Dean of the Graduate School.

The functions of the Council of the Graduate School are to prescribe the conditions for admission to the School, to determine the requirements for graduate degrees, to regulate the holding of examinations for degrees, to grant graduate fellowships, scholarships, and other stipends, and to perform all other functions and duties which pertain to the administration of graduate work in the University. The Dean is the administrative officer of the Council.

Each graduate student is presumed to be familiar with all catalogue discussions which relate to graduate work.

Character of Graduate Work. The essential aim of graduate study is to develop the power to do independent work to encourage the spirit of research. Each candidate for a higher degree is expected to possess a broad, general knowledge of his major field and a fair degree of information in closely related subjects.

Entrance. All students pursuing graduate work will be registered by the Dean of the Graduate School. Students holding a baccalaureate degree equivalent to that conferred by Brigham Young University will be granted admission to the Graduate School. Forms for admission may be obtained at the office of this School. When these forms have been completed, they should be filed with the Dean.

If, during any quarter of the senior year, a candidate for a baccalaureate degree finds it possible to complete all requirements for such degree with a registration of fewer than sixteen quarter hours of undergraduate credit, he may register with the Dean of the Graduate School for graduate credit to the extent that the total registration shall not exceed sixteen quarter hours during such quarter.

No graduate student is permitted to register for more than sixteen quarter hours of credit during any one quarter. Students

who serve as teaching assistants, laboratory assistants, or readers, or who engage in other activity aside from their courses of study will be required to reduce their registration in proportion to the amount of non-course work in which they are engaged.

Admission to graduate courses is granted only to those students who have the requisite undergraduate work for those courses. Before the end of his first quarter of residence in the Graduate School a student is required to pass a written qualifying examination based on the undergraduate work which forms the foundation of his graduate major.

Graduate credit is given under the following conditions: (1) The courses for which graduate credit is given must be definitely catalogued as courses carrying graduate credit. (2) Only those students who are eligible to receive graduate credit at the time of registration for a course will receive graduate credit for such a course.

Admission to Candidacy. Entrance into the Graduate School does not admit a student to candidacy for a higher degree. A graduate student who has been in residence one quarter or more, who has passed a qualifying examination, whose thesis subject has been approved, and who has given evidence of ability to do work of a graduate character may on the recommendation of his major department be admitted to candidacy for a higher degree by vote of the Graduate Council. The mere accumulation of credit does not necessarily indicate ability to do graduate work. All applications for admission to candidacy for a higher degree should be made to the Dean of the Graduate School on a form which may be obtained in his office.

Requirements for the Master's Degree. Two higher degrees are offered: Master of Arts (A.M.), provided the candidate meets the foreign language requirements for the A.B. degree; and Master of Science (M.S.), if the candidate does not meet the foreign language requirement for the A.B. degree. A candidate will be graduated upon the completion of the following requirements: (a) a baccalaureate degree from an accredited institution; (b) 45 quarter hours of graduate credit approved by the Dean of the Graduate School and major professor; (c) a minimum residence of three quarters in the Graduate School; (d) a satisfactory thesis; (e) the passing of a final examination.

All requirements for the Master's degree must be completed within five consecutive years from the time that a student registers in the Graduate School. This regulation is effective with the beginning of the year 1948-49.

A candidate must secure a grade of "B" or above in three-fourths of his graduate work. No grade below "C" will count towards a Master's degree. An applicant for this degree must fur-

nish at least one-half of his graduate credit in his major subject. The remainder of the credit for this degree must be obtained in work closely related to the major subject.

When a student has received credit on an undergraduate level for any particular course, he may not receive graduate credit for the same course.

A maximum of nine (9) quarter hours of graduate extension credit may be applied toward a Master's degree, provided such credit has been earned through the Extension Division of this University and has been approved by the Director of the Extension Division and the Dean of the Graduate School at the time the student registers for such credit. All extension credit used to fulfill requirements for a higher degree must be closely allied with the major subject. No credit obtained in Home Study (Correspondence) course can be applied toward a Master's degree.

A maximum of nine (9) quarter hours of graduate credit earned in another accredited college or university may be applied toward a Master's degree provided such credit is closely integrated to the candidate's major field of study.

Under no circumstances will a candidate be permitted to apply more than a maximum of fifteen (15) quarter hours of combined extension and transferred credit in fulfilling the requirements for a higher degree. A minimum of thirty (30) quarter hours of graduate credit must be secured in residence in this institution. The use of extension credit and transferred credit for the Master's degree shall under no conditions modify the University requirement that a candidate for this degree must be in residence during a minimum of three quarters.

A graduate student may select his major professor in consultation with the head of the major department.

Thesis. A candidate for a Master's degree must submit a thesis which is based on work done in some field of investigation within the major department and which shows evidence of independent research. The direction of the writing of the thesis shall be under the supervision of a committee to be known as the Thesis Committee. This committee shall consist of the major professor, who shall act as chairman, and two other faculty members. The determination of the thesis subject and the personnel of the thesis committee is left to the major department, subject to the approval of the Graduate Council. The thesis subject and the committee must be approved no later than two quarters before the degree is conferred.

Each thesis is to be written in accordance with the provisions contained in the manual known as "A Manual for Writers of Dissertations" by Kate L. Turabian.

Each candidate is required to furnish abstracts of his Master's thesis—one abstract to accompany each copy of the thesis. The abstract is to have a maximum word limitation of 1400 words. A candidate must deliver complete unbound, approved copies of his thesis to his major professor and to the Dean of the Graduate School at least five days before the date of the final examination; otherwise the examination cannot be held as scheduled. A bound, typewritten copy of the thesis must be furnished to the University Library and also to the Church Historian's Office.

Final Examination. At least fifteen days before graduation, the candidate must take a final examination to be conducted by an examining committee of five voting members to be appointed by the Dean of the Graduate School in consultation with the major professor. The candidate, in order to pass this examination successfully, must receive four or more favorable votes. The examination may be oral or written at the discretion of the major department and must be held on the University campus under the direction of the major professor.

Summer Quarter

It is the policy of the Brigham Young University to make the summer session one of the regular quarters of the school year. A large corps of teachers, supplemented by well known educators from other institutions, offers a wide range of subjects from each of the departments of the school.

The summer session is divided into two terms so that students may be in attendance only part of the summer, if they desire, without hindrance to the completion of their courses. The first term is held on the Provo campus. The second term, ordinarily held on the Alpine Campus on the east slope of Mount Timpanogos, has been held, since the war, on the City Campus.

Arrangements are currently being made to offer specialized courses in geology, geography, botany, zoology, and art at the Alpine Campus.

The summer session provides the opportunity for persons who are employed during the usual nine months of schooling to pursue graduate work. It provides regular students the opportunity to complete requirements for graduation in a shorter time than four years.

Extension Division

The Extension Division offers the following services: extension classes, home study (correspondence) courses, adult education lectures and lyceum numbers; speakers for educational, civic, and religious gatherings; and visual aids for school, church, and other organizations. (For more details, see Extension Division section following Courses of Instruction.)

Special Services

The Division of Special Services is responsible for the welfare of students in the following areas of university life: Admission and Credits, Athletics, Attendance and Scholarship, Awards, Housing and Dormitories, Health Services, Orientation, The Counseling Service, Petitions, Public Relations and Scholarships, Student Organizations and Social Life, Student Publications, Student Employment, Student Loans, and Women's Activities.

Dean of Students

The Dean of Students is Director of the Special Services of the University. As such, he is expected to coordinate the agencies at work on special student problems. He initiates and recommends to the President needed policies and procedures in student life. It is his responsibility to administer the program recommended or approved by the President in the various areas of the Special Services.

Counseling Service

Each student at the University is entitled to the aid of the Counseling Service. All new Freshmen and new Sophmores are registered at the University under the direction of the Counseling Service, and remain in it until each student has chosen a major field of interest.

Personnel tests are given to new students as a basis of counsel and help in educational, occupational, and personal problems. The following officials in the faculty work with the Chairman of the Counseling Service: A Chairman of Tests and Measurements, a Chairman of Occupational Information, and about twenty faculty counselors, who are released from teaching loads proportionate to the time spent in counseling.

Counselor For Women

Of special assistance to women students is a Counselor for Women. She is a member of the Committee on Special Services and Chairman of the Committee on Women's Affairs. The Counselor for Women is available throughout each day to assist women students in meeting their personal problems.

Discipline

The maintenance of standards of honor, Christian integrity, and Latter-day Saint ideals is required. Within these limits the students are given the fullest freedom. Those who fail to conform to these standards either in personal habits or associations are subject to discipline.

The use of tobacco will not be permitted, and having improper associates or visiting places of questionable repute will not be tolerated. Any disciplinary announcement made by the president of the institution becomes a part of these regulations. Violations of regulations make the offender liable to suspension or expulsion from the University.

Regular attendance is required at all recitations, laboratory and field work. The chairman of attendance and scholarship has general supervision of the disciplinary work of the institution. Regular students who are not satisfactorily carrying at least ten hours' work will not be allowed to remain in the institution. Students who fail to make a grade of "C" in at least ten hours of academic work will be on probation for the following quarter. Only one quarter of probationary standing will be allowed.

Loan Funds

The lending of the following loan funds is under the supervision of the Committee on Special Services.

The Emmeline B. Wells Relief Society Loan Fund. In honor of Emmeline B. Wells, the General Board of the Relief Society has established a loan fund to assist young women to complete their school work.

Student Loan Fund. The Sophomore class of 1922 established a loan fund to assist students to complete their school work. This fund is augmented each year, the Sophomore class assuming the responsibility for making an annual addition.

Eliza Nicholls Taylor Loan Fund. This loan fund was established in 1945 by Thomas N. Taylor in memory of his mother, Eliza Nicholls Taylor.

Scholarships, Assistantships, and Awards

Graduate Assistantships. A number of departments of the University employ graduate students on a part-time basis. The remuneration varies according to the nature of the work and the training and experience of the applicant.

Students who secure such appointments are necessarily limited in the number of courses for which they may register.

All correspondence with regard to appointments as graduate assistants should be addressed to the Dean of the Graduate School. All applications for scholarships to Brigham Young University should be addressed directly to the Chairman of the Scholarship Committee.

Scholarships to High School Graduates. A scholarship of \$25 is available to a worthy member of each graduating class of a number of designated high schools. It is awarded on the basis of scholarship, character, and potentialities for leadership. Application should be made through the high school principal to the Chairman of the Committee on Scholarships.

Service Scholarships. The University annually grants many Service Scholarships to students capable of assisting departments with stenographic, clerical, laboratory, and other work. These scholarships afford opportunities to earn tuition and fees while acquiring valuable experience and training under supervision of faculty specialists. Application forms may be obtained from the Chairman of the Committee on Student Employment.

Annual Commercial Contest Scholarships. Scholarships are awarded to winners of specified events in the Intermountain Commercial Contest for high school students held at the University each year.

Speech Tournament Scholarships. The University awards two annual scholarships representing one year's tuition and fees to two high school seniors attaining the highest degree of excellence in

speech achieved in the Brigham Young University Speech Tournament. Character and scholarship record in the high school will also be considered in making the selection.

The Speech Department awards a quarter's free instruction in private speech to the student attaining highest excellence in dramatic art achieved in the Annual Speech Tournament. This private instruction may be taken from any member of the speech department staff.

Journalism Contest Scholarships. Three scholarships are awarded to winners in the journalism contests held in connection with the Annual Intermountain School Journalists' Conference at the University. Any high school or junior college student in attendance at the Conference is eligible to participate.

Provo Business and Professional Women's Club Scholarship. A scholarship of one year's tuition is awarded annually to a Provo girl who has completed her Freshman year and who is financially deserving. A member of the Business and Professional Women's Club acts with the committee which selects the recipient.

KSL Radio Scholarships. KSL of Salt Lake City annually awards two scholarships adequate to pay tuition during the following year at the Brigham Young University. These awards are given to encourage a greater and more professional interest in radio, perfection of the speaking voice, and for radio excellence in vocal and instrumental art. The recipients of the awards are to be selected by the Radio Committee and the Registrar. Actual radio participation will predominate the selections.

Charles E. and Margaret P. Maw Scholarships. Four scholarships of \$100 each will be awarded annually to outstanding upper division majors in chemistry.

KOVO Radio Scholarships. Radio Station KOVO awards annually a scholarship covering full tuition and regular student fees. The recipient of this scholarship is selected by the radio division of the Speech Department.

San Francisco Stake Scholarship. The High Priests' Quorum of San Francisco Stake offers annually a scholarship covering one year's tuition and regular fees for a student selected by the quorum from the San Francisco area.

The Nautilus Social Unit Scholarship. The Nautilus of N.L.U. social unit presents an annual scholarship good for one year's tuition to a freshman girl for her sophomore year. The girl is judged on participation in school activities and for academic excellence during her freshman year.

AWARDS

Students eligible for the following awards must be duly registered and carrying successfully at least ten hours of University work.

Provo Chamber of Commerce Efficiency Award. The Provo Chamber of Commerce presents annually a gold watch to the most efficient student of the University. Efficiency is judged on the basis of scholarship, social status, and public service.

Adams Gold Medal. Mr. and Mrs. Walter Adams present annually a gold medal to the most efficient student being graduated from the Music department whose major instrument is a stringed instrument.

Taylor Gold Medal. Taylor Brothers Company presents annually a gold medal to the most efficient student being graduated from the Music department whose major instrument is the piano.

Alpha Kappa Psi Scholarship Award. Alpha Kappa Psi Fraternity awards annually the Alpha Kappa Psi Scholarship Medalion to the male student of the junior class in commerce who possesses the highest scholastic average for three years' work taken in this University.

Dr. Horace G. Merrill Silver Loving Cup is awarded to the student of the University who shall attain first place in the annual Cross Country Run, held immediately preceding the Thanksgiving recess. Should a student win first place more than twice the cup becomes the property of such student.

Woolley Gold Medal. Miss Mary Woolley presents annually a gold medal to the student giving the best rendition of a dramatic reading.

Stein Gold Medal. Mr. J. Edwin Stein offers annually a gold medal to the most efficient athlete. Efficiency is based upon the participation in athletics, scholarship, and social activity.

R. R. Irvine Medal is presented annually for excellence in oratory, subject to be based upon some economic problem.

Class of 1919 Gold Medal is awarded annually for excellence in vocal art.

Noble Medal. Mrs. Hazel Noble Boyack offers annually a gold medal to the most efficient senior student enrolled in the Home Economics department. The selection of such student will be made by the faculty of the Home Economics department.

Gerald B. Barton Award. A paid membership in the American Chemical Society is given annually by Gerald B. Barton to an outstanding student in chemistry.

Mask Club Award. An award of \$25 is given annually to the junior or senior of the Speech Department attaining the highest average in scholarship and excellence in Speech Arts. This award

is given upon registration the following school year. The Dean of the College of Fine Arts and members of the speech faculty make the selection.

Harrison R. Merrill-Utah Magazine Awards. To honor the memory of the late Professor Harrison R. Merrill, the Utah Magazine annually offers three awards of \$25 each to be awarded to seniors of Utah high schools who write the best short stories on Western themes. Adjudication is by the Journalism Department faculty.

Margaret Vilate Elliott Awards in Home Economics. Through a provision in the will of Miss Elliott two cash awards of \$100 each are offered annually to upper division students who are majoring in Home Economics. The winners of the awards will be designated by the faculty of the department.

Gamma Phi Omicron Sorority Award. The Gamma Phi Omicron offers annually a cash award of \$25 to the lower division student in Home Economics selected for the award by the faculty of that department. This cash award is to be applied on the student's tuition for the following school year.

Sears Roebuck Award. A cash award of \$50 is given annually by the Provo management of Sears Roebuck & Company to an outstanding upper division major in Commerce. Selection is to be made by members of the department of Commerce.

American Association of University Women Award. The local chapter of this national organization offers annually a cash award of \$75 to the outstanding junior girl. This award is to be applied on the student's tuition for the following school year.

L. Wilkins Nuttall Award. An award of \$100.00 is presented annually by Dr. L. Wilkins Nuttall to a senior or junior student from the Department of Bacteriology for the outstanding paper presented in the field of Pathogenic Bacteriology. This work may represent original research or a review of recent work in the field.

Student Employment

The chairman of Student Employment assists worthy students in finding employment. This includes assistance not only in placing students in positions within the University campus, but also in finding part-time employment in off-campus jobs and work for board and room. Students are not encouraged to attempt to earn their entire way through school, since this ordinarily takes too much time from their studies. (See Scholarships.)

Student Health Services

Upon entering Brigham Young University, each regular student shall pay a Health Fee ~~\$20.50~~.

Student Health Fees shall be used by the University for required pre-admission and re-admission physical examinations; follow-up examinations; health guidance; care of minor illnesses and injuries of ambulatory nature; and such surgery and hospitalization as shall be designated from time to time by the University Committee on Student Health.

Student Housing

Residence halls, providing healthful and congenial living quarters for both men and women students, will be available on a cooperative basis.

Allen Hall, Amanda Knight Hall, and Campus Hall for women provide every modern convenience. All accommodations are furnished, including furniture, bedding and linen. Additional dormitory units are now under construction. Applications to live in any of the school residence halls should be filed with the Chairman of Student Housing before the opening of school, and should be accompanied by a deposit of \$10. If the student decides later not to enter the University, the deposit fee will be returned, provided notification has been given ten days before the opening of the term.

Wymount Village, completed during the school year 1946-47, provides housing for 300 single and 200 married veterans.

Board and room in private homes costs from \$8.00 to \$11.00 per week. By renting rooms and boarding themselves, students are able to reduce considerably the cost of room and board.

If students desiring assistance will call at the office of Student Housing when they arrive in Provo, they will be furnished lists of available living quarters. When students desire to change living quarters, they are expected to call on and notify the Chairman of Student Housing.

The University insists that men and women be housed separately. The boarding houses are inspected to see that accommodations are satisfactory. The University maintains two cafeterias where students may secure meals at cost.

Student Organization

Student Organization is designed to offer students maximum opportunity for training in leadership and self government and to promote participation in professional, academic, and scholastic association, and to provide a well-balanced social and cultural program for the entire student body. In order to coordinate the activities of the many organizations, to eliminate duplication of effort, and to lend continuity from year to year, all student organizations are supervised by the Dean of Students through the office of the Coordinator of Student Organizations.

To hold office in any student organization or to participate as an active member of any social organization, a student must show for the previous grade period at least 12 hours of academic work with above "C" (1.1) grade average with no more than 5 hours of "D" grade. In exceptional cases, where the best interest of the student would be served, this requirement may be modified by the faculty Committee on Special Services. Membership in service, departmental and professional, and religious organizations will be governed by eligibility regulations set up by such organizations, except that only those students actually registered for ten or more hours may hold active membership.

General Student Organizations

Associated Students. This organization is composed of all students who attend Brigham Young University, and is presided over by officers elected by them. It seeks to develop interest on the part of every student in all those activities which contribute to a more democratic "Y" spirit, and to provide opportunities for all students to participate in a well-rounded extra-curricular program. Through this organization, student traditions are kept alive. All interclass and intercollegiate activities are encouraged and unified by this organization. Social, forensic, dramatic, and music activities are fostered under its management and through it the students publish student periodicals; the "Y" News (weekly); and the University yearbook, the "Banyan." The organization also functions as an auxiliary of university discipline.

Class Organizations. Members of the four classes and the graduate school are organized for the purpose of developing common interests and class spirit as the class proceeds through the university and into the Alumni Association. Meetings of the classes are held periodically with a limited number of social functions planned by class officers under the direction of the Student Body Council.

Associated Men. All men students registered are members of the Associated Men. The organization is designed to promote specific interests of "Y" men and to foster a wholesome masculine atmosphere on the campus. The executive council, consisting of three student leaders and a faculty counselor, supplemented by the twelve members of the "Y" men's council, forms the governing group.

Associated Women. This is an organization comprising all women registered in the University. Its purpose is to aid and foster all women's activities. This organization is advised by the Counselor for Women and is a member of the Western Division of the National Organization of Associated Women Students, which includes practically all of the universities and colleges in the United States.

Council of Student Organizations. This council works under the direction of the officers of the Associated Students and the Coordinator of Student Organizations. It is composed of representatives from the various organizational groups; for example, social, service, departmental, professional, and honorary. The President of the Associated Students, or his representative, presides over this council at its regular meetings. Since all student organizations are represented on this council, it becomes the ultimate student-coordinating body for student organizations.

Service Organizations

White Key. Women's honorary organization installed on the campus in 1933. Membership consists of girls outstanding in scholarship, initiative, and ability to serve. Its purpose is to foster university activities of merit and to render service to the associated students.

Blue Key. The Blue Key national honorary leadership fraternity was chartered at the Brigham Young University in the Spring of 1932. Its purpose is to foster Student Body projects of merit which cannot well be handled by any other organization. It is an upper-classmen organization, the membership of which is fixed at from twelve to twenty active members.

Intercollegiate Knights. National Underclassman's Service Fraternity. It is designed to promote and foster fellowship, school activities and traditions, as well as inter-school friendship. Special duties include the lighting of the "Y" on the mountain, from which it derives the name of the Gold "Y" Chapter, sponsoring rallies, contests, and meets. Membership is based on activity and scholarship.

Y Calcares. A service organization for Sophomore girls. Membership may include Freshman girls of each spring quarter who have outstanding qualifications in scholarship, participation in school activities, and interest in the school affairs. Works with other service organizations on the campus.

Social Organizations

The University recognizes proper social development as one of the important products of college training. To provide for this type of experience, various social organizations are encouraged on the campus. It is expected that the spirit and ideals of the University will be fostered and that a democratic spirit will prevail in all social activities.

Social Units. Men's and women's social units accept as members the maximum number of students compatible with the idea of close friendship and congenial activity, founded on a common social interest. Supervision and assistance are furnished the units by faculty sponsors chosen by the units and acting in conjunction with the Coordinator of Student Organizations. The Inter-Social Unit Council, made up of representatives from each Social Unit, has directive power over the internal affairs of each unit and has the responsibility of promoting wholesome social activity and maintaining the high standard of the University among groups under its jurisdiction.

Lambda Delta Sigma. Lambda Delta Sigma, which operates under the general supervision of the coordinator of student organization, is a national organization of students having as its objective the fostering of religious, cultural, intellectual, and social ideals. It is sponsored by the Church Department of Education and at present extends to sixteen Western colleges. Its membership is open to all college students who desire to maintain Latter-day Saint standards of living. It is directed by an executive council through which all chapters operate. This fraternity is very active on the "Y" campus, with seventeen chapters now functioning.

Representatives from Lambda Delta Sigma chapters meet with representatives from the social units periodically in a "Social Council" to take appropriate action and make recommendations in regard to the social activities of the organization and the general student body.

Geographical Clubs. These clubs are organized to further social enjoyment and acquaintance among students from the same localities. They are particularly helpful to students during the early quarters of school before these students have found

their way into the other social life of the campus. Such clubs are also helpful in maintaining a close bond of interest between the student and his home.

Scholastic, Professional, and Departmental Organizations

The University encourages organizations which have the specific purpose of bringing together persons of similar scholastic and professional interests and of rendering their work more pleasurable and profitable. Each group fosters the activities of the department to which it is allied. Eligibility requirements are those of departmental affiliation and general scholarship as determined by the individual organizations. Fees are reduced to a minimum. Each organization has a faculty adviser.

Phi Eta Sigma. A national scholastic fraternity, organized to promote a higher standard of learning and to encourage high scholastic attainment among freshman men.

David Starr Jordan Biology Club. This club aims to develop interests in all forms of biological study and has, for its major project, the building of a library of natural science literature. Some 500 volumes have been collected by club members. The increasing animal and plant collections of the department and the laboratory at Utah lake offer interesting materials for new students. Besides resident students, the membership includes faculty members, alumni, and prominent townspeople.

Drama League. The purpose of this league is to foster the art of reading and dramatics, to appreciate paintings and music, and to give opportunity to its members to hear lectures and readings from the best talent of the state as well as from performers who are on the lecture platform and the stage. The society meets weekly. It is affiliated with the Drama League of America.

Foreign Language Clubs. Teachers and students interested in the study of French, Spanish, German, Portuguese, or Latin are organized into clubs. These clubs meet twice a month and enjoy programs of songs, talks, reports, games, etc., in which the foreign languages are the medium of speech. Membership is open not only to students but also to all people within easy reach of the University who have studied or are studying the modern languages. Membership privileges are especially extended to people of the community of French, German, Spanish, or Spanish-American birth.

Gamma Phi Omicron. (Home Economics.) An organization of the advanced students majoring in some phase of Home Economics. Its purpose is to develop culture and scholarship among its members, and to lend its aid in establishing better homes and community life.

Home Economics Club. The club is intended to create a professional spirit among students of Home Economics. Regular meetings are held at which interesting lectures are given. Special activities are fostered. All girls registered in Home Economic courses are eligible for membership.

Graduate Club. This club is an organization of the students of the University who are pursuing graduate study. The purpose of the organization "shall be to foster fellowship among its members; to stimulate a desire for higher learning; to assist in finding and developing leadership in the communities; and to use every effort to enhance the interests of Brigham Young University." A student becomes a member automatically upon registration in the graduate school.

"Y" Psychological Society. An organization to foster a better understanding of scientific psychology, and to supplement the regular courses of the department by affording the opportunity of discussing certain current problems by advanced students and outside speakers.

The "Y" Chemical Society. An organization consisting of students interested in the field of chemistry. Meetings are held every alternate week, at which time lectures dealing with the outstanding problems in chemistry, or material intimately connected with this field are given by authorities on the specific subjects. Various excursions to the outstanding institutions of scientific value and interest in the state are sponsored.

International Relations Club. The purpose of this club is to stimulate interest in a clearer understanding of international problems and to develop a spirit of world helpfulness and peace. The club is sponsored by the Carnegie Endowment for International Peace.

Omega Nu. The Omega Nu honorary journalism fraternity was founded in the autumn of 1935 to stimulate interest in journalism and to promote higher standards in the field.

Theta Alpha Phi. National professional dramatic fraternity. Co-educational. The Utah Beta Chapter was installed at this institution in 1924. The purpose is to foster artistic achievement in all of the arts and crafts of the theatre.

Alpha Kappa Psi. (Beta Delta Chapter.) A professional commerce fraternity, the purpose of which is to foster studies in commerce, encourage scholarship and association between members and the commercial world. Male College of Commerce students are eligible for membership.

Beta Beta Beta. (Phi Chapter.) Installed January 31, 1931. An international honorary biological fraternity, which emphasizes a three-fold program: Sound scholarship; dissemination of scientific knowledge; and promptness of biological research. All junior and senior students having twenty-four hours of biological credit are eligible for membership.

Sigma Pi Sigma. A national honorary Physics Society with the following objectives: (1) to stimulate high scholarship, (2) to create an interest in research and the advanced study of physics, and (3) to encourage friendship among the majors in the department. Installed May 2, 1936.

Tau Kappa Alpha. Honorary national debating fraternity. Those who engage in inter-collegiate debating and oratory or who attain marked distinction in forensic activity are eligible to membership.

Phi Chi Theta. (Psi Chapter.) Installed March 12, 1938. A women's national professional fraternity. The purposes and objectives for which this fraternity is organized are to promote the cause of higher business education and training for women, to foster higher ideals for women in business careers, and to encourage fraternal cooperation among women preparing for such careers.

Phi Alpha Theta (Beta Iota Chapter) Installed May 6, 1948. A national honorary history fraternity devoted to the following program: the promotion of sound scholarship, the recognition of high scholastic attainment, and the encouragement of association and fellowship among senior and graduate students in the field of history.

Religious Organizations

Delta Phi. A national honor fraternity whose membership on the "Y" campus is elected from those who have served as missionaries for more than six months. Its purpose is to foster spiritual activity, high ideals, fellowship and sociability. Regular programs and lunches are conducted during the school year at which men of the Church and state are the principal speakers. The "Y" chapter is associated with like chapters at the Utah State Agricultural College and the University of Utah.

Beta Pi. An honorary fraternity for returned women missionaries on the "Y" campus. Its purpose is to provide an opportunity for association of women missionaries in cultural, spiritual, and social activities, thereby maintaining the missionary spirit.

Many interesting and worthwhile activities are carried on during the school year.

Non-Student Organizations

B. Y. U. Women. The purpose of this organization is to foster the ideals of the institution and to help furnish recreation and social amusement for the faculty. A woman is eligible for membership in this organization and becomes a member on payment of dues provided that at the time she seeks admission she is either: (1) a present faculty member (a faculty member is one who holds at least the rank of instructor); (2) a past faculty member; (3) a matron; (4) a board member, (5) the wife of a faculty member who has died in the service of the school; (6) the wife of a present faculty or board member.

Faculty Fine Arts Club. This club is organized to develop and maintain a closer cooperation among the members of the fine arts faculty; to increase the appreciation of each member for all arts; to keep the members aware of what is going on in the various fields of fine arts; and to encourage among the members original creations in music, literature, painting, etc.

Alumni Association

The BYU Alumni Association was organized in 1893.

The purposes of the organization are to promote the general welfare of the university; to create and maintain an active interest among alumni members and friends in extending the influence of the university; to provide means of perpetuating friendships among alumni; to initiate and support activities which will further the interests of the university, its students and its alumni; and to aid the university in providing facilities to meet the educational and spiritual needs of the membership of the Church of Jesus Christ of Latter-day Saints.

Membership is extended to those who have attended the University for one or more terms; or who have supported it with substantial contributions of time, money, or property, or who are serving as general authorities, stake presidents, or president of foreign missions of the Church of Jesus Christ of Latter day Saints.

Annual dues, at the present time, are \$2.00.

Life membership, \$25. Life Memberships may be paid in installments of \$5 per year for 5 years; combined Life Memberships for husband and wife are \$35 and may be paid in installments of \$7 per year.

All Alumni Members receive copies of the Brigham Young Alumnus, official publication of the association.

The governing body of the association is the Alumni Council. This Council is composed of 18 Councilors at large, six of whom are elected annually by members of the association: 37 Regional Councilors appointed annually by stake presidents on a regional basis and by stake presidents outside the regional organizations; and approximately 40 Ex-officio Councilors.

The Executive Committee of the Alumni Council and its officers are elected annually by the Alumni Council on Alumni Day, for a term of one year. A full-time Executive Secretary-Treasurer, nominated by the Executive Committee, is appointed by the Board of Trustees of the University, for an indefinite period. Dr. Harold Glen Clark is the present Executive Secretary-Treasurer of the Brigham Young University Alumni Association.

BYU Alumni Clubs have been organized throughout the country and are carrying on active programs. The association has assumed the project of arousing interest in and raising funds for a Student Union Building to be built on the Y Campus. The building will house student body offices, alumni headquarters, cafeteria, bookstore, and recreational facilities.

Religious Opportunities

Brigham Young University students have excellent opportunities for participation in religious activities. Among the organizations which make this possible are the following:

University Assemblies. Instructive programs are offered at regular assembly periods each week during the year.

University Sunday School. This organization convenes every Sunday morning during the school year. Its purpose is to give opportunity for worship and Sunday School experience, and training for Church leadership. It is intended primarily for students of the University who are away from their home wards. The Sunday School is officered by students. Teachers are selected from the University Faculty.

Church Services. The various wards in Provo welcome students to their regular Sunday Services.

Sunday Evenings in the Joseph Smith Building. Each Sunday evening at 8:30 o'clock the Lambda Delta Sigma Organization provides a program of activities consisting of fireside chats, discussion groups, review of Latter-day Saint Church books, music appreciation, study of Latter-day Saint missions. All students are invited. Lambda Delta Sigma conducts its functions within the established program of the Coordinator of Student Organizations.

Endowments

The Jesse Knight Endowment Fund. On December 21, 1914, the late Jesse Knight made an endowment to the University of one hundred thousand dollars in six per cent bonds. The interest payments on these bonds, together with the payments on bonds which have matured, have been placed at interest, and the cash credit on this account now represents approximately twice the amount of the original endowment.

The Brigham Young University Permanent Endowment Fund. June 4, 1929, the B. Y. U. Associated Alumni initiated a permanent endowment fund for the University. Some very generous contributions and subscriptions were made at this alumni reunion, and the work of building such an endowment has been carried forward by the alumni and school officials with very gratifying results. Members of graduating classes since that time have shown a remarkably loyal spirit by subscribing to this fund.

Research Funds. The University is in possession of a number of research funds which make possible scientific investigation in several specific fields.

Library, Collections Laboratories

Library

The University Library contains more than 145,000 volumes and 50,000 pamphlets and bulletins. These publications cover all phases of human interest and offer opportunity to make intensive studies in almost any field of the sciences or arts. The library has for years been a Government Depository to receive all Government documents. These documents are all well classified and indexed. Besides the Government Documents the Library has nearly a complete set of all agricultural experiment station literature from every state in the Union. It regularly receives important state documents on education, history, politics, and various other topics as they are issued by the different states, and is on the publication exchange lists of many of the colleges and universities of the United States and elsewhere. The Carnegie Institution of Washington, the Carnegie Peace Foundation, the Rockefeller Foundation, the General Education Board, the American Council on Education, the Milbank Memorial Fund, the Bell Telephone Laboratories, and several of the largest business organizations, all supply technical and informative literature. The Library subscribes for such technical journals and magazines as are essential to a thorough college education, and it maintains its own book bindery.

Each year the Library strengthens itself along specialized lines through contributions of books to its special collections, of which the following are now active:

- B. Y. U. Women (Memorial) Collection—General.
- Brimhall Collection—Theology.
- Bennion Collection—Biography.
- Cannon Collection—General.
- C. H. Carroll—Medical.
- Chamberlain (Wm. H.) Collection—Philosophy.
- Egbert Collection—Music.
- Gates Collection—Early Middle American Literature.
- Harris Collection—Mexico.
- Heber J. Grant—General.
- Henning Collection—Archaeology.
- Hinckley Collection—Geology.
- International Relations Club—International Questions.
- Ivins Collection—The American Indian.

Christen Jensen Collection—Political Science.
Jex Collection—General.
Jordan Club Collection—Biology.
Lund Collection—Music.
McKay Collection—Education.
Mask Club Collection—Dramatics.
Nelke Collection—General Literature.
Reynolds Collection—Literature.
Smith (F. W.) Collection—Chemistry.
Sorosin Club Collection (Memorial)—General.
Spilsbury Collection—Home Economics.
Talmage Collection—Science and Religion.
Utah and Provo Stakes Collection—Genealogy.
Whitaker Collection—Foreign Languages.
Whitcotton Collection—Literature.
Widtsee Collection—Agriculture.

The Library is open each school day during the regular school year from 8 A.M. until 10 P.M.; on Saturdays from 10 A.M. until 4 P.M.; and during the Summer Session from 7:30 A.M. until 9 P.M.

Departmental Libraries

Several of the departments have made collections which range from a few dozen to several thousands of books and pamphlets which are used to supplement laboratory and class work. Most of the books in the department libraries are not included in the enumeration given above for the main Library.

Scientific and Art Collections

The **Archaeological Collection** includes a number of well prepared case exhibits of Utah Indian materials, including pottery, basketry, stone implements, wearing apparel, and picture writing. It also includes a number of South Pacific Islands collections, together with what is thought to be the finest South American collection of Indian pottery in the West.

The **Botanical Collection** includes a herbarium of liverworts, mosses, and vascular plants; and also an extensive series of preserved algae, fungi, liverworts, mosses, ferns, and seed plants. There is also included a series of plants which illustrate various plant diseases.

The herbarium is made up principally of plants collected throughout the Western States, but many species from other regions are included. The collection of North American plants includes 170 families, 1,000 genera, and 3,500 species, represented by about 20,000 herbarium sheets. There is also a collection of plants from Siberia, obtained by President F. S. Harris in 1929, as well as a small group of plants from Europe and from South America.

The Fine Arts Collection of paintings, sculpture, drawings, etchings, engravings, monotypes, lithographs, and reproductions of works of art are as follows:

I. Memorial Collections.

1. The Lee Green Richards Collection of 36 paintings.
2. The James T. Harwood Collection of 90 paintings, etchings, and drawings.
3. The John Hafen Collection of 24 paintings.
4. The Elbert H. Eastmond Collection of 64 paintings
5. The John Willard Clawson Collection of 85 paintings and sketches.
6. The Maynard Dixon Collection of 85 paintings and sketches.
7. The Edwin Evans Collection of 61 paintings.
8. The Rose Hartwell Collection of 71 paintings.
9. The Rose Hartwell Crafts Collection.
10. The Joseph Imhof Collection of lithographs.

II. There are many other Utah artists represented in the Brigham Young University Fine Arts Collection, including George M. Ottinger, Daniel Weggeland, John Hafen, Loris Pratt, John B. Fairbanks, Samuel Jepsen, Minerva Teichert, Alma Wright, Waldo Midgley, Calvin Fletcher, Cornelius Salisbury, Joseph Everett, Henri Moser, Torlief Knaphus, Avard Fairbanks, Henry Rasmussen, etc.

III. Well known national artists represented in the collection include Lee Randolph, George Elmer Browne, Fern Gary, Gordon Grant, Marie A. Hull, Haley Lever, Clarence Millet, Luis F. Mora, Chauncey F. Ryder, Matteo Sandona, W. Lester Stevens, Anthony Thieme, John Law Walker, J. Alden Weir, John Whorf, Eliot Daingerfield, George Pierce Ennis, John E. Costigan, George Henry Taggart, William Morris, Jon Corbino, J. Conna-way, Robert Brackman, Peter Hurd, Marguerite Pearson, Henry W. Ranger, John Twachtman, John F. Carlson, and Gene Kloss.

IV. Original etchings, lithographs, prints, including the work of Ernest Fiene, Rockwell Kent, Joe Jones, Reginald

Marsh, Waldo Pierce, and Herbert Dunton; there are also 24 Rembrandt replicas.

- V. Oriental art, including Japanese paintings, prints, and reproductions.
- VI. Reproductions of famous works of art including various types of modern art.
- VII. Large collections of slides, including natural color slides and the George K. Lewis memorial collection of koda-chrome slides.

The Geological Collections of the University consist of an unusually complete series of minerals and an interesting variety of fossils.

The minerals number many thousands and are representative of the great western mining districts together with hundreds of localities of note. Part of this collection once represented the nucleus of the famous Deseret Museum Collection of Salt Lake City.

The fossil series are representative of many states and typical world localities. Much of this material was also formerly a part of the Deseret Museum collection. The vertebrate collection is especially rich in original fossils and casts of the characteristic mammalian fauna that lived in the western states during the immediate geologic past.

The Zoological and Entomological Collections of the University consists of a large series of identified vertebrate and invertebrate species of Utah and contiguous states. A complete series of fish, amphibians, reptiles, birds, and mammals of this region are to be found in the collection. The fish collection is especially rich in species and specimens from the intermountain region. The bird collection consists of about 4,500 skins, 1,000 of which were collected in the Magdalena River Valley of South America by Chester Van Buren in 1901-03.

The Entomological collections consist of 270,000 specimens. The Tom Spaulding Collection of Utah Lepidoptera, the Chester Van Buren Collection of South American Butterflies, the Charles W. Leng Weevil Collection, the Charles Schaeffer Weevil Collection, and many species of weevils from the Blatchley Collection form important portions of this collection.

These collections are being added to annually by means of collection expeditions that are sent out to various parts of the western United States. During 1944-45, 1,000 specimens of reptiles and 25,000 specimens of insects were received from staff members and former students who were on duty in the South Pacific.

College of Applied Science

THOMAS L. MARTIN, DEAN

The aim of the College of Applied Science is to provide instruction in the scientific principles and technical operations pertaining to the farm, the home, the shop, and the professions, trades, and industries related to the same. Students may specialize in any one of the many fields of applied science and prepare for capable leadership and efficient service in their chosen lines.

The degrees, Bachelor of Science and Bachelor of Arts, are given to graduates of this College.

Majors may be selected from the following departments in the College of Applied Science: Agronomy, Animal Husbandry, Bacteriology, Horticulture and Landscape Architecture, Mechanic Arts, Home Economics.

The following courses, or their equivalents, fulfill the minimum Home Economics Department requirements for a Utah State First Class Vocational Certificate in Home Economics, and replace the department major and minor requirements.

| | |
|---|---------|
| Clothing and Textiles, 1, 2, 15, 55, 68, 80 | 17 hrs. |
| Foods and Nutrition 10, 11, 12, 25, 50 | 19 hrs. |
| Household Administration 10, 60, 61, 62, 64, 80, 81, 60b, 71, 72, 73 | 29 hrs. |
| Total | 65 hrs. |

Pre-Professional Registration

The College of Applied Science offers courses preparatory to a career in nursing. Prospective students in the field of nursing should take advantage of the guidance offered.

PRE-NURSING COURSE

Adviser: D. A. Anderson (Bacteriology Dept.)

Through a cooperative agreement with the Latter-day Saints Hospital at Salt Lake City, Utah, the first year pre-nursing course may be taken at the Brigham Young University. Upon completion of this course, students may enroll for nursing training at this hospital.

The prescribed course is as follows:

| Autumn | | Spring | |
|--|----------------|---------------------------|----------------|
| Chemistry 7 | 5 hrs. | Chemistry 9 | 5 hrs. |
| English 1 | 3 hrs. | English 3 | 3 hrs. |
| Physical Ed. | 1 hr. | Physical Ed. | 1 hr. |
| Religion | 2 hrs. | Bacteriology 21-22 | 5 hrs. |
| Health 1 | 1 hr. | Religion | 2 hrs. |
| History (20th Century American or European)..... | 5 hrs. | | |
| | | Total | 16 hrs. |
| Total | 17 hrs. | | |
| Winter | | Summer | |
| Chemistry 8 | 5 hrs. | Psychology 11 | 5 hrs. |
| English 2 | 3 hrs. | Sociology 12 | 5 hrs. |
| Physical Ed. | 1 hr. | Speech or Literature..... | 3 hrs. |
| Zoology 11 | 5 hrs. | Elective | 3 hrs. |
| Religion | 2 hrs. | | |
| | | Total | 16 hrs. |
| Total | 16 hrs. | | |

Upon satisfactory completion of the hospital training program the student may return to the Brigham Young University for a final quarter of elective and academic courses necessary to satisfy group requirements.

On a satisfactory completion of this work the student is then eligible to receive the Bachelor of Science degree with a Major in Nursing Education.

Departments of Instruction

Agronomy

Professors Martin, Harrison, Stewart; Associate
Professors Anderson, Farnsworth; Assistant
Professor Goates; Mr. Reimschiissel.

For students desiring to major in agronomy and soils 30 hours of agronomy will be required. In addition, the following courses are recommended: Chemistry 14, 15, 16, 31, 32, 151, 153 or 161, 162, 163; Mathematics 11, 12, 13, 101, 102, 103; Physics 41, 42, 43; Botany 1, 3, 140, 150; Geology 1, 12, 119; Zoology 11, 29; Entomology 30; Bacteriology 21, 22.

The above recommended courses may be altered, depending upon the phase of agronomy in which a student desires to specialize.

Lower Division Courses

20. **Cereal Crops.** (3) A. Farnsworth
Classification, history, and cultural methods involved in the production of cereal crops.
21. **Root and Special Crops.** (3) W. Farnsworth
Cultural methods, market types, and commercial possibilities of sugar beets, potatoes, etc.
22. **Forage Crops.** (3) A. (Not given this year) Farnsworth
Alfalfa, clovers, grasses, and other forage; meadow and pasture management, silage and soiling crops are discussed.
25. **Farm Management.** (3) W. Farnsworth
A consideration of types of farming, farm layout, farm capital, equipment, labor, tenancy, farm records, and farm improvement.
41. **Introductory Soils.** (4) A. Martin
An introductory course dealing with the physical, chemical, and microbiological properties of soils. Three lectures. Two one-hour lab. periods each week.

Upper Division Courses

101. **Soil Physics.** W. Prerequisites: Agronomy 41, Chemistry 14, 15, 16; Mathematics 11,13. Farnsworth
A detailed study of the physical composition of soils—sand, silt, clay, and organic matter, and their effects upon the air, water, and temperature relationships in the soil.
103. **Soil Chemistry.** (3) S. Goates
(See Chemistry 103)
105. **Soil Fertility.** (3) A. Recommended: Chemistry 14, 15, 16, and Agronomy 41. Farnsworth
This course involves a study of the underlying principles of soil fertility. Soil alkali, soil chemical analysis, commercial fertilizers, farm manures, green manures, crop rotations.
106. **Soil Chemical Analysis.** (3) A. Prerequisites: Agronomy 55, Chemistry 21, 22. Farnsworth
This course is a study and the chemical analysis of soils, crop residues, and humus.

- 107. Soil Classification, Conservation, and Survey.** (3) S. Prerequisites: Agronomy 41, Geology 1 or 12 and 132.

Farnsworth

A study is made of the influence of geologic forces and climatic environment on soil development; classification of soils based upon soil profile characteristics. Methods of soil conservation and soil survey are emphasized.

- 135. Range Forage Crops.** (3) A. Harrison
(See Botany 135)

- 158. Weed and Seed Analysis.** (3) A. Reimschiessel
(See Horticulture 158)

- 159. Plant Breeding.** (3) W. Staff
(See Horticulture 159)

- 173. Range Management.** (3) S. Prerequisites: Botany 1, 3, 110, and 150. Farnsworth, Stewart

A course dealing with the problems associated with the management of range lands. It has to do with grazing, re-vegetation, and maintenance of range lands.

- 192. Soil Microbiology.** (3) S. Prerequisites: Bacteriology 21, 22, Agronomy 105. Martin

A lecture course designed to acquaint the student with bacteria in relation to soil fertility.

- 193. Soil Microbiology Laboratory.** (2) S. Prerequisites: Agronomy 92, Chemistry 21, 22. Farnsworth

A laboratory course designed to accompany soil microbiology.

- 196. Seminar.** (1) A.W.S. Martin, Farnsworth

Current agronomic literature, agricultural problems. Required of all graduate students majoring in agronomy.

- 197. Research.** Seniors specializing in agronomy elect research work from three to six hours. Time and credit to be arranged. Martin, Anderson, Stewart, Farnsworth

- 198. Special Problems.** W. S. Credit and subject matter to be arranged. Martin, Anderson, Stewart, Farnsworth

Graduate Courses

- 201. Soil Physics.** (3) A. Farnsworth

- 207. Soil Classification.** (3) S. Farnsworth

223. **Advanced Range Management.** Time and credit to be arranged. Stewart
259. **Plant Breeding.** (3) W. Daines
(See Horticulture 259)
291. **Conservation of Plant and Soil Resources.** (4) (Not given this year) Stewart
292. **Soil Microbiology.** (3) S. Martin
293. **Soil Microbiology Laboratory.** (2) S. Farnsworth
296. **Seminar.** Credit to be arranged.
297. **Research.** Time and credit to be arranged.
298. **Special Problems in Soils.** Time and credit to be arranged.
299. **Agricultural Literature.** Time and credit to be arranged.
300. **Thesis for Master's Degree.** Credit to be arranged.

Animal Husbandry

Associate Professor Richards; M. Nicholes, D.V.M.

Major in Animal Husbandry should take Zoology 11 and 29 and Chemistry 14 and 15 as soon as possible. Animal Husbandry 7 and 15 are prerequisites for most of the upper division Animal Husbandry classes. The following courses should be completed by Animal Husbandry majors during the first two years: Animal Husbandry 5, 7, 10, 11, 15, and 32.

Lower Division

1. **General Animal Husbandry.** (3) A. Staff
A general course in Animal Husbandry designed for students who do not major in this field but desire an introduction to this subject.
2. **Breeds of Livestock.** (5) W. Richards
A study of the breeds of livestock with emphasis on the conditions under which the breeds were developed and their adaptability to western conditions.
5. **Livestock Judging and Selection.** (3) S. Staff
A study of animal types and their relation to the functions of animals. The Brigham Young University animals will be

used, and field trips will be made to farms of the county where practice in selection and judging of animals for both commercial and show purposes will be given.

7. **Feeds and Feeding.** (5) A. Prerequisite: High School Chemistry and botany, or a college course in each. Farnsworth
A study of practical methods in feeding.
10. **Veterinary Physiology and Anatomy.** (5) A. Prerequisite: Zoology 11. Preparatory course for Animal Husbandry 11. M. Nicholes
The anatomy and physiology of domestic animals are studied.
11. **Veterinary Science.** (5) W. Prerequisite: Animal Husbandry 10. M. Nicholes
The prevention and practical treatment of common diseases of farm animals.
15. **Fundamentals of Animal Breeding.** (5) W. Prerequisites: Zoology 11. Richards
A study of the principles involved in breeding farm animals, including physiology or reproduction, heredity and variation, selection and systems of breeding.
21. **Elements of Dairying.** (5) A. Four lectures and one three-hour laboratory period. Richards
General principles of breeding, feeding, and management of dairy cattle.
22. **Cow Testing.** (2) A.W.S. Richards
Instruction and actual testing of butterfat for the Utah County Dairy Herd Improvement Association.
25. **Farm Management.** (4) W. Farnsworth
A general consideration of types of farming, farm layout, farm capital, and farm accounts. (See also Agronomy 25.)
32. **Fitting and Showing Livestock.** (3) S. Three two-hour laboratory periods per week. Richards
Each student will be assigned an animal to fit and show at one of the spring shows.

Upper Division

107. **Animal Nutrition.** (3) W. Prerequisite: Animal Husbandry 7. Staff
Advanced work in livestock feeding.

- 108. General Poultry.** (3) W. Staff
A study of breeding, incubating, brooding, housing, feeding, and marketing poultry.
- 110. Milk and Milk Products.** (3) A. Staff
Modern methods of producing, grading, processing, and marketing milk and dairy products.
- 111. Dairy Manufacturing.** (5) W. Staff
Prerequisites: Animal Husbandry 110. Three lectures and two laboratory periods.
A brief course in plant operation and processing of dairy products.
- 115. Advanced Animal Breeding.** (3) S. Prerequisites: Animal Husbandry 15 and Zoology 29. Richards
Advanced work in livestock breeding.
- 116. Pedigree and Herd Book Study.** (2) S. Prerequisites: Animal Husbandry 15 and 21. Richards
Interpretation of pedigrees and research in herd books of the major breeds of livestock.
- 150. Horse Husbandry.** (3) S. M. Nicholes
A brief study of breeds of horses, with instruction in feeding, training, and management. Special emphasis will be given the cow-horse, and the American saddle horse. Each student will be required to work on the Annual Horse Show sponsored by the Agricultural Club in May.
- 154. Beef Production.** (4) A. Three lectures, and one two-hour laboratory period per week. Two Saturday field trips. A field trip to Ogden Livestock Show included. Prerequisites: Animal Husbandry 7, 15. Richards
The problems of breeding, feeding, and management of range cattle, feeder cattle, and purebreds will be studied.
- 155. Sheep Production.** (3) S. Prerequisites: Animal Husbandry 7, 15. Staff
Feeding, care, and management of farm and range sheep.
- 156. Swine Production.** (3) S. Staff
Breeding, feeding, and management of swine on western farms.
- 161. Veterinary Clinic.** (3) S. Two lectures and one special laboratory period arranged. Prerequisites: Animal Husbandry 10, 11. M. Nicholes
Diagnosis, treatments, and laboratory and field experience in veterinary work.

162. **Dairy Bacteriology.** (3) A. Two lectures and one two-hour laboratory period per week. D. Anderson
(See also Bacteriology 62.)
165. **Artificial Insemination.** (3) S. Prerequisite: Animal Husbandry 15. Richards
Methods and techniques of artificial breeding will be studied, followed by laboratory work.
171. **Dairy Production.** (4) W. Three lectures and one two-hour laboratory period per week. Prerequisites: Animal Husbandry 7, 15, 21. Richards
Advanced work in feeding, breeding, and milk secretion; some instruction and practice in dairy manufacturing.
175. **Animal Husbandry Seminar.** (1) A.W.S. Required of all majors. Staff
Current problems in the field of animal husbandry will be studied and discussed.
182. **Animal Husbandry Research.** Time and credit arranged. Staff
Students will be expected to outline a research problem in some phase of Animal Husbandry.

Graduate Courses

201. **Animal Breeding Research.** (2 to 5) Time arranged Staff
202. **Animal Nutrition Research.** (2 to 5) Time arranged. Staff
203. **Animal Disease Research.** (2 to 5) Time arranged. Staff

Bacteriology

*Administered jointly by College of Applied Science and
College of Arts and Sciences*

Professor Martin; Associate Professors Anderson, Farnsworth; J. W. Weight, M. D.

Bacteriology is one of the subjects comprising the composite major in Biological Science designed for prospective teachers. (See College of Education.)

Pre-nursing training is under the direction of the Department of Bacteriology. The adviser is Professor Anderson.

Lower Division Courses

- 21. General Bacteriology.** (3) A.W., Martin; A.W.S. Anderson and Farnsworth
This course will consist of a study of the general characteristics of microorganisms and their relation to man.
- 22. General Bacteriology Laboratory.** (2) A.W.S., Anderson; A.W. Farnsworth

Upper Division Courses

- 160. Sanitation and Public Health.** (3) S. Prerequisites: Bacteriology 21, 22. Anderson
A study of the application of sanitary and public health practices to the health of the individual and the community.
- 162. Bacteriology of Milk.** (3) A. Prerequisites: Bacteriology 21, 22. Anderson
Attention is given to the bacteria of milk and milk products in general, and also their relation to disease.
- 169. Food Bacteriology.** (3) S. Anderson
A study of microorganisms responsible for food spoilage, together with the disease relationships.
- 173. Clinical Diagnosis.** (3) S. Weight
A course designed to acquaint students with work done in hospitals and clinical laboratories. Emphasis on pathology.
- 174. Clinical Diagnosis Laboratory.** (2) S. Anderson
- 181. Medical Bacteriology and Immunology.** (3) W. Prerequisites: Bacteriology 21, 22; Chemistry 21, 151. Anderson
An advanced course in bacteriology designed for those who are preparing for nursing, public health, bacteriology, dietetics, and medicine.
- 183. Medical Bacteriology and Immunology Laboratory.** (2) W. Prerequisite: Bacteriology 181 Anderson
- 186, 187, 188. Applied Clinical Diagnosis Laboratory.** (3) A.W.S. Martin, Anderson
This work is done in an approved hospital laboratory during a year's practical intern work. The hospital is accredited by the American Medical Association through its council of Medical Education and hospitals. Its pathologists are recognized by the American Society of Clinical Path-

ologists. The training includes applied clinical bacteriology, serology, parasitology, micrology, hematology, micro-technique, clinical laboratory methods, and clinical biochemistry. The final credit is allowed when a statement is received from the approved pathologist that the student has completed the intern year and is eligible to take the examinations of the American Society of Clinical Pathologists.

192. **Soil Microbiology.** (3) S. Prerequisites: Bacteriology 21, 22; Agronomy 41, 105; Chemistry 14, 15, 16. Martin

A lecture and laboratory course designed to acquaint the student with microorganisms in relation to soil fertility.

193. **Soil Microbiology Laboratory.** (2) S. Prerequisite: Bacteriology 92. Chemistry 21, 22. Farnsworth

194. **Seminar.** (1) A.W.S. Martin, Anderson

195. **Special Problems in Bacteriology.** Credit and subject matter to be arranged. Martin, Anderson

The burden of the course has to do with problems in determinative bacteriology, algae and fungi activities in soil, fermentation, disinfection and antiseptic studies, organisms which infect the nose and throat, food and fomite studies. Types of problems selected will be based upon the previous preparation of the student.

Graduate Courses

251. **Systematic and Determinative Bacteriology.**

272. **Clinical Diagnosis.**

274. **Clinical Diagnosis Laboratory.**

281. **Medical Bacteriology.**

283. **Medical Bacteriology Laboratory.**

292. **Soil Microbiology.**

293. **Soil Microbiology Laboratory.**

295. **Physiology and Biochemistry of Bacteria.** (3) W.

296. **Seminar.**

298. **Special Problems.**

300. **Thesis for Master's Degree.** Credit to be arranged.

Home Economics

Professors Barlow, Warnick, Larsen, Poulson; Associate Professors Bryner, Billings; Mrs. Garnett, Mrs. Lewis, Mrs. Potter, Miss Romney, Miss Stewart, Mrs. Jorgensen

It is advised that students of Home Economics who are preparing to enter the teaching profession take the composite major in this department as this is required for a First Class five-year certificate in vocational home economics. A major or minor may also be obtained in Clothing and Textiles, Foods and Nutrition and Household Administration.

All freshmen who expect to major in Home Economics are advised to take Household Administration 5. All majors are required to take Chemistry 7, 8, and 9; Bacteriology 21 and 22; Zoology 45 or 165 and 166; Art 10, 14, and 62.

Elective courses in Art, Speech, and Journalism are recommended.

The following courses, or their equivalents fulfill the minimum department requirements for a Utah State First Class Vocational Certificate in Home Economics and replace the department major and minor requirements. Additional courses are elected with advice of the major professor to make a total of at least 60 credit hours:

Clothing and Textiles 1, 2, 55, 125, 140, 180.

Foods and Nutrition 10, 11, 12, 50, 52, 150.

Household Administration 80, 161, 164, 165, 166,
171, 172, 173, 181, 182.

The following courses fulfill the requirements prescribed by the American Dietetic Association for pre-dietetic training:

Chemistry 7, 8, 9 and 109; Zoology 45 or 165 and 166; Bacteriology 21 and 22; Education 163; Psychology 11; Sociology 11; Economics 1; Secondary Education 181; Foods and Nutrition 10, 11, 12, 125, 150, 151, 153, 154, 155, and 156. Household Administration 160 and Accounting 1 are recommended.

Clothing and Textiles

Clothing and Textiles 1, 2, 3, 55 or 160 and 161, 120, 125, 140, 141, 142, 162, 180 and 195 are required of all who major in Clothing and Textiles. Other additional courses are elective with the advice of the major professor. Chemistry 7, 8, and 9 or equivalent and Art 10, 14 and 62 are required.

Lower Division Courses

- 1 or 101. Selection and Construction.** (3) A.W.S. Laboratory hours to be arranged. Billings, Potter

Analysis of fashion trends as they effect the selection of personal clothing; study of basic measures used by commercial pattern makers and methods of adjusting the pattern to individual needs. Selection and construction of a tailored dress by the use of a commercial pattern.

- 2 or 102. Design and Construction.** (3) W.S. Laboratory hours to be arranged. Prerequisite: Clothing and Textiles 1 or 101, Art 10. Billings, Potter

An analysis of garment design and personal line and color. Emphasis is placed on fabric and design as it affects the character of the custom. One garment is made.

- 3 or 103. Wardrobe Building.** (2) S. Laboratory hours to be arranged. Prerequisite: Clothing and Textiles 2 or 102, Art 62. Billings

Study of costume ensemble. Construction emphasis upon sewing techniques and short cuts to speed and efficiency.

- 30. Dress Selection and Appreciation.** (3) A.W.S. Potter

Selection and purchase of the personal wardrobe. Consideration will be given to the clothing budget, suitability of costume to use, care and repair of the personal wardrobe, good grooming, and relation of clothing to individual success.

- 55. General Textiles.** (3) A.W.S. Potter

Fundamental textile fibres, yarns, weaves, color and finishes with reference to uses in fabrics for clothing and household.

Upper Division Courses

- 110. Children's Clothing.** (2) S. (Not given this year.)

A consideration of design and construction of children's clothing suitable to various ages and types with special emphasis on physical and psychological needs of the child as related to clothing.

- 120. Tailoring.** (3) A.W. Prerequisites: Clothing and Textiles 1, 2, and 3 or equivalent. Billings

Tailoring techniques applied to the construction of coats and suits.

- 125. Family Clothing.** (3) S. Billings
Study of the wardrobe needs of the family and problems relating to the purchase, care, and construction of the family clothing. To buy or to sew, a comparison of needs and values with some remodeling of garments to provide basis for comparison.
- 140. Pattern Design.** (3) A. Laboratory hours to be arranged. Prerequisites: Clothing and Textiles 1, 2, 3, and 55. Billings
The principles of draping and dress design, cutting, fitting and finishing. The basic muslin pattern is used to facilitate efficient self-fitting.
- 141. Historic Costume.** (3) W. Prerequisites: Art 10, 62; Clothing and textiles 1, 2. Billings
Study of period costume as an expression of fashion which reflects the social and artistic life of the time. Emphasis is placed on those phases of costume which provide inspiration for modern design.
- 142. Costume Design.** (3) S. Prerequisite: Clothing and Textiles 141. Billings
Principles and the interpretation of artistic design. Emphasis is placed on creative design by the use of motifs and fashion sources which will aid in development of dress.
- 160, 161. Advanced Textiles.** (2) W.S. (Not given this year.)
History of primitive and modern methods of manufacturing textile fibers. The construction and finish of fabrics and factors influencing the quality and cost.
- 162. Textile Economics.** (2) W. Prerequisite: Clothing and Textiles 55: Potter
A study of the factors involved in the selection and purchase of clothing with special reference to existing guides and sources of buying information for the consumer-buyer. Field trips to stores and industries.
- 180. Home Furnishings.** (2) A.W.S. Limited to ten students. Potter
Materials, construction processes, and selection of furnishings for the home.
- 190. Special Problems.** (2) A.W.S. With advice of instructor. Billings
- 195 Seminar.** (2) S. (Time to be arranged.) Potter

Graduate Courses

- 201. **Selection and Construction.** (3) (Not given this year.)
- 202. **Design and Construction.** (3) (Not given this year.)
- 240. **Pattern Design.** (3) (Not given this year.)
- 260, 261. **Advanced Textiles.** (3) (Not given this year.)
- 262. **Textile Economics.** (3) (Not given this year.)

Foods and Nutrition

Foods and Nutrition 10, 11, 12, 125, 150, 153, 154, 155, 156 are required of all who major in Foods and Nutrition. Other additional hours are elective with the advice of the major professor. Chemistry 7, 8 and 9 or equivalent are required.

Lower Division Courses

- 9. **Meal Service.** (2) S. Barlow
A non-laboratory course including a study of the factors involved in various types of meal service. Includes demonstrations and discussion.
- 10 or 110. **Introductory Foods.** (3) A.W.S. Two lectures and two two-hour laboratory periods per week. Barlow, Romney, Stewart
Principles involved in the cookery of foods for family meals.
- 11 or 111. **Menu Planning and Meal Service.** (3) W. S. Two lectures and two two-hour laboratory periods per week. Prerequisite: Foods and Nutrition 10 or 101. Barlow, Romney, Stewart
Experience is given in menu planning, food buying and meal service of various types.
- 12 or 112. **Advanced Food Preparation and Preservation.** (3) A. S. Two lectures and two two-hour laboratory periods per week. Prerequisites: Foods and Nutrition 10 and 11, Chemistry 7 and 8, or equivalent. Barlow
A study of factors affecting the preparation and preservation of standard food products from the experimental viewpoint.
- 25 or 125. **Food Economics.** (3) A.W.S. Stewart
Food purchasing as affected by markets, advertising, brands and other factors. (Field trips.)

- 50. Elementary Nutrition.** (3) A.W.S. Required of students majoring in vocational Home Economics. Stewart

The study of the fundamentals of nutrition and the use of the diet in maintaining physical fitness. Open to men and women.

- 52. Diet for the Family.** (2) S. Required of students majoring in vocational Home Economics. Prerequisite: Foods and Nutrition 50. Barlow

An application of nutrition principles to meet the food needs of the family.

Upper Division Courses

- 109. Chemistry of Foods.** (5) S. Bryner
(See Chemistry 109.)

- 150. Large Quantity Cookery.** (5) A.W.S. Limited to seven students each quarter. Prerequisites: Foods and Nutrition 10, 11, and 12, or equivalent. Jorgensen

Practical experience in the preparation of food, management, large quantity marketing, and simple accounting applied to the institutional field.

- 151. Institution Management.** (5) S. Lectures, Field trips, and practical experience to be arranged. Prerequisites: Foods and Nutrition 25 and 150. Jorgensen

- 152. Nutrition for Children.** (3) A. (Not given this year.)

Nutritional requirements and feeding problems of pregnancy, infancy, and pre-school child.

- 153. Nutrition.** (4) A. Three lectures and one three-hour laboratory period per week. Prerequisites: Chemistry 9 and Foods and Nutrition 12 or equivalent. Barlow

A study of fundamental principles of Nutrition and their relation to health and growth.

- 154. Dietetics.** (4) W. Three lectures and one three-hour laboratory period per week. Prerequisites: Chemistry 9 and Foods and Nutrition 153. Barlow

A study of the requirements of normal individuals and calculation of dietaries to meet these needs.

- 155. Nutrition in Disease.** (4) S. Three lectures and one three-hour laboratory period per week. Prerequisites: Foods and Nutrition 153 and 154. Barlow

This course deals with the value of food in maintaining health. Emphasis is placed on special diets for different diseases.

156. **Readings in Nutrition.** (2) W. Required of all senior students majoring in Foods and Nutrition. Barlow

Graduate Work

250. **Large Quantity Cookery.** (5) (Not given this year.)
 253. **Nutrition.** (4) A. Barlow
 254. **Dietetics.** (4) W. Barlow
 255. **Nutrition in Disease.** (4) S. Barlow
 256. **Readings in Nutrition.** (2) W. Barlow

HOUSEHOLD ADMINISTRATION

Household Administration 80, 160, 161, 163, 164, 165, 166, 181 and 182 are required for all students who major in Household Administration. Other additional hours are to be elected with advice of the major professor. Chemistry 7, 8, and 9 or equivalent, and art 10, 14 and 62 or equivalent are required.

Lower Division Courses

5. **Introduction to Home Economics.** (1) A. Required of all Freshmen majoring in home economics. Warnick
 Designed to orient beginning students in the field of Home Economics. Vocational opportunities for women trained in home economics are investigated.
- 10 or 110. **Introductory Foods.** (3) A.W.S. Barlow, Romney, Stewart
 (See Foods and Nutrition 10 or 110.)
- 25 or 125. **Food Economics.** (3) A. Stewart
 (See Foods and Nutrition 25.)
50. **Elementary Nutrition.** (3) A.W.S. Stewart
 (See Foods and Nutrition 50.)
52. **Diet for the Family.** (2) S. Barlow
 (See Foods and Nutrition 52.)

- 55. General Textiles.** (3) A.W.S. Potter
(See Clothing and Textiles 55.)
- 58. Upholstering and Seat Weaving.** (2) A.W.S. Gamett
(See Mechanics 28.)
- 60. Household Problems.** (2) A.S. Warnick
This course will present the most important problems in the organization and management of the household.
- 64. Housing I.** (2) W. Warnick
Family problems involved in planning, financing, and equipping a house.
- 65. Family Relationships I.** (2) W. Romney
Relationships among family members and factors affecting them. Open to all students.
- 80. Family Health and Child Care.** (3) A.W.S. Romney
Causes and control of disease; basic facts concerned with the promotion and maintenance of family health; problems relating to reproduction and individual health; home care of the sick.
- 81 or 181. Child Development.** (3) A.W. Warnick
Various patterns and stages of growth and learning are studied; home influence in the care and guidance of children; observation of the pre-school child.
- 82 or 182. Observation of Children.** (2) W.S. Prerequisite: Household Administration 80 or 181 or equivalent. Warnick
Observation and study of the pre-school and school child. Philosophy underlying nursery school education and its application to the human situation.

Upper Division Courses

- 115, 116, 117. Interior Decoration.** (3) A.W.S. Larsen
(See Art 115, 116, and 117.)
- 118. Home Furnishings.** (2) A.W.S. Potter
(See Clothing and Textiles 180.)
- 122. Child Psychology.** (3) W. Poulson
(See Psychology 122.)
- 123. Psychology of Adolescence.** (2) S. Poulson
(See Psychology 123.)

- 160. Equipment.** (3) A.W.S. Stewart
A study of electrical and non-electrical equipment for the home. Fundamental factors determining selection and use and care. Open to men and women students.
- 161. Family Finance.** (3) W. Warnick
Study of those economic problems most directly concerning the family of today; discussion of family income, its size, sources, adequacy; income apportionment and expenditure. For men and women students.
- 162. Textile Economics.** (3) A.W.S. Potter
(See Clothing and Textiles 162.)
- 163. Consumers and the Market.** (2) A. Warnick
An analysis of the economic position of the consumer as a buyer; organization and function of the market price policies, selling methods in the retail market, retailing activities and their costs, and market control through legislation. Open to men and women students.
- 164. Housing Problems II.** (3) A. Warnick
The social, economic, and functional aspects of housing; Federal legislation and organizations promoting better housing; the family dwelling from the standpoint of family needs and interests. Open to men and women students.
- 165. Family Relationships II.** (3) S. Warnick
Present social and economic factors affecting the family of today. Responsibilities and contributions of family members; analysis of relationships which make for satisfactions in family life.
- 166. Home Management.** (3) S. Warnick
An analysis of the problems involved in the efficient management of family resources and household tasks and the relation of management to the personal aspects of family life.
- 166b. Home Management House.** (3) (Not given this year.)
- 171. Philosophy and Historical Development of Home Economics.** (2) S. Requires the completion of one summer project. Romney
The historical development, growth, present scope, and trend; objectives of home economics education; its organization and relationship to the present educational setup.
- 172. Methods of Teaching Home Economics.** (2) A. Romney

Teaching methods as applied to home economics curriculum content, equipment and teaching facilities; laboratory arrangement and management.

173. **Special Problems in Teaching Home Economics.** (1) S. For all Senior majors who are qualifying for a teaching certificate. Warnick

Graduate Courses

261. **Family Finance.** (3) W. Warnick
 264. **Housing Problems.** (3) A. Warnick
 266. **Home Management.** (3) S. Warnick
 273. **Special Problems.** (1) S. Warnick
 281. **Child Development.** (3) A. Warnick
 282. **Observation of Children.** (2) S. Warnick

Horticulture and Landscape Architecture

Professors Daines, Snell; Mr. Reimschiissel

HORTICULTURE

Students majoring in this department may emphasize either Pomology, Vegetable Production, or Ornamental Horticulture with Landscape Architecture. They must have a strong foundation in Botanical Science.

Lower Division Courses

1. **Principles of Pomology.** (3) A. Reimschiissel
 The principles underlying profitable orchard management will be studied.
5. **Herbaceous Plants.** (2) A. Reimschiissel
 Autumn blooming herbaceous plants are studied. See Land. Arch. 5.
6. **Herbaceous Plants.** (2) S. Reimschiissel
 Spring blooming herbaceous plants are studied. See Land Arch. 6.

7. **Floriculture.** (3) A. Reimschiissel
Herbaceous plant culture in the greenhouse and out-of-doors are studied.
8. **Trees and Shrubs.** (2) A. (Not given this year.) Reimschiissel
Identification and culture of native and cultivated trees and shrubs used for landscape effect are studied. Emphasis placed on autumn and winter characteristics and effects.
9. **Trees and Shrubs.** (2) A. (Not given this year.) Reimschiissel
Emphasis placed on identification and culture of trees and shrubs, their spring and summer characteristics and effects.
11. **Plant Propagation.** (5) S. Three lectures and two two-hour laboratory periods per week. Reimschiissel
The methods of plant reproduction used in greenhouse and nursery practice are studied.
12. **Flower Arrangement.** (2) S. Staff
The principles of flower arrangements will be studied and practiced.

Upper Division

152. **Systematic Pomology.** (2) W. Prerequisites: Horticulture 1, Botany 3. Daines
Emphasis placed on the identification, description and nomenclature of fruits and fruit trees.
155. **Orchard Practice.** (1) S. Prerequisite: Horticulture 1. Reimschiissel
Emphasis on spraying, pruning, and planting.
156. **Nursery Practice.** (1) S. Reimschiissel
158. **Weeds and Seed Analysis.** (4) A. Reimschiissel
The important weeds occurring in Utah and their control. Seeds likely to occur in commercial seed.
159. **Plant Breeding.** (3) W. Prerequisites: Botany or Zoology 11 Daines
Methods of hybridizing and selection in relation to plant improvement are studied.
167. **Marketing Fruits and Vegetables.** (3) W. Staff

- 170. Plant Pathology.** (5) A. Prerequisite: Botany 1; Botany 102 recommended. Three lectures and two two-hour laboratory periods per week. (See Botany 170) Daines

A general survey of the subject, occurrence, economic importance, symptoms, causes, and control of the more important diseases of cultivated crops.

- 171. Advance Plant Pathology.** (5) W. Prerequisite: Horticulture 170. Three lectures, two two-hour laboratory periods per week. Daines

For students in Pomology, Vegetable Gardening, Ornamental Horticulture, and Field Crops. An intensive study of diseases affecting cultivated crops.

- 191, 192, 193. Seminar.** (1) A.W.S. Daines

Current literature will be reviewed. For seniors and graduate students majoring in Horticulture or Plant Pathology.

- 196. Special Problems in Horticulture.** A.W.S. Daines

Credit and subject matter to be arranged.

- 197, 198, 199. Special Problems in Plant Pathology.** Daines

Graduate Courses

- 259. Plant Breeding.** (3) W. Daines

- 270. Plant Pathology.** (5) A. Daines

- 271. Advanced Plant Pathology.** (5) W. Daines

- 291, 292, 293, Seminar.** (1) A.W.S. Daines

- 296. Special Problems in Horticulture.** Daines

- 297, 298, 299. Special Problems in Plant Pathology.** Daines

LANDSCAPE ARCHITECTURE

Lower Division

- 1. Elementary Landscape Architecture.** (3-3-3) A.W.S. Reimschiessel

Principles of design and composition as applied to landscape architecture with emphasis on home ground development. A foundation to all courses in landscape architecture.

Industrial Arts

Professors Snell, Larsen; Mr. Gamett

Credit in shop courses in Mechanics is given on the basis of three hours for nine hours' application each week during the quarter.

MECHANICS

Lower Division Courses

1. **Ornamental Iron Work.** (2) W. Two two-hour periods per week. Staff
Craftsmanship in wrought iron. Designing, cutting, sawing, bending, hammer finishes, etc.
4. **Sheet Metal.** (2) A. Prerequisite: Drawing 65. Two two-hour periods per week. Staff
Projects in sheet metal work and pattern layout involving fundamental machine and hand tool operation.
6. **Plastics.** (2) A. Two two-hour periods per week. Staff
Fundamental hand and machine operations used in working plastics. This course is designed to meet teaching requirements of the industrial arts program.
10. **Machine Practice.** (3) A.W.S. Three two-hour periods per week. Staff
The use of hand tools in bench work, with lathe, drill press, and grinding operations.
20. **Tool Technique.** (2) A.W.S. Daily. Gamett
Sharpening, care, and use of woodworking hand tools applied in fundamental principles of sawing, joining, fitting and fastening. Required of all majors in industrial arts.
21. **Wood Turning.** (2) A.W.S. Daily. Gamett
Exercises and projects in spindle and face plate turning.
23. **Pattern Making.** (2) A.W.S. Daily. Prerequisites: Mechanics 20 and 21. Gamett
The principles of pattern making are taught through the making of simple patterns for machine parts.

26. **Wood and Metal Finishing.** (2) S. Two two-hour periods per week. Gamett
Preparation of surfaces for the application of finishes. Staining, painting, varnishing, lacquering, polishing, etc. Use of brush and air gun.
28. **Upholstery.** (2) Two two-hour periods per week. Gamett
Typical forms of upholstery, including foundations with and without springs.
- 30, 31, 32. **Cabinet Construction.** (3-3-3) A.W.S. Three two-hour periods per week. Prerequisite: Mechanics 20. Gamett
Use of hand and machine tools in the construction of fine furniture. Drawings, specifications and cost estimates of all projects must be submitted.

Upper Division Courses

100. **Art Metal Crafts.** (2) W. Prerequisite: Drawing 40. Two two-hour periods per week. Staff
Projects in metal hand tooling in brass, copper, and aluminum. soldering and spinning.
120. **Standard Construction Methods.** (3) A. Gamett
This course deals with the theoretical aspects of building, location, soil conditions, footings, material, and equipment.
121. **Carpentry.** (3) W. Three two-hour periods each week. Prerequisites: Mechanics 20 and Drawing 45. Gamett
Through drill in saw filing. Tool practice applied in practical problems. Fitting and hanging door and windows, built-in cabinets, stair construction and framing.
122. **Estimating.** (3) S. Prerequisite: Drawing 45. Staff
Interpretating of plans and specifications. Methods of estimating and figuring costs of materials and labor.
123. **Mill Work-Woodworking Machinery.** (3) W. Three two-hour periods per week. Prerequisites: Mechanics 20 and Drawing 45. Gamett
Work will be handled as nearly as possible in actual practice. Estimates and working drawings will be made and a careful check of material and labor kept and computed for each job.
- 124, 125, 126. **Shop Work.** (3-3-3) A.W.S. Three two-hour periods per week. Prerequisites: Mechanics 120, 122. Gamett

Advanced work, consisting of the erection of buildings, cabinet work, upholstery, pattern work or novelty work.

DRAWING

Lower Division Courses

- 40. Theory and Practice of Design.** (2) A.W.S. (See Art 10.)
Staff
- 42. Free-hand Lettering.** (2) A.W.S. Two two-hour periods per week.
Snell
Practice in lettering as applied in engineering and architectural drawing.
- 43. Architectural Drawing.** (2) A.W.S. One lecture and two two-hour drawing periods per week.
Snell
The care and use of instruments, lettering, applied geometry, and orthographic projection. A beginning course for students interested in architectural drawing.
- 44. Architectural Drawing.** (2) A.W.S. One lecture and two two-hour drawing periods per week. Prerequisites: Drawing 43, or equivalent.
Snell
Drawing of architectural details of footings, walls, doors, windows, cornice, etc.
- 45. Architectural Drawing.** (2) A.W.S. One lecture and two two-hour drawing periods per week. Prerequisite: Drawing 44 or equivalent.
Snell
Small house plans, elevations, sections, and details.
- 46. Descriptive Geometry.** (2) A.
Snell
(See Engineering 66.)
- 47. Instrumental Perspective.** (2) A. Two two-hour drawing periods per week. Prerequisite: Drawing 45 or 65.
Snell
The theory and application of methods of drawing architectural perspectives.
- 48. Shades and Shadows.** (2) W. Two two-hour drawing periods per week. Prerequisite: Drawing 47.
Snell
- 49. Rendering.** (2) Two two-hour drawing periods per week. Prerequisite: Drawing 48.
Snell
Wash rendering practice plates, and rendering of architectural elements.

- 50, 51, 52. **Architectural Design.** (2-2-2) A.W.S. Two two-hour periods per week. Prerequisites: Drawing 40 and 49. Snell

A series of order problems involving the study of the principles of composition. Problems similar to Class B Analytiques of the Beaux-Arts Institute of Design will be followed.

Upper Division Courses

- 140, 141, 142. **Architectural Design.** (2-2-2) A.W.S. Two two-hour drawing periods per week. Prerequisites: Drawing 47, 48, 49 or equivalent. Snell

Original design by the student. Problem to be passed upon by instructor. Complete set of plans with one display drawing of problem chosen.

ENGINEERING

Lower Division Courses

63. **Engineering Drawing.** (2) A. One lecture and two two-hour drawing periods per week. Staff

Care and use of instruments, lettering, applied geometry, and orthographic projection. A beginning course.

64. **Engineering Drawing.** (2) One lecture and two two-hour periods per week. Prerequisite: Drawing 63 or one year of high school drawing. Staff

Revolutions, true lengths, sections, fastenings and fittings.

65. **Engineering Drawing.** (2) S. One lecture and two two-hour drawing periods per week. Prerequisite: Drawing 64. Staff

Assembly and detail drawings, developments, transition layouts and pictorial views.

66. **Descriptive Geometry.** (3) A. One lecture and three two-hour drawing periods per week. Prerequisite. Drawing 65 or 45. Snell

A study of the principles relating to point, line, plane, cylinder, cone and double curved surfaces of revolutions; true lengths and surfaces, etc., with application to practical problems. Required of all engineering students, industrial arts majors, and minors in drawing.

- 67. Topographical Drawing.** (2) S. Two two-hour drawing periods per week. Prerequisite: Drawing 43 or 63. Snell
Elementary work in topographical symbols, mapping, and plotting.
- 68. Elementary Machine Design.** (2) S. Two two-hour drawing periods each week. Prerequisite: Drawing 66. Staff
Machine fastenings, technical sketching, working drawings, detailing, jigs and fixtures.
- 70. 71, 72. Elementary Surveying.** (2-2-2) A.W.S. One day per week from one to five o'clock. Prerequisites: Trigonometry and Drawing 66. Snell

Upper Division Courses

- 163. Geology of Ground Water.** (5) A. Daily. Staff
(See Geology 185.)

College of Arts and Sciences

Carl F. Eyring, Dean

The primary purpose of the College of Arts and Sciences is to meet the needs of students who desire a broad and liberal education that will enable them to find and take their places in the complex civilization of today. Abundant opportunity is provided for those who have ambition for specialized study in engineering, medicine, or law, or for those who desire to train for religious, political, or social leadership. Preparation for original investigation in the fields of this college is emphasized. Students who wish to build a foundation for advanced degrees will find this college rich in opportunity.

Lower Division Registration

Before entering this college, a student will have been oriented into a field of study by the Counseling Service, which is organized to offer special guidance to beginning students. But in order that he may continue to receive adequate guidance in the selection of a course of study, faculty advisors have been selected to give assistance according to the following plan.

DIVISIONAL REGISTRATION

Many students wish to explore the fields of learning to gain not only a breadth of training but also the information needed in the selection of a life's work. To meet this need an opportunity is given for guidance in these broad areas of instruction.

Biological Science Division. For students with special interests in bacteriology, botany, psychology, and zoology.

Physical Science Division. For students with special interests in chemistry, geology, geography, mathematics, and physics.

Social Science Division. For students with special interests in history, archaeology, political science, sociology, and economics.

Language Division. For students with special interests in English, journalism, and modern and classical languages.

DEPARTMENTAL REGISTRATION

Certain lower division students may have decided on a definite career and may wish to register from the beginning in a specific department. If so, they may choose from among the following departments in the College of Arts and Sciences: Archaeology, Bacteriology, Botany, Chemistry, English, Geology and Geography, History, Journalism, Mathematics, Physics, Political Science, Psychology, Modern and Classical Languages, Sociology, and Zoology and Entomology.

PRE-PROFESSIONAL REGISTRATION

The College of Arts and Sciences offers pre-engineering, pre-medical, and pre-legal courses. Students desiring to register in these fields should make use of the guidance here offered.

PRE-ENGINEERING COURSE

Advisers: George H. Hansen, Wayne B. Hales, William H. Snell

A two-year pre-engineering course is outlined below. This course presupposes that a student has credit in the following high school courses: 3 semesters of algebra, 2 semesters of plane geometry, one semester of solid geometry, 2 semesters of chemistry, and 2 semesters of physics. If a student is lacking in any of these subjects, he may be expected to make up the deficiency by electing such courses as Mathematics 1, Mathematics 3, Chemistry 3, and Physics 1 and 2, and by spending approximately an extra year in pre-engineering work. This extra year will permit the student to elect courses in economics and accounting and to gain a cultural background.

PRE-MEDICAL COURSE

Advisers: Milton Marshall, C. Lynn Hayward,
Mark K. Allen.

A three-year pre-medical course is outlined below. The student who wishes to extend his cultural background may elect a four-year course. In his senior year he should choose a major department, and, if a degree is desired, satisfy general and departmental graduation requirements.

PRE-NURSING COURSE

(See College of Applied Science)

PRE-LEGAL COURSE

Advisers: Russell B. Swensen, Elmer Miller,
J. Reuben Clark, III.

The Association of American Law Schools which is composed of the leading law schools in this country makes no specific requirement concerning the content of pre-legal courses of study. It does suggest that a college student should be given a thorough mental training in fundamental subjects. A pre-legal student should lay a foundation for a broad culture, develop intellectual discipline, and cultivate professional standards of study. The more important problems confronting lawyers, judges, and legislators are basically economic, political, and social. A law student should acquire not only a knowledge of legal doctrine and of the judicial processes but also of the above mentioned fields of study.

The following important advice given by a leading law school may well be brought to the attention of pre-legal students:

"Few ideas are more fallacious or harmful than the notion that it is possible to dawdle through high school and college and then make the adjustment to higher standards promptly upon entering the professional school. Essential habits of concentration and effective methods of study must be acquired and developed during the pre-legal years. Careful reading and the constant exercise of practice in writing should be cultivated assiduously . . . A large proportion of failures in the professional school may be traced directly to the neglect of opportunities in school and college."

Maturity of thought is of particular importance in the study of law. Therefore, since the standard law course calls for careful, analytical, reasoned judgment, only relatively mature students should plan to enter a law school.

The preparation for the study of law is largely an individual problem. A general formula is only of limited assistance. All students who contemplate the study of law should therefore consult the advisers to pre-legal students for more detailed advice and information.

Upper Division Registration

At least by the beginning of the junior year students should select their major department and seek the aid of the major professor as well as the Dean in matters of registration. Students may select their majors from any of the following departments in the College of Arts and Sciences: Archaeology, Bacteriology, Botany, Chemistry, English, Geology and Geography, History, Journalism, Mathematics, Modern and Classical Languages, Physics, Political Science, Psychology, Sociology, and Zoology and Entomology. The degrees, Bachelor of Arts and Bachelor of Science are given to graduates of this College.

DEPARTMENTS OF INSTRUCTION

Archaeology

Assistant Professor Jakeman

A major in Archaeology requires the completion of lower division courses 10, 50, 87, and 96, or their equivalents, and thirty hours of upper division work in the Department including courses 100, 104, 130, 137, 153, 157, 195, and 198.

A minor in Archaeology requires the completion of lower division courses 10, 50, 87, and 96, or their equivalents, and ten hours of upper division work in the Department including courses 104 and 130.

Credit in Religion (Scripture) instead of Archaeology may be obtained for courses 104, 111, 118, 130, 133, 137, 176a and d, 186a, 198, 276d and e, and 286e. (See the section of Archaeology in the Department of Bible and Modern Scripture, Division of Religion.)

Lower Division Courses**10. Ancient Civilization. (5) A.**

A survey of early civilization, dealing with the important oriental, Greek, and Roman states. This course is basic to the study of either archaeology or history. (See History 10.)

50. Principles of Archaeology. (3) A.W. Two lectures and one two-hour laboratory period per week. Prerequisite: Archaeology or History 10 or consent of the instructor. Jakeman

The fields, values, methods, and principal discoveries of archaeology, or the investigation of the early history of man through the evidence of his actual material remains, in both the Old and New worlds. (General archaeology, I.)

87. General Problems of Archaeology. (2) W.S. One lecture and one two-hour laboratory period per week. Prerequisite: Archaeology 50 or consent of the instructor. Jakeman

A study in the general problems of historical interpretation in archaeology, such as chronology, ethnic correlation, and the origin, growth, and diffusion of culture traits and civilizations. (General archaeology, II.)

96. Survey of World Archaeological History. (3) S. One lecture and two two-hour museum periods per week. Prerequisite: Archaeology 87 or consent of the instructor. Jakeman

A course in the early history of man and civilization as revealed by modern archaeology, with special attention to the prehistoric stone ages of the Old World and the early hunting age of the New. (General archaeology, III.)

Upper Division Courses**100. Early Oriental History and Civilizations. (3) A.**

A study of ancient civilization including Egypt, Babylonia, Assyria, China, India, Arabia, Persia; also of the Hebrews, and other oriental races. The course is helpful to those especially interested in the Jewish scripture. (See History 100.)

104. Introduction to Biblical Archaeology. (2) A. Prerequisite: Archaeology 50 or consent of the instructor. Jakeman

A survey of the important discoveries of archaeology in the Bible lands of the Near East and Mediterranean, with special attention to their bearing on the Hebrew-Christian scriptures.

111. **Near Eastern and Old Testament Archaeology.** (3) W. Two lectures and one two-hour museum period per week. Prerequisites: Archaeology or History 100 and Archaeology 104 or Scripture 104A. (Not given this year.)

A further study in the archaeology and ancient history of the Bible lands of the Near East, with special attention to the discoveries which have thrown new light on the Old Testament and the history, customs, art, and religion of the Hebrews.

115. **Prehistoric European Archaeology.** (2) S. One lecture and one two-hour museum period per week. Prerequisite: Archaeology 96 or consent of the instructor. (Not given this year.) Jakeman

A course in the prehistory of Europe, with special attention to the later prehistory of the Aegean region, and the Bronze and Iron ages of central and northern Europe to the Viking Period.

116. **Classical Archaeology.** (2) S. One lecture and one two-hour museum period per week. Prerequisites: Archaeology 50 and History 104 and 107 (latter course may be taken in conjunction). (Not given this year.)

A survey of recent archaeological work in Greek and Roman lands of the Mediterranean, bearing on the origins and history of classical Graeco-Roman art and civilization.

118. **New Testament and Christian Archaeology.** (2) A. One lecture and one two-hour museum period per week. Prerequisite: Archaeology 104 or Scripture 104A. (Not given this year.)

A further study of the recent archaeological discoveries in the Bible lands of the Mediterranean which have thrown additional light on the New Testament and the history, customs, art, and religion of the early Christians.

130. **Ancient Civilizations of the Americas.** (2) A. Prerequisite: Archaeology 50 or consent of the instructor. Jakeman

A survey of the archaeology and ancient history of the New World, and an introduction to the fundamental problem of American archaeology, namely the origin of the ancient civilizations of the Americas, in Mexico, Central America, and the Andes, with special attention to the principal surviving theories of origin.

133. **Indians of the Americas.** (2) S. One lecture and one two-hour museum period per week. Prerequisite: Archaeology 130 or consent of the instructor. Jakeman

A survey of the native Indian peoples of the New World at the coming of Columbus and the Europeans, and an introduction to the problem of their origin or racial ancestry, in the light of American archaeology and anthropology, with special attention to the principal surviving theories of origin.

- 137. The Archaeology of Mexico and Central America.** (3) S. Two lectures and one two-hour museum period per week. Prerequisite: Archaeology 130 or consent of the instructor.

Jakeman

A further study in the archaeology and ancient history of Middle America, or main archaeological region of the New World, with special attention to the early "Archaic" and classic Maya, Toltec, and Zapotec civilizations of this region, preceding the rise of the Aztecs.

- 139. Andean Archaeology.** (3) A. Two lectures and one two-hour museum period per week. Prerequisite: Archaeology 130 or consent of the instructor. (Not given this year.)

A further study in the archaeology and ancient traditional history of the Andean region of South America, with special attention to the early Chavin and Mochica-Chimu civilizations of Peru, the Classic Tiahuanaco civilization, and the empire of the Incas.

- 142. Southwestern Archaeology.** (2) W. One lecture and one two-hour museum period per week. Prerequisite: Archaeology 50 or consent of the instructor. (Not given this year.)

A study in the Indian prehistory of the arid "Southwest" of the United States and northern Mexico, with special attention to the ancient Mogollon, Hohokam, and Basketmaker-Pueblo cultures of this region.

- 144. Mound Area Archaeology.** (2) S. One lecture and one two-hour museum period per week. Prerequisite: Archaeology 50 or consent of the instructor.

Jakeman

A study in the Indian prehistory of the woodland and prairie region of eastern United States, with special attention to the ancient mound-building cultures of the Mississippi and Ohio valleys.

- 153. Early Art History.** (2) A. One lecture and one two-hour museum period per week. Limited to majors and minors in Archaeology.

Jakeman

The history of art from prehistoric times to the end of the Middle Ages, one of the important achievements of modern archaeological research, with some attention also to the ancient art traditions of the New World; and an introduction

to archaeological museum methods and the principal museum archaeological and art collections of the world.

- 157. Field Archaeology.** (3) A. One lecture and one four-hour field and laboratory period per week. Limited to majors and minors in Archaeology. Jakeman

The method, problems, and techniques of modern field research in archaeology. The class will participate in the actual excavation of a prehistoric Indian mound of Utah Valley.

- 176. Readings in Old-World and Biblical Archaeology.** (2 to 6, no more than two hours any quarter) A.W.S. Staff

- a. Near Eastern and Old Testament archaeology.
- b. Prehistoric European archaeology.
- c. Classical archaeology.
- d. New Testament and Christian archaeology.

- 186. Readings in American Archaeology.** (2 to 6, no more than two hours any quarter) A.W.S. Staff

- a. Middle American archaeology.
- b. Andean archaeology.
- c. Southwestern archaeology.
- d. Mound Area archaeology.

- 195. Historiography and Historical Method.** (3) A.

A course in the fundamental methods of study and research, and an analysis of the various philosophies of history. (See History 195.)

- 198. Seminar in Archaeology and Ancient History.** (3) S.

Jakeman

The preparation and presentation of individual research papers in selected problems of archaeology and ancient history.

Graduate Courses

- 211, 212, 213. Introduction to Cuneiform Studies.** (2-2-2) A.W.S.
(See Akkadian 211, 212, 213.)

- 221, 222, 223. Introduction to Hieroglyphic Studies: Egyptian.**
(2-2-2) A.W.S. (See Egyptian 221, 222, 223.)

- 231, 232. Introduction to Hieroglyphic Studies: Ancient American.** (2-2) A. S. Jakeman

- 250. Stratigraphy and Typology.** (2) A. Jakeman

An advanced course in field and museum problems of archaeology.

276. Advanced Readings in Near Eastern and Biblical Archaeology. (2 to 6, no more than two hours any quarter) A.W.S. Staff

- a. Recent Mesopotamian archaeology.
- b. Recent Egyptian archaeology.
- c. Recent Syro-Palestinian archaeology.
- d. Recent Old Testament archaeology.
- e. Recent New Testament and Christian archaeology.

286. Advanced Readings in American Archaeology. (2 to 6, no more than two hours any quarter) A.W.S. Staff

- a. Recent Middle American archaeology.
- b. Recent Andean archaeology.
- c. Recent Southwestern archaeology.
- d. Recent Mound Area archaeology.
- e. Recent research in the problem of New World origins.

294. Library and Museum Research. (3) Any quarter. Staff

297. Field Research. (3, 5, or 8) Any quarter. Staff

330. Thesis for Master's Degree. (4 to 6) Any two quarters. Staff

Bacteriology

(See College of Applied Science)

Botany

Professors Harrison, Stewart, Daines;
Mr. McKnight, Mr. Moore

Students majoring in Botany should present credit in Botany 1, 3, 91, 101, 102, 103, 106, 140, 150, 155, 180, 181, 183, 184.

Students who desire to teach biology in high school may select a major in either the Botany or Zoology department. The following courses should be completed as a minimum: Botany 1, 2, 3, 10, 140, and 150. Bacteriology 21, Zoology 11, 18 or 29, 30, 45, 157 and 158.

Students interested in range management should take the following courses: Botany 1, 2, 3, 135, 140, 150, 155, and 170; Agronomy 22, 41, 107, 173; Animal Husbandry 7, 154, 155; Landscape Architecture 1; Zoology 11, 153, 157, 153, 159; Entomology 30; Engineering 63, 64, 65, 70, 71; Geology 1.

Botany is one of the subjects comprising the composite major in Biological Science designed for prospective teachers. (See College of Education.)

Lower Division Courses

1. **General Botany.** (5) A.W.S. Three lectures and two two-hour laboratory periods per week. A prerequisite course to further work in the plant sciences. Also recommended for the non-science student. Staff.
The structure, physiology and reproduction of the higher plants.
2. **General Botany.** (4) W. Three lectures and one two-hour laboratory period per week. McKnight
A survey of the plant kingdom including the morphology of representative species.
3. **Plant Taxonomy.** (5) S. Three lectures and two two-hour laboratory periods per week. Harrison
The general principles of taxonomy and the use of manuals with emphasis on the classification of the local flora.
10. **Trees and Shrubs.** (3) S. Staff
The names and characteristics of the common trees and shrubs and their usage as ornamentals and in commerce.
91. **Anatomy.** (3) A. Three two-hour periods per week. Prerequisite: Botany 1. McKnight
The origin, development and maturation of the structures of vascular plants.
95. **Histological Technique.** (3) W. One lecture and six hours of laboratory work per week. Prerequisite: Botany 1. Harrison
The techniques of preparing plant tissues for microscopic examination.

Upper Division Courses

101. **Morphology of Algae.** (3) S. Three two-hour periods per week. Prerequisite: Botany 1. McKnight
A study of the structure, relationships, and life histories of the main groups of algae.
102. **Morphology of Fungi.** (3) A. Three two-hour periods per week. Prerequisite: Botany 1. McKnight
A study of the structure, relationships, and life histories of representative fungi.

- 103. Morphology of Bryophytes and Pteridophytes.** (3) W. Three two-hour periods per week. Prerequisites: Botany 1, 91.

McKnight

A study of the structure relationships, and life histories of mosses, liverworts, and ferns.

- 106. Morphology of Spermatophytes.** (3) S. Three two-hour periods per week. Prerequisites: Botany 1, 91. McKnight

A study of the structure, relationships, and life histories of the seed plants.

- 130. Advanced Taxonomy.** (3 to 5) S. Prerequisites: Botany 3, 91; Zoology 18 or 29. Harrison

Critical study of the characteristics, ecology, and classification of a limited plant group or plants of a limited area.

- 135. Range Forage.** (3) A. One lecture and two two-hour laboratory periods per week. Prerequisite: Botany 3. Harrison

The characteristics, distribution, and value of the more important Western forage plants. (See Agronomy 110.)

- 140. Plant Physiology.** (5) W. Three lectures and two two-hour laboratory periods per week. Prerequisites: Botany 1, Chemistry 14. Harrison

- 150. Plant Ecology.** (5) A. Three lectures per week and six field trips. Prerequisite: Botany 1. Harrison

The relations of plants to their environment, their adaptations to factors of soil and climate, and their influence on each other.

- 155, 156. Field Ecology.** (2-2) S. One lecture per week and one long field trip of about one week's duration. Prerequisite: Consent of instructor. Harrison

Field studies of plants and plant communities and the environmental conditions with which they are associated.

- 158. Methods in Field Ecology.** (3 to 5) S. Prerequisite: Botany 150. Harrison

Field methods of estimating vegetation, measuring factors of soil and climate, principles of sampling and elementary surveying, applied toward the solution of simple field problems.

- 160. Experimental Ecology.** (3) S. Two lectures and three hours of laboratory work per week. Prerequisites: Botany 140, 150. Harrison

The responses of plants to measured and controlled environmental conditions.

- 165. Plant Geography.** (3) W. Prerequisite: Botany 3. Botany 150 or Zoology 46 recommended. (Not given this year.)

Staff

Plant distribution and the origin of plant communities in the light of present and recent geological conditions.

- 168. Conservation of Natural Resources.** (3 to 5) A.W.S. Stewart

The need for, and the means of providing conservation of forests, shrubs, range forage, and other plant cover as they affect land-use management. The influences of vegetation on water supplies and uses, on soil preservation, on livestock, and wildlife management, and on recreation are considered. Conservation of coal, minerals, and oil.

- 170. Plant Pathology.** (5) W. Three lectures and two two-hour laboratory periods per week. Prerequisites: Botany 1. Botany 102 recommended.

Daines

Important diseases of cultivated plants, their identification, causes, and methods of control.

- 180, 181. Seminar—Junior Year.** (1-1) A.W. Required of all majors in their junior year.

Staff

The presentation and discussion of topics from the current literature of the field.

- 183, 184. Seminar—Senior Year.** (1-1) A.W. Required of all majors in their senior year.

The presentation and discussion of topics from the current literature of the field.

- 190, 191, 192. Special Problems.** (1 to 5) A.W.S.

Staff

Graduate Courses

- 230. Advanced Taxonomy** (3 to 5) S.

- 255. Field Ecology.** (2) S.

Chemistry

Professor Nicholes, Professor Emeritus Maw; Associate Professors Bryner, Peterson, Broadbent; Assistant Professors Wing, Goates, Swensen; Mr. Covington.

The minimum requirements for the bachelor's degree with a major in chemistry are 45 hours of prescribed chemistry courses, but the Chemistry Department recommends the American Chemical Society's minimum of 63 hours which include Chemistry 14, 15, 16; 31, 32, 133; 151, 152, 153; 161, 162, 163; 191, 192, 193; and one additional course, preferably 181, 182, 183. The Department also recommends Mathematics 11, 12, 13; 101, 102, 103; 111, 112, 113; Physics 41, 42, 43; 141, 142, 143; and a reading knowledge of German and French or Russian.

Premedical students and prospective teachers may major in chemistry. The following courses are recommended: 14, 15, 16; 21, 22 or 31, 32; 141, 142, 143; 181, 182, 183 and/or 161, 162, 163; and 191, 192, 193.

Chemistry is one of the subjects comprising the composite major in Mathematics and the Physical Sciences designed for prospective teachers. (See College of Education).

Lower Division Courses

1. **A Survey Course in Chemistry.** (3) A.W.S. Peterson

For students other than science majors who desire a knowledge of chemistry for its cultural value. Students who have had high school chemistry should register for Chemistry 14.

3. **General Inorganic Chemistry.** (5) A.W.S. Three lectures, one quiz, and two two-hour laboratory periods per week.

Recommended for science majors who do not meet the prerequisites of Chemistry 14. Swensen

7. **Introductory Inorganic Chemistry.** (5) A. Three lectures and two two-hour laboratory periods per week. For students in Home Economics. Section 1, for those who have not had high school chemistry. Section 2, for those who have had high school chemistry. Bryner
8. **Introductory Organic Chemistry.** (5) W. Three lectures and two two-hour laboratory periods per week. Prerequisite: Chemistry 7 or equivalent. For students in Home Economics. Bryner
9. **Introductory Biochemistry.** (5) S. Three lectures and two two-hour laboratory periods per week. Prerequisite: Chemistry 8 or equivalent. For students in Home Economics. Bryner
14. **Principles of Chemistry.** (5) A. W. Three lectures, one quiz, and two two-hour laboratory periods per week. Prerequisites: two years high school mathematics, high school chemistry or Chemistry 3. Required of chemistry, engineering, physical science and biological science majors, and premedical and pre dental students. Staff
15. **Principles of Chemistry.** (5) A.W.S. Three lectures, one quiz, and two two-hour laboratory periods per week. Prerequisite: Chemistry 14. Staff
16. **Principles of Chemistry and Qualitative Inorganic Analysis.** (5) A.W.S. A., 1 section; W., 1 section; S., 5 sections. Two lectures and three two-hour laboratory periods per week. Prerequisites: Chemistry 14 and 15. Staff
21. **Quantitative Analysis.** (3) A. One lecture, one quiz, two two-hour laboratory periods per week. Prerequisites: Chemistry 16 and College Algebra. For premedical, foods and general agriculture majors. Wing
Fundamental principles of gravimetric and volumetric analysis.
22. **Quantitative Analysis.** (3) W. One lecture, one quiz, two two-hour laboratory periods per week. Prerequisite: Chemistry 16 and College Algebra. For premedical, foods and agriculture majors. Continuation of Chemistry 21. Wing
31. **Quantitative Analysis.** (4) A.W. Two lectures, one quiz, two two-hour laboratory periods per week. Prerequisites: Chemistry 16 and College Algebra. For chemistry majors. Gravimetric analysis. Wing
32. **Quantitative Analysis.** (4) W.S. Two lectures, one quiz, two two-hour laboratory periods per week. Prerequisites: Chemistry 16 and College Algebra. For chemistry majors. Volumetric analysis. Wing

Upper Division Courses

- 109. Food Chemical Analysis.** (5) S. Three lectures and two three-hour laboratory periods per week. Wing
Principles of quantitative analysis and their application to the analysis of foods.
- 111, 112, 113. Principles of Chemistry.** (2-2-2). A.W.S. Prerequisites: Chemistry 14, 15, 16, and Mathematics 13. Nicholes
- 117. Physical Mineralogy.** (3) A. (See Geology 117.) Bullock
- 118. Chemical Mineralogy.** (3) W. Two lectures and two two-hour laboratory periods. (See Geology 118.) Bullock
- 133. Quantitative Analysis.** (4) S. Two lectures, one quiz, two two-hour laboratory periods per week. Prerequisites: Chemistry 22 or 32. Wing
- 136. Fire Assaying.** (3) S. Two lectures and two two-hour laboratory periods. Prerequisite: Chemistry 133. Wing
Assays of gold, silver, copper and lead ores.
- 141, 142, 143. Organic Chemistry.** (4-4-4). A.W.S. Two lectures and two two-hour laboratory periods per week. Prerequisite: Freshman Chemistry. Broadbent
A study of the fundamentals of organic chemistry adapted primarily to the needs of premedical and predental students.
- 151, 152, 153. Organic Chemistry.** (5-5-5). A.W.S. Three lectures and two two-hour laboratory periods per week. Prerequisites: Chemistry 14, 15, 16; 31, 32; Physics 41, 42, 43 or 31, 32, 33 or consent of the instructor. Broadbent
A thorough introduction to the study of the compounds of carbon designed to satisfy the organic chemistry requirements for majors in chemistry and other sciences.
- 161, 162, 163. Physical Chemistry.** (4-4-4) A.W.S. Three lectures and one three-hour laboratory period per week. Prerequisites: Physics 43, Calculus, and Chemistry 22 or 32. Bryner
This course deals with properties of gases, liquids, solids, solutions; thermo-chemistry; reaction velocity; electro-chemistry; equilibrium, and colloids.
- 181, 182, 183. Biochemistry.** (4-4-4) A.W.S. Three lectures and one three-hour laboratory period per week. Prerequisite: Chemistry 143 or 153. Swensen
An introduction to the chemistry of protoplasm with em-

phasis on the reactions of intermediary metabolism and the constitution and the activity of enzymes, hormones, and vitamins.

- 191, 192, 193. **Seminar.** (1-1-1) A.W.S. One period per week. Open to advanced undergraduates and required of senior chemistry majors. Staff

Literature study and report writing.

197. **Special Problems.** Time and credit to be arranged. Registration by permission. Staff

Graduate Courses

211. **Advanced Inorganic Chemistry.** (3) A. Peterson
Studies in the structure of matter, periodic law, valency, ionization, rare elements, radiation and chemical reactions.

212. **Inorganic Preparations.** (2) W. Peterson

213. **Advanced Qualitative Analysis.** (3) A. One lecture and six hours laboratory work per week. Maw
Advanced principles and methods of qualitative analysis.

221. **Advanced Quantitative Analysis.** (3 to 5) A.W. Wing

- 222, 223. **Micro-chemical Analysis.** (2-2) A.W. Two three-hour laboratory periods per week. Wing
Training in the essential manipulative techniques of micro-analytical procedures in qualitative and quantitative chemistry.

251. **Qualitative Organic Analysis.** (4) A. Two lectures and two three-hour laboratory periods per week. Prerequisites: Chemistry 151, 152, 153. Broadbent
The identification of organic compounds.

252. **Organic Synthesis.** (3) W. One lecture and two three-hour laboratory periods per week. Prerequisites: Chemistry 151, 152, 153. Broadbent
A systematic study of laboratory methods in organic synthesis accompanied by application of these methods in organic preparation.

253. **Physical Organic Chemistry.** (3) S. Prerequisites: Chemistry 161, 162, 163, and 251. Broadbent
A lecture course in organic reaction mechanisms and molecular structure as deduced by physico-chemical means.

- 261, 262. **Chemical Thermodynamics.** (3-3) A.W. Goates
263. **Chemical Kinetics.** (3) S. Goates
276. **The Phase Rule.** (3) S. Bryner
281. **Biochemistry.** (3) A. Prerequisites: Chemistry 143 or 153, 163, 183. Swensen
The colloidal state of matter.
282. **Biochemistry.** (3) W. Prerequisites: Chemistry 143 or 153, 163, 183. Swensen
The chemistry of proteins.
283. **Biochemistry.** (3) S. Prerequisites: Chemistry 143 or 153, 163, 183. Swensen
The chemistry of enzyme actions.
297. **Research. Special Problems.** Time and credit to be arranged Staff
300. **Thesis for Master's Degree.** Time and credit to be arranged.

English

Professors Christensen, Young; Professor Emeritus Rowe; Associate Professors Carroll, Spears, Jacobs; Assistant Professors Britsch, Tanner, Rice, Cheney; Mrs. Rich, Mr. Taylor, Miss Waterstradt, Miss Oaks, Mrs. Goates, Mrs. Burmingham, Miss R. Clark, Mr. Dunn, Mr. C. F. Larson, Mr. W. Lee, Mr. West

SCOPE OF INSTRUCTION

The English department offers courses in English language, English literature, and general and comparative literature. For convenience, the courses in general and comparative literature are brought together.

Requirements for the Degree of Bachelor of Arts

Students who elect their major in English are required to complete thirty-six hours of work in English in addition to Eng-

lish 1, 2, 3. The following program of study is prescribed: (1) twenty hours from courses 141, 142, 171, 172, 173, 174, 175, four of which must be in American literature; (2) six hours from courses 183, 184, 185, 186, 187, 188, 189, 190; (3) four hours from courses 181, 195, 197; (4) four hours from courses 82, 182; (5) three hours from courses 22, 32, 102.

Students may, however, make substitutions as follows: four hours from courses 41, 42, 43, for 141 or 142; 160 for 172; 130 for 174; 132 for 175.

Twenty-four hours in one foreign language are required. The following courses in other departments are recommended: History 20, 21, 140, 141; Psychology 11; and Linguistics 42.

Courses 71, 72, 73 are not open to students who elect their major in English. For students who minor in English and who may teach the subject the department recommends the following as a minimum program: 21, 22, 41, 42, 43, 71, 72, 73, 82, or 182.

Students making English a minor and desiring the recommendation of the department to take secondary training in English must show satisfactory credit in courses 21 and 22 or their equivalent.

The "Teaching Major" in English

The requirements for the "teaching major" in English and for the regular major are the same except that the foreign language requirements may be reduced or waived by the department to meet the special needs of some prospective teachers. Such reductions or waivers would necessitate, of course, the substitution of the Bachelor of Science degree for the degree of Bachelor of Arts.

English is one of the subjects comprising the composite major in Language Arts designed for prospective teachers.

(See College of Education.)

Requirements for the Degree of Master of Arts

Candidates for the degree of Master of Arts in English must have met the requirements for the degree of Bachelor of Arts or their equivalent. They must offer upper division or graduate credit in Old English, Chaucer, Shakespeare, and History of the English Language; they must have, exclusive of thesis credits, at least twenty hours of graduate credit in English; they must write a satisfactory thesis, and pass a comprehensive oral examination in the field of English language and literature.

Placement Tests for Freshman English

In Freshman English, consideration is given to the individual needs of students. To determine these needs all freshmen are required to take a placement test at the time of registration. Assignments to classes are made after this test.

Lower Division Courses

- a. **English Grammar and Composition.** No Credit. A.W. Meets three times a week. Time to be arranged. Staff
A course preparatory to English 1 required of students who make an unsatisfactory grade in English placement test.
1. **Composition and Literature.** (3) A. Staff
Review of grammar, study of the principles of composition, theme writing, and reading in literature.
2. **Composition and Literature.** (3) W. Staff
Continuation of Course 1.
3. **Composition and Literature.** (3) S. Staff
Continuation of Course 2.
4. **Business English 1.** (3) A.W. Prerequisites: English 1, 2, 3. (See Office Practice 31.)
21. **Advanced English Grammar.** (4) A.W. Prerequisites: English 1, 2, 3. Section 1, Young; section 2, Britsch.
22. **Advanced Rhetoric and Composition.** (3) A.W.S. Prerequisites: English 1, 2, 3. Larson, Cheney
Long themes, lectures, conferences, required readings.
24. **Classic Myths.** (3) A. Carroll
A study of Greek, Roman, and Teutonic myths with special reference to their literary use.
31. **Vocabulary Building.** (4) (Not given this year.) Young
A course that aims at effective expression through the study of words.
32. **Short Story Writing.** (2) W. Prerequisites: English 1, 2, 3, and 22. Cheney
41. **Masterpieces of American Literature.** (2) A. Britsch, Taylor
42. **Masterpieces of American Literature.** (2) W. Britsch, Taylor

43. Masterpieces of American Literature. (2) S. Britsch, Taylor
44. Contemporary American Poets. (2) S. Britsch
45. Contemporary American Short Story Writers. (3) A. Cheney
46. Contemporary American Novelists. (2) (Not given this year.)
47. The West in American Literature. (3) S. Larson
48. Thoreau. (3) A. Jacobs
49. Whitman and Twain. (3) S. Jacobs
71. Masterpieces of English Literature. (2) A. Tanner, Oaks, Goates
72. Masterpieces of English Literature. (2) W. Tanner, Oaks, Goates
73. Masterpieces of English Literature. (2) S. Tanner, Oaks, Goates
82. Shakespeare. (4) A. Young
- The following plays will be studied: *Comedy of Errors*, *Love's Labors Lost*, *Richard II*, *Henry IV* (i and ii), *Henry V*, *As You Like It*, *All's Well That Ends Well*, *Twelfth Night*, *Merchant of Venice*, *Julius Caesar*, *Romeo and Juliet*, *Hamlet*, *King Lear*, *Othello*, *Macbeth*.
84. Wordsworth: The Shorter Poems. (3) W.

GENERAL AND COMPARATIVE LITERATURE

Lower Division

50. Introduction to Literature. (4) A.W.S. Christensen, Tanner
51. Introduction to Drama. (3) A. Tanner

Upper Division Courses

102. Advanced Creative Writing. (1 to 4) A.W.S. Larson, Lee, Cheney
- An advanced course for students interested in writing verse, drama, prose fiction, or essays. Credit according to work done.

130. Romantic Poetry. (3) W.

A study of romanticism as manifested in English poetry in the eighteenth and nineteenth centuries.

131. Romantic Prose. (2) A.

A study of the principal prose writings of the Romantic Movement.

132. Victorian Poetry. (3) (Not given this year.)**133. Victorian Prose. (3) (Not given this year.)****141. The American Heritage. (4) A. Jacobs**

A study of writings that were significant in the social, economic, and political scene of America before 1865.

142. The American Heritage. (4) W. Jacobs

A study of writings significant in the American scene after 1865.

Geology and Geography

Professor Hansen; Associate Professor Bissell; Assistant Professors Bullock, Proctor, Tuttle.

GEOLOGY

Geology 1, 12, 55, 107, 117, 118, 119, 130, 131, 132, and 171; Chemistry 14, 15, and 16; Physics 41, 42, 43; Mathematics 11, 12, and 13; and Engineering 70, 71, and 72 are recommended for students majoring in Geology. Mathematics and Chemistry should be taken during the Freshman and Sophomore years.

Students desiring to qualify for teaching Geology and Geography in high school should take the following courses: Geology 1, 12, 117, 118, 119, and 130; and nine additional hours of geography approved by the Chairman of the Department.

Geology and Geography are among the subjects comprising the composite majors in Mathematics and Physical Science and in the Biological Science designed for prospective teachers (See College of Education).

Lower Division Courses

1. **Physical Geology.** (5) A.W.S. Four lectures, and one two-hour laboratory section per week. Staff

A general survey course of the field of physical geology. The common rock-forming minerals and common rocks will be studied in the laboratory. Designed for students who desire a broad introduction to earth science.

12. **Historical Geology.** (5) A.W.S. Four lectures, and one two-hour laboratory section per week. Prerequisite: Geology 1. Bissell, Hansen

A continuation of Geology 1, constituting a study of the history of the earth and the evolution of the life forms. Representative fossils will be studied in the laboratory.

16. **Geomorphology.** (5) W. Four lectures, and one two-hour laboratory section. Prerequisite: Geology 1, 12. Staff

A study of the processes at work on the land surface and the topographic forms produced by them. This course includes practice in the interpretation of topographic maps. Designed for students desiring a broad concept of the field of physical geology.

24. **Engineering Geology.** (5) A. Four lectures, one two-hour laboratory section, and one Saturday field trip. Bissell

A study of the fundamental principles in geology which relate to engineering practice, including the character of rocks, their use in building, their structure, and their relationship to dam sites, tunnels, etc. Designed for students of Engineering.

55. **Introductory Economic Geology.** (3) A. Prerequisites: Geology 1, 12. Proctor

A study of the manner of occurrence, origin and uses of the metallic ores and the non-metallic mineral products.

Upper Division Courses

107. **Soil Geology.** (3) S. Two lectures, and one two-hour laboratory section per week. Farnsworth
(See Agronomy 107).

- 117. Physical Mineralogy.** (3) A. Prerequisites: Geology 1 and Chemistry 16. Bullock

This course is devoted to a detailed study of the physical properties of minerals, including the elements of crystallography. Practice is given in the determination of the forms on wooden models and natural crystals.

- 118. Chemical Mineralogy.** (3) W. Two lectures, and two two-hour laboratory sections per week. Prerequisites: Geology 117. Bullock

This course deals with the occurrence, description, and uses of about 200 of the more important minerals. The laboratory period is devoted to the identification of minerals by use of chemical reagents and by blowpipe analysis.

- 119. Lithology.** (3) S. Two lectures, and one two-hour laboratory section per week. Prerequisite: Geology 118. Bullock

A broad study of the important rock forming minerals and the common igneous, metamorphic, and sedimentary rocks.

- 125. Gemmology.** (2) A.S. Prerequisites: Geology 117, 118. Hansen

This course is devoted to the study of gem materials and lapidary techniques.

- 130. Structural Geology.** (5) A. Prerequisites: Geology 1, 12, 119; Mathematics 12. Bissell, Proctor

A detailed study of the structural features of the earth's crust and of the forces which have produced these structures. This course includes practice in the interpretation of geologic maps and the solving of structural problems.

- 131. Geology of the United States.** (5) W. Prerequisite: Geology 130. Hansen

A study of the stratigraphy, structure, and areal geology of the United States from the geologic maps of representative areas.

- 132. Field Geology.** (5) S. Prerequisites: Geology 130, Mathematics 12. Bissell, Proctor

This course offers training in the methods of geologic field work; use of topographic maps; use of Brunton compass, altimeters, steel tapes. Emphasis is placed on the use of plane-table and alidade in topographic and geological mapping. Each student will be required to make a topographic map and geologic map of a small area in the Wasatch Mountains near the campus.

150. **Mineral Optics.** (5) A. Three lectures, and two two-hour laboratory sections per week. Prerequisite: Geology 118. Bullock

A study of the principles of mineral identification by means of the petrographic microscope.

151. **Petrography.** (5) W. Three lectures, and two two-hour laboratory sections per week. Prerequisite: Geology 150. Bullock

A study of the common rocks with the aid of the petrographic microscope. This course is a continuation of Mineral Optics.

152. **Petrology.** (5) S. Three lectures, and two two-hour laboratory sections per week, and three Saturday field trips. Prerequisite: Geology 118. Bullock

A megascopic study of the common rocks with emphasis upon origin, classification and field identification.

- 160, 161, 162. **Advanced Field Geology.** Credit to be arranged. A.W.S. Bissell, Proctor

Designed for those students majoring in geology, who in their junior and senior years are completing field work toward a thesis and need additional guidance; and for students who desire advanced courses in geology.

165. **Physical Anthropology.** (3) A. Prerequisites: Geology 1, 12. (Not given in 1949-50) Hansen

170. **Vertebrate Paleontology.** (5) A. Three lectures, and two two-hour laboratory sections per week. Prerequisites: Geology 1 and 12. (Not given in 1949-50.) Hansen

171. **Invertebrate Paleontology.** (5) W. Three lectures, and two two-hour laboratory sections per week. Prerequisites: Geology 1 and 12. Bissell

A systematic study of the invertebrate animal kingdom. This course will give an introduction to the study of the structure, mode of life, distribution, and development of the living invertebrates of the past ages. Typical fossils of each group will be studied.

174. **Stratigraphy and Fossils of the Wasatch.** Time and credit to be arranged. W.S. Prerequisite: Geology 171. Bissell

A study of the sedimentary rock sequences and their enclosed fossils in the Wasatch Mountains.

176. **Sedimentology.** (3) A. Two lectures, and one two-hour laboratory section per week. Prerequisites: Geology 1, 12, 119. Bissell

A study of the processes of sedimentation, and a study of the origin, constitution, and relationships of sediments. Students will learn to sample sediments from Provo River and Utah Lake, then analyze the sediments and interpret the results.

177. **Petroleum Geology.** (5) S. Prerequisites: Geology 1, 12, 130. Hansen

A study of the geologic relationships of the various oil fields of the world.

180. **Ore Deposits.** (5) W. Prerequisites: Geology 117, 118, 130. Proctor

A study of the principles and processes of formation of mineral deposits, with emphasis upon the metallic minerals.

181. **The Non-Metallic Minerals.** (5) W. Prerequisites: Geology 117, 118, 130. Proctor

A study of the geologic occurrences and relationships of the non-metallic minerals.

185. **Geology of Ground Water.** (5) W. Prerequisite: Geology 130. Hansen

- 191, 192, 193. **Seminar.** (1-1-1) A.W.S. Required of seniors who are majoring in geology. Staff

196. **Readings in Geology.** (1 to 6, no more than one hour any quarter) A.W.S. Staff

Graduate Courses

- 201, 202, 203. **Research.** Time and credit to be arranged. A. W.S. Staff

Special problems in the field of geology will be assigned to students prepared to do original work.

210. **Geology of Utah.** (3) A. Two lectures, and three long field trips, the expense to be borne by the students. Prerequisite: Geology 130. Staff

- 217, 218. **Physical and Chemical Mineralogy.** (3-3) A.W. Prerequisites: Geology, Chemistry 16. Bullock

224. **Engineering Problems in Geology.** Credit to be arranged. A. Prerequisite: Geology 130. Staff

230. **Problems in Structural Geology.** Credit to be arranged. A.W.S. Prerequisite: Geology 130. Bissell, Proctor

- 250, 251. Mineral Optics and Petrology.** (5-5) A.W. Prerequisite: Geology 118. Bullock
- 252. Petrology.** (5) S. Prerequisite: Geology 118. Bullock
- 260, 261, 262. Advanced Field Geology.** Credit to be arranged. A.W.S. Prerequisite: Geology 132.
- 270. Special Problems in Vertebrate Paleontology.** (3) S. Hansen
- 271. Special Problems in Invertebrate Paleontology.** (1 to 3) A.W. S. Bissell
- 276. Special Problems in Sedimentation.** (1-3) A.W.S. Bissell
- 280. Ore Deposits.** (5) S. Prerequisites: Geology 118, 119, 130. Proctor
- 281. The Non-Metallic Minerals.** (5) S. Prerequisites: Geology 118, 119, 130. Proctor
- 300. Thesis for Master's Degree.** Not more than six credit hours. A.W.S. Staff

Geography

Lower Division Courses

- 20. Introductory Geography.** (3) A. Tuttle
A study of the geographic factors of climate and topography, and their relationship to man's activities.
- 21. Geography of Utah.** (3) W. Tuttle
The response man has made to his geographic environment.
- 23. Economic Geography.** (3) S. Bullock
A study of the geographic aspects of the world's resources and industries.
- 75. Cartography and Map Interpretation.** (3) S. Tuttle
A study of the kinds and uses of maps, their construction and interpretation.

Upper Division Courses

- 130. Climatology.** (3) A. Prerequisite: Geography 20, or Physics 21. Tuttle

A study of the climatic elements, controls, and distribution.

145. **Physiography of North America.** (3) W. Prerequisite: Geography 20, or Geology 1. Tuttle

A study of the physiographic provinces of North America.

150. **Geography of North America.** (3) A. Prerequisite: Geography 20. Tuttle

A study of the geographic factors and their influence on man and his activities in North America.

155. **Geography of Latin America.** (3) W. Prerequisite: Geography 20. Tuttle

A study of the geographic factors and their influence on man and his activities in Central and South America.

160. **Geography of Europe.** (3) S. Prerequisite: Geography 20. Tuttle

A study of the geographic factors and their influence on man and his activities in Europe.

165. **Geography of Asia.** (3) S. Prerequisite: Geography 20. Tuttle

A study of the geographic factors and their influence on man and his activities in Asia and the East Indies.

168. **Readings in Geography.** (1 to 6, no more than one hour any quarter).

Prescribed readings in the different fields of geography.

Graduate Courses

- 205, 206, 207. **Research.** Hours and credit to be arranged. A. W.S. Tuttle

Under this course special problems may be assigned students who are prepared to do original work in the field of Geography.

211. **Physiography of Utah.** Time and credit to be arranged. Hansen

A study of the present surface forms of Utah and how they came to be developed.

221. **Geography of Utah.** (3) W. Tuttle

223. **Economic Geography.** (3) S. Bullock

230. **Climatology.** (3) A. Tuttle

History

Professor R. B. Swensen; Associate Professors Nibley, Jacobs; Assistant Professors Poll, Madsen, Carr; Mr. Grow, Mr. J. R. Clark.

Requirements for Major in History

A History major requires the completion of 45 hours of work in this field. History 10, 11, 12, 20, 21, are required courses and should be completed by the end of the sophomore year. The additional work shall consist of upper division courses which will be chosen by the student with the consent of the major professor.

A student deciding to major in History must immediately consult the head of the department who will determine, in consultation with the student, upon the minor field of work.

History is one of the subjects comprising the composite major in Social Science. (See College of Education.)

In this department, courses not offered this year will be given the following year.

Lower Division Courses

5. .Current Affairs. (2) A. Poll

A survey of current events, with special attention to the historical background and present implications in science and the arts, economics, sociology, politics, and international problems.

10. **Ancient Civilization.** (5) A.W. Swensen, Clark
A survey of the ancient civilizations which developed in the important Oriental, Greek, and Roman states.
11. **Medieval and Early Modern Europe.** (5) W.S. Swensen, Clark
A study of the political, social, economic, and religious trends of Europe from the disintegration of the Roman Empire in the fifth century A. D. to the Reformation in 1517.
12. **Modern and Contemporary Europe, 1517 to the Present.** (5) A.S. Poll, Clark
An examination of the political, economic, social, and intellectual development of Europe since 1517.
20. **The United States to 1865.** (5) A.W.S. Poll, Madsen
The era of discovery and colonization; causes and character of the American Revolution; the Articles of Confederation, the Constitution, and the development of national government; foreign affairs and the Monroe Doctrine; westward expansion; sectionalism, slavery, and secession; the Civil War.
21. **The United States Since 1865.** A.W.S. Poll, Madsen, Clark
The consequences of the Civil War and Reconstruction; industrialization and urbanization; American imperialism; the period of reform; causes and character of the first and second World Wars; the New Deal; current problems.
30. **Economic and Financial History of the United States.** (3) A.W.S. Miller, Poll
Economic development of the United States from colonial times to the present. Emphasis upon the economic integration and industrial development since the Civil War.
40. **Social History of the United States.** (3) A. Madsen
Survey of changes in American life since colonial times, emphasizing intellectual and cultural achievements and the impact of industrialization and urbanization.
50. **History of the Americas, 1492-1800.** (3) W. Madsen
Survey of the exploration, settlement, and colonial exploitation of North and South America.

Upper Division Courses

100. **Early Oriental History.** (3) A. Nibley
A study of ancient civilization as it developed in Egypt, Babylonia, Assyria, Arabia, Persia, and Palestine. This course

is helpful to those who are especially interested in the rise of the Jewish religion and scriptures.

- 101. History of the Far East.** (3) A. Swensen

A survey of the development of the civilizations of the eastern Oriental countries of India, China, and Japan. Emphasis upon their unique cultural achievements and the significant trends of the present.

- 103. The Literary History of the Greeks.** (3) W. Nibley

Greek life and thought as illustrated in the writings of classical authors.

- 104. Greek History to 335 B. C.** (3) W. Swensen

The history of the political, economic, social, and intellectual development of the Greek people from their migration into the Aegean area to the career of Alexander the Great. Major emphasis on the classical civilization of the Periclean Age in the fifth century B.C.

- 105. Greek History from 335-146 B.C.** (3) S. Swensen

The decline of the Greek city-state, the career of Alexander the Great, the expansion of Greek civilization throughout the Near East, the rise and fall of the Hellenistic monarchies. Emphasis upon the political innovations of the Greek leagues, the scientific, literary, and philosophical achievements of the Hellenistic Age.

- 106. Greek Philosophers.** (3) W. Swensen

A study of the Greek philosophers and their writings, with emphasis upon their concepts and philosophical systems which are influential today; also an analysis of the relationship of their ideas to the historical trends of Ancient Greece.

- 107. Roman History to 31 B.C.** (3) W. (Not given this year) Swensen

A study of Roman history from the monarchical period to the end of the Republic. Emphasis upon the growth of the political principles and constitutional structures of the Romans which are still significant, and the career of Caesar.

- 108. History of the Roman Empire, 31 B.C. to 493 A.D.** (3) S. Swensen

A study of the influential factors and institutions which were instrumental in the development of the Roman Empire. An analysis of the causes of its decline; the unique features of its civilization; the rise and expansion of Christianity.

109. **Literary History of the Roman Empire.** (3) S. Nibley
Study of the decline of ancient civilization, its causes, symptoms, and attendant social and cultural developments, as reflected in contemporary writings. To 1453.
110. **Medieval History from the Fifth Century to 814 A.D.** (3) A. Swensen
(Not given this year.)
A study of the barbarian migrations; the rise of the Frankish state; the Arabic and Byzantine empires; the rise to power of the Roman Catholic Church in Western Europe, and the beginning of feudalism. Emphasis upon the great religious and political leaders, especially Gregory I and Charlemagne; the rise of feudalism.
111. **Medieval History, 814-1250.** (3) W. (Not given this year.) Swensen
A history of the social, economic, and religious changes of medieval society; the conflict between the Church and the secular powers; the feudalistic system; the Crusades; and the rise of cities and the bourgeois class.
112. **Medieval History, 1250-1517.** (3) S. Swensen
Emphasis in this period will be placed on the rise and growing power of the Third Estate, the Renaissance, the emergence of the monarchical states, the decline of the Church, and the forces which brought about the Reformation.
121. **History of Europe, 1517-1815.** (3) A. Poll
The political, economic, and social history of Europe.
122. **History of Europe, 1815-1914.** (3) W. Poll
The political, economic, and social history of Europe.
123. **History of Europe, 1914-1950.** (3) S. Poll
The political, economic, and social history of Europe.
125. **Economic History of Europe, 1500-1950.** (3) W. (Not given this year.) Poll
Survey of major economic developments, emphasizing the Industrial Revolution and economic imperialism.
130. **History of Russia to 1900.** (3) W. Poll
131. **History of Russia 1900-1950.** (3) S. Poll
Survey of the main trends in Russian development, with emphasis upon those factors which contribute to an understanding of the U.S.S.R. today. Either quarter may be taken independently.

- 140. History of England to 1714.** (3) A. Madsen

A study of the origin and development of the English people and English institutions from the earliest times to 1714. Special consideration is given to the Tudor periods and to the evolution of parliamentary sovereignty.

- 141. History of England since 1714.** (3) W. Madsen

Development of cabinet government; economic, and humanitarian movements of the last two centuries; growth of the empire and the relation of Britain to her colonies and dominions; Britain and the First and Second World Wars; post-war problems.

- 142. History of the British Empire since 1783.** (3) A. (Not given this year.) Carr

The evolution and growth of the British Empire; the development of the British Commonwealth of Nations; recent economic, political, and constitutional problems.

- 145. Constitutional History of England.** (3) Prerequisites: History 140, 141. (Not given this year.) Madsen

A study of English constitutional development from the Anglo-Saxon period to the present. Emphasis is on the growth of Parliament and the development of Cabinet responsibility leading to the establishment of a constitutional form of monarchy.

- 148. History of Canada.** (3) A. Grow

A study of the founding and development of Canada to the present day.

- 150. History of Latin America: Colonial Period.** (3) W. Madsen

A study of the geography, pre-Columbian civilizations, conquest, and institutional development of Latin America from 1492 to 1800.

- 151. History of Latin America: Modern Period.** (3) S. Madsen

The wars of Independence; evolution of modern republics; cultural development; inter-American relations; 1800 to present.

- 153. History of Mexico.** (3) A. Madsen

Survey of conquest and growth under Spain; winning of independence; emergence and development as a modern nation.

- 160. History of the American Frontier.** (3) S. Madsen

The transplantation of European culture to America and

the significance of the frontier in the development of the United States; the Anglo-American advance to the Mississippi River and the exploration and development of the Southwest, the Great Basin, and the Pacific West.

163. **Historical Geography of the United States.** (3) (Not given this year.) Madsen

A study of the culture areas of the United States, emphasizing the influence of geographic factors on the history and development of the American nation.

166. **History of Utah.** (3) S. Poll

The early history of the Great Basin; the Mormon migration; economic, social, and political developments; problems of territorial government and the attainment of statehood.

170. **Colonial American History.** (3) (Not given this year.) Madsen

Establishment of the English colonies in North America and the West Indies; development of colonial institutions; struggle with the French; causes and course of American Revolution.

171. **The American Heritage.** (4) A. Jacobs

A study of writings that were significant in the social, economic, and political scene before 1865.

172. **The American Heritage.** (4) W. Jacobs

A study of writings significant in the American scene after 1865.

175. **History of the United States, 1783-1815.** (3) W. (Not given this year.) Poll

Political, economic, and social history.

176. **History of the United States, 1815-1850.** (3) S. (Not given this year.) Madsen

Political, economic, and social history.

177. **History of the United States, 1850-1877.** (3) W. Poll

Political, economic, and social history.

178. **History of the United States, 1877-1919.** (3) S. Madsen

Any of the above three courses may be taken independently of the other three; the prerequisites for each are History 20, 21, or the equivalent.

179. **Contemporary United States History, 1919-1949.** (3) Poll

Designed to facilitate understanding of current affairs. Emphasis placed upon the causes and character of the depression of 1929, the objectives and accomplishments of the New Deal, the diplomacy of isolationism, and the second World War and its aftermath.

180. The United States to 1865. (5) W. Grow

A course designed to meet the needs of upper division students majoring in education. The colonial era, the American Revolution, the development of the Constitution and national government; the foreign affairs leading up to the Monroe Doctrine; the causes and problems of the Civil War period. Prerequisites: History 10, 11, 12.

181. The United States since 1865. (5) S. Grow

A course designed to meet the needs of upper division students majoring in education. The results of the Civil War and the problems of Reconstruction; the growth of American industrialization; reform movements; American imperialism; the two world wars; and international relations. Prerequisites: History 10, 11, 12.

183. History of American Foreign Policy. (3) A. (Not given this year.) Poll

The role of the United States in international affairs, from colonial times to the present. Emphasis will be placed upon the diplomacy of expansion, the Monroe Doctrine, and problems of the 20th century.

186. Constitutional History of the United States. (3) W. Staff

A study of the historical evolution in American history of the principles which underline the American Constitutional system. Prerequisites: History 20, 21, or equivalent.

190. History Seminar. (2) A. Poll

191. History Seminar. (2) W. Poll

192. History Seminar. (2) S. Madsen

193. Ancient History Seminar. (2) W. Swensen

194. Ancient History Seminar. (2) S. Swensen

195. Historiography and Historical Method. (3) A. Swensen

A course in the fundamental methods of study and research and an analysis of the various philosophies of history.

196. Ancient Historians. (3) S. Swensen

A survey of the lives and writings of the Greek and Roman historians.

197. American Historians. (3) Staff
 198. Special Readings in History. Credit to be determined. Staff
 199. Special Research in History. Credit to be determined. Staff

Graduate Courses

200. Early Oriental History. (3) A. Nibley
 201. History of the Far East. (3) Swensen
 203. The Literary Sources of Greek History. (3) A. (Not given this year.) Nibley

Journalism

Assistant Professor Smith; Professors Pardoe, Hales,
Jenson; Associate Professor W. J. Taylor; Mr. Wight,
Mr. Boel, Mr. Haymore, Mr. N. L. Christensen,
Mr. Ludlow.

English 1, 2, and 3 are prerequisites for all courses in Journalism except courses 1, 26, 27, 39, 40, and 41.

A student who elects to major in Journalism will pursue one of four specialization sequences listed below:

News and Editorial: minimum of 36 credit hours in Journalism, including courses 61, 62, 105, 106, 107, 179, 181, and 185. Recommended electives are courses 26, 27, 139, 173, and 188.

Advertising and Public Relations: minimum of 36 credit hours in Journalism, including courses 26, 27, 61, 105, 106, 135, and 139. Recommended electives are courses 35, 39, 40, 41, 111, and 185.

Radio Journalism: minimum of 30 credit hours in Journalism, including courses 42, 45, 46, 61, 62, 106, 107, 141, and 179, and the following courses in Speech: 20, 41, and 43 or 143. Recommended electives are courses 105, 139, and 173.

Teaching: minimum of 36 credit hours in Journalism, including courses 61, 62, 105, 106, 111, 135, 179, 185 and 197, and teacher education courses as prescribed by the department of Secondary Education. Recommended electives are courses 26, 27, and 167. Journalism is one of the subjects comprising the composite major in Language Arts designed for prospective teachers. (See College of Education).

Also required in connection with each sequence are minimums of five hours each in Economics, Political Science, and Sociology, and fifteen hours of English in addition to English 1, 2, and 3. Twenty-four hours in one or more foreign languages are recommended.

In addition to pursuing a thorough program in the department, majors and minors are advised to obtain as broad a background as possible through courses in English and the social sciences. Majors must have ability to operate a typewriter.

The following are suggested as minors for students who major in Journalism: Accounting and Business Administration, Art, Economics, English, History, Marketing, Political Science, Sociology, and Speech.

Lower Division

1. **Introduction to Journalism.** (3) A.S. Staff
An introduction to the social, cultural, and practical aspects of the newspaper, magazine, radio and related fields of journalism. Emphasis is given to the viewpoint of the layman as a "consumer" of journalism.
26. **Photography.** (4) A.S. Three lectures and one three-hour laboratory period per week. Hales
Lectures on the theory and art of photography; laboratory exercises in photographic manipulation, determination of the characteristics of photographic materials. (See Physics 26).
27. **Press Photography.** (3) W. One lecture and two three-hour laboratory periods per week. Prerequisites: Journalism 26 and consent of instructor. Boel
Lectures on the principles of photography for newspapers and periodicals, and laboratory exercises in the use of photographic equipment for the taking and developing of news pictures.
35. **Typography and Printing Processes.** (2) W. One lecture, one two-hour laboratory period per week. Haymore
Study of type styles and sizes, mechanical equipment, letterpress and offset printing, engraving processes and technical aspects of publishing; laboratory practice in printing methods.
37. **Printing Shop Practice.** (3) A.W.S. Prerequisite: Journalism 35 and approval of head of department. Haymore
Supervised practice in the mechanical processes of print-

ing, including typesetting, page makeup, and presswork, for a minimum of nine hours per week.

- 39, 40, 41. **Commercial Art.** (2-2-2) A.W.S. Jenson

Mathematics

Professors Eyring, Marshall, Hales; Mr. Geertsen, Mr. Miller.

Students who major in mathematics have the following courses prescribed: Mathematics 11, 12, 13, 101, 102, 103, 111, 112, 113, 121, 122.

Students majoring in Mathematics and expecting to be high school teachers have the following course prescribed: Mathematics 11, 12, 13, 101, 102, 103, and 111, 112, 113 or 121, 122.

Mathematics 1 may not be included in the major or minor requirements.

Mathematics is one of the subjects comprising the composite majors in Mathematics and the Physical Sciences designed for prospective teachers. (See College of Education.)

Lower Division Courses

1. **Algebra.** (5) A.W.S. Prerequisite: One year of high school algebra and one year of plane geometry. Staff

3. **Solid Geometry.** (3) S. Prerequisites: Mathematics 1, or its equivalent, and plane geometry. Staff
11. **College Algebra.** (5) A.W.S. Prerequisite: Mathematics 1 or its equivalent. Staff
12. **Plane Trigonometry.** (5) A.W.S. Prerequisite: Mathematics 1 or its equivalent. Staff
13. **Analytic Geometry.** (5) A.S. Prerequisites: Mathematics 11 and 12. Staff
A study of rectangular co-ordinates, straight line, circle, parabola, ellipse, hyperbola, transfer of co-ordinates, etc.
35. **Mathematical Theory of Investments.** (3) W. Prerequisite: Mathematics 1, or equivalent. Hoyt
Application of algebra to general business problems such as annuities, amortization, capitalization, depreciation, sinking fund, bond values, and building and loan associations.

Upper Division Courses

101. **Differential Calculus.** (4) A.W. Prerequisite: Mathematics 13. Staff
An introductory course with numerous applications of the principles to the tracing of curves and the solution of problems from geometry and mechanics.
102. **Differential Calculus.** (4) W.S. Continuation of Course 101. Staff
103. **Integral Calculus.** (4) S.A. Prerequisite: Mathematics 102. Staff
The process of integration is developed and applied to problems in geometry, mechanics, and physics.
111. **Definite Integrals.** (3) A. Prerequisite: Mathematics 103. Marshall
Development of the definite integral as a sum, and the more theoretical aspects of calculus.
- 112, 113. **Differential Equations.** (3-3) W.S. Prerequisite: Mathematics 103. Marshall
Differential equations of the first order, linear differential equations, total and partial differential equations with numerous applications to physics. Junior or senior year.
- 121, 122. **Theoretical Mechanics.** (5-5) A.W. Prerequisites: Calculus and Physics 41, 42, 43. Alleman

Fundamental principles of mechanics and their applications to physical problems.

Graduate Courses

- 201. Advanced Calculus.** (5) A. Prerequisite: Mathematics 113. Marshall
A review of the fundamental theory of calculus presented with a view to precision of statement and accuracy of proof.
- 202. Advanced Calculus.** (5) W. Marshall
Theory of differential equations, study of simple integrals, multiple integrals, and infinite integrals.
- 203. Advanced Calculus.** (5) S. Marshall
Study of some classes of functions defined by integrals; introduction to calculus of variations, and theory of functions. Note: Courses 201, 202, and 203 will follow an outline somewhat as given in Wood's "Advanced Calculus."
- 211. Vector Analysis.** (3) W. Marshall
Fundamental operations of vector analysis.
- 212. Vector Analysis.** (3) S. Marshall
Application of vector analysis to mechanics, electromagnetic theory.
- 231, 232. Differential Equations.** (3-3) W.S. Prerequisite: Mathematics 113. Staff
- 292. Readings in Mathematics.** (1 to 3) Marshall, Hales
- 300. Thesis for Master's Degree.** (4 to 6)

Modern and Classical Languages

Professors Cummings, de Jong, Sperry; Associate Professors Lee, Nibley; Assistant Professors Valentine, Clark, Rogers, Watkins; Mr. Taylor.

Every degree of Bachelor of Arts and Master of Arts granted by the University requires the completion of at least 24 hours of a foreign language. This is the main distinguishing feature of these degrees.

The department offers in French, Italian, Portuguese, Spanish, German, and Latin, programs leading to a major and a minor with the bachelor's degree. The requirement for a major is 30 hours of Upper Division credit. There is considerable flexibility in the choice of courses.

The department offers in French, Portuguese, Spanish, and German, programs leading to a Master of Arts degree. The prerequisites are: a minimum of 25 hours of Upper Division credit in the language, and it is strongly recommended that the candidate offer some Upper Division credit in Latin and also in a language related to the major language.

The requirements for the Master of Arts degree are: 1. The passing of a qualifying examination to determine the applicant's capacity to do graduate work of high standard. 2. The completion of at least 25 hours of work in the chosen language. 3. Courses covering the general field of literature and elementary philology. 4. A final written examination on this work. 5. The oral examination given under the direction of the Graduate School. 6. A satisfactory thesis either in literature or linguistics.

- 111, 112, 113. Third Year Italian. Reading. (2-2-2) A.W.S. Staff

Germanic Languages

GERMAN

Lower Division Courses

- 1, 2, 3. First Year German.** (5-5-5) A.W.S. Staff

Designed for those who have not had German. Pronunciation, reading, and the fundamentals of grammar, the building of a substantial vocabulary.

Upper Division Courses

- 101, 102, 103. Second Year German.** (5-5-5) A.W.S. Prerequisite: German 1, 2, 3 or equivalent Staff

- 104, 105, 106. Second Year German.** (3-3-3) A.W.S. Prerequisite: German 1, 2, 3 or equivalent Staff

Alternative for German 101, 102. Second year work embraces the various language skills, viz., reading, understanding, speaking, and grammar. Reading both intensive and extensive.

- 107, 108, 109. Individual Study in German.** (2-2-2) A.W.S. Prerequisites: 15 hours of German and consent of the department head. Staff

Assignments are made to fit the individual needs of the student.

- 111, 112, 113. Third Year German Reading.** (3-3-3) A.W.S. Prerequisites: German 102, 25 hours of German or the equivalent. Staff

- 121, 122, 123. German Composition and Conversation.** (3-3-3) A.W.S. Prerequisites: German 102, 25 hours of German or the equivalent. Staff

- 133, 134, 135. Introduction to German Literature and Culture.** (3-3-3) A.W.S. Prerequisite: 30 hours of German or the consent of the instructor. Staff

A general view of literary periods, movements, and social background, with representative readings.

- 139. Contemporary German Literature.** (3) S. Staff

- 140. Deutsche Kulturgeschichte.** (3) A. Rogers

- 141, 142, 143. Masterpieces of German Literature. (3-3-3) A.W.S
Staff
- 167, 168, 169. Scientific German. (3-3-3) A.W.S. Staff
197. German Seminar. (2) S. Staff

Graduate Courses

- 221, 222, 223. German Composition and Conversation. (3-3-3)
A.W.S. Staff
- 233, 234, 235. History of German Literature. (3-3-3) A.W.S. Staff
239. Contemporary German Literature. (3) A. Staff
240. Deutsche Kulturgeschichte (3) A. Rogers
- 251, 252. German Drama. (3-3) W.S. Staff
- 257, 258. German Novel, 1800 to Present. (3-3) A.W. Staff

281. Lessing. (3) A. Staff
282. Schiller. (3) W. Staff
283. Goethe. (3) S. Staff
284. Kleist and Grillparzer. (3) A. Staff
285. Hebbel and Ludwig. (3) W. Staff
286. Hauptmann and Sudermann. (3) S. Staff
292. Gothic. (5) A. Staff
Introduction to the study of Gothic. General introduction
to Germanic Philology.
293. Old High German. (5) W. Staff
294. Middle High German. (5) S. Staff
297. German Seminar. (2) Staff
300. Thesis for Master's Degree. Staff

Classics

LATIN

Lower Division Courses

- 1, 2, 3. First Year Latin.** (5-5-5) A.W.S. Staff

Designed for those who have not had Latin. Mastery of pronunciation, declensions and conjugations. Correlation of Latin originals with English derivatives. Graded reading. Characteristics of Roman civilization.

- 40. Pre-Legal Latin.** (2 or 3) A. Staff

Recommended for pre-legal students. Admission by permission of instructor.

- 41, 42. Premedical Latin and Greek.** (2 or 3 — 2 or 3) W. Staff

Recommended for pre-medical students. Admission by permission of instructor.

Upper Division

- 101, 102, 103. Second Year Latin.** (5-5-5) A.W.S. Prerequisites: Latin 3 or 2 years of high school Latin. Staff

A comprehensive study of grammar, composition. A continuation of the study of the influence of Latin on English. Readings from the classics.

- 104, 105, 106. Second Year Latin.** (3-3-3) A.W.S. Prerequisites: same as above. Staff

Alternative for Latin 101, 102.

- 107, 108, 109. Individual Study in Latin.** (2-2-2) A.W.S. Prerequisites: 15 hours of Latin and the consent of the instructor. Staff

- 194, 195, 196. The Latin Fathers.** (3-3-3) A.W.S. Staff

(See Division of Religion, Biblical Languages.)

- 197, 198, 199. Medieval Latin.** (3-3-3) A.W.S. Staff

(See Division of Religion, Biblical Languages.)

GREEK

For further detail on these courses in Greek, see Division of Religion, Biblical Languages.

Upper Division Courses

- 164, 165, 166. Second Year Modern Greek. (3-3-3) A.W.S. Staff
171, 172, 173. Elementary Greek. (3-3-3) A.W.S. Staff
174, 175, 176. Second Year Greek. (3-3-3) A.W.S. Staff
187, 188, 189. Elementary Modern Greek. (3-3-3) A.W.S. Staff
191, 192, 193. Intermediate Modern Greek. (3-3-3) A.W.S. Staff

Semitics

For further detail on these courses see Division of Religion, Biblical languages. The courses in Biblical languages carry religious credit and fulfill the language requirements for the A.B. degree.

HEBREW

- 151, 152, 153. Elementary Hebrew. (5-5-5) A.W.S. Staff
154, 155, 156. Intermediate Hebrew. (3-3-3) A.W.S. Staff
157, 158, 159. Advanced Hebrew. (2-2-2) A.W.S. Staff

ARAMAIC

- 161, 162, 163. Biblical Aramaic and the Targums. (2-2-2) A.W.S.
Prerequisites: Hebrew 151, 152, 153. Staff

SYRIAC

- 201, 202, 203. Elementary Syriac. (2-2-2) A.W.S. Prerequisites: Hebrew 151, 152, 153. Staff
Elements of the Grammar and reading from the Syriac New Testament.
204, 205, 206. Intermediate Syriac. (2-2-2) A.W.S. Staff

AKKADIAN

- 211, 212, 213. Elementary Akkadian. (2-2-2) A.W.S. Staff

EGYPTIAN

221, 222, 223. Elementary Egyptian. (2-2-2) A.W.S. Staff

Slavic and Oriental**RUSSIAN****Lower Division Courses**

1, 2, 3. First Year Russian. (5-5-5) A.W.S. Staff

Designed for those who have had no Russian. Pronunciation, reading, and the fundamentals of grammar, and the building of a substantial reading vocabulary.

Upper Division Courses

101, 102, 103. Second Year Russian. (5-5-5) A.W.S. Prerequisites: Russian 1, 2, 3 or the equivalent. Staff

The various language skills, viz., reading, understanding, speaking, and grammar. Reading, both intensive and extensive.

107, 108, 109. Individual Study in Russian. (2-2-2) A.W.S. Prerequisites: Certain elementary work in Russian and the consent of the instructor. Staff

JAPANESE

1, 2, 3. First Year Japanese. (5-5-5) A.W.S. Prerequisites: The consent of the head of the department on the basis of an estimate of the student's need and capacity to pursue the study of the language. Success in other foreign language work is considered. Definite announcements that these courses will begin this year will be made through the press and otherwise. Staff

Constant study of the writing systems. Grammar and vocabulary learning. Easy conversation and composition throughout. The aim is the preparation of persons who will work among Japanese people.

LINGUISTICS

Lower Division

- 60. Practical Phonetics.** (3) A.W.S. Staff

The elementary principles of speech mechanics in their relation to correct diction. (See also Speech 60, Vocal Music 60.)

Upper Division

- 101. Introduction to Language Science.** (3) A. Cummings

A study of the nature of language in general. It deals with the elements of phonetics, phonetic change, the nature of meaning and changes of meaning, distribution and classification of the languages of the world, etc.

- 111. Meanings in Language.** (3) W. Cummings

A detailed study of those areas of Linguistics dealing with meanings (Semantics). Analysis of the causes of ambiguities and the misunderstanding of words. Treatment of multiple meaning. Intended to benefit the teachers of language, either of the mother tongue or a foreign tongue. Application is made of linguistic principles in the reading and interpretation of texts.

- 121. Studies in Criticism.** (3) S. Cummings

Attention is largely on critics and critical theory on the continent of Europe. Material for study is selected from various languages and literatures of the continent, resulting in a course in comparative literary studies. Readings as far as possible are in the foreign languages.

Graduate Courses

Physics

**Professors Eyring, Marshall, Hales;
Mr. Geertsen, Mr. Boel.**

Students who expect to study Engineering, Chemistry, or who are planning to major or minor in the Department of Physics should begin their study of Physics by electing courses 41, 42, and 43.

Students who expect to study medicine or major in the fields of biological science should begin their study of Physics by electing courses 31, 32, and 33.

Non-science students may elect with profit courses 1, 2, 16, 21, and 26, which may be taken without prerequisite and which are organized with the view of giving the student an appreciation of his physical environment.

Students majoring in Physics have the following courses prescribed: Physics 41, 42, 43, 121, 122, 195, 196, 197, and at least fifteen additional hours selected from the upper division courses in the department.

Students majoring in Physics and expecting to be high school teachers have the following courses prescribed: Physics 26, 41, 42, 43, 121, and at least twelve hours of additional courses selected from the upper division of the department.

Physics is one of the subjects comprising the composite major in Mathematics and the Physical sciences designed for prospective teachers. (See College of Education.)

Lower Division Courses

1. A Survey Course in Physics. (3) A.

Eyring

This is an elementary course designed for non-science students who wish to obtain training in the scientific aspects of force and motion, energy and work, simple machines, heat as it pertains to the household, and electricity. This course will be of special interest to students of Physical Education and Home Economics. Courses 1 and 2 should be elected by the non-science student if he wishes an orientation in the whole field of Physics.

2. A Survey Course in Physics. (3) W. Eyring

This is an elementary course designed for non-science students who wish to obtain training in the science of sound as it pertains to speech, music, and auditorium acoustics, and for the students who wish to obtain training in the scientific aspects of light and color. This course and Course 1 will give to the non-science student an orientation in the field of Physics.

16. Descriptive Astronomy. (3) S. Eyring

This course is designed for those wishing a general knowledge of the facts, theories, and methods of astronomy. Frequent use will be made of the University Observatory on University Hill. Hales

21. Weather and Climate. (4) W. Hales

A study of the earth's atmosphere and the problems associated with climate and weather forecasting.

26. Photography. (4) A.S. Hales

Lectures on the theory and art of photography; laboratory exercises in photographic manipulation, determination of the characteristics of photographic materials, color, sensitivity, etc. (See Journalism 26.)

31. General Physics. Mechanics and Sound. (5) A. Prerequisites: Mathematics 1, or its equivalent. Eyring

Courses 31, 32, and 33 constitute a general college course in physics especially designed to meet the needs and requirements of pre-medical students. Majors in the fields of the biological sciences will find the subject matter of these courses selected to meet their needs.

32. Heat and Light. (5) W. Continuation of Physics 31. Eyring

33. Electricity. (5) S. Continuation of Physics 32. Eyring

41. General Physics. Mechanics and Sound. (5) A. Prerequisites: Mathematics 11 and 12. Hales

Courses 41, 42, and 43, constitute a general college course in physics. This general course will satisfy the requirements

in Physics for engineering, and it is a prerequisite for all the specialized courses in physics.

42. Heat and Light. (5) W. Continuation of Physics 41. Hales

43. Electricity. (5) S. Continuation of Physics 42. Hales

Upper Division Courses

121, 122. Mechanics. (5-5) A.W. Prerequisites: Calculus and Physics 41, 42, 43. Staff

Fundamental principles of mechanics and their application to physical problems.

131. Thermodynamics. (5) A. Prerequisites: Calculus and Physics 41, 42, and 43. Hales

A study of the laws of thermodynamics and their application to numerous physical and chemical phenomena.

132. Physics of the Air. (5) W. Prerequisite: Calculus and Physics 41, 42, and 43. Hales

The physics of the earth's atmosphere. A study of the causes which produce variations in the pressure, temperature, and humidity of the air; and their influence upon weather and climate.

133. Synoptic Meteorology. (5) S. Hales

A continuation of course 132, with special emphasis placed upon the Norwegian Polar Front theory of weather analysis. Daily weather maps, including all frontal data, atmospheric cross sections, and various thermodynamic charts, will be constructed as part of the laboratory work.

141, 142, 143. Electricity and Magnetism. (5-5-5) A.W.S. Prerequisites: Calculus and Physics 41, 42, and 43. Marshall

A study of electronics, the vacuum tube, and D.C. and A.C. circuit theory and measurements.

151, 152. Atomic and Nuclear Physics. (5-5) A.W. Prerequisites: Calculus and Physics 41, 42, and 43. Hales

A study of the structure of the atom as revealed by X-rays, radioactivity, spectroscopy, and related subjects.

161. Sound. (5) S. Prerequisites: Physics 121 and 122. Eyring

Speech, hearing, sound transmission, and radiation, and acoustics of auditoriums.

171. Experimental Optics. (5) S. Prerequisites: Calculus and Physics 41, 42, and 43. Marshall

During the first part of the course, experiments, outlined in Taylor's Manual of Optics, will be performed, and during the last, special work in the echelon and concave grating will be given.

181. Laboratory Arts. (2) A. Staff

Processes connected with the construction and use of apparatus in the physical laboratory.

183. Advanced Physical Measurements. (1 to 3) A.W.S. Eyring, Marshall, Hales

Precision measurements involving special laboratory techniques and the solution of some simple research problem. Required of all majors in Physics in senior year.

187. Advanced Photography. (2) W. Prerequisites: Calculus, Physics 26, 41, 42, 43, and general Chemistry. Hales

A laboratory course in the more advanced photographic principles including sensitometry, physical development, toning, natural color printing, etc.

191. Readings in Modern Physics. (1 to 3) A.W.S. Eyring, Marshall, Hales

A reading course designed to acquaint the student with new material, which may not have been included in the regular courses.

195, 196, 197. Seminar. (1-1-1) A.W.S. Eyring, Marshall, Hales

A survey of the physical theories and topics in modern research. A course for seniors in which the student is aided to integrate the specialized courses.

Graduate Courses

201, 202. Introduction to Modern Physics. (5-5) A.W. Marshall

A study of modern physics, including such topics as quantum theory, spectroscopy, and atomic structure, etc.

203. Quantum Mechanics. (5) S. Marshall

205, 206, 207. Introduction to Theoretical Physics. (5-5-5) A.W.S. Hales

An introductory study of the mathematical basis and development of the fundamental laws and theories of physics.

210, 211, 212. Classical Experiments. (2-2-2) Eyring, Marshall, Hales

291. **Readings in Modern Physics.** (1 to 3) Eyring, Marshall, Hales
- 295, 296, 297. **Seminar.** (1-1-1) A.W.S. Marshall, Hales
300. **Thesis for Master's Degree.** (4 to 6) Staff

PHYSICS

Aeronautical Science

Lower Division Courses

22. **Navigation.** (5) W. Hales
Problems associated with dead reckoning, radio, and celestial navigation will be emphasized.
35. **Civil Pilot Training and Air Regulations.** (0) A.S. Hales
This course includes the elementary theory of flight, general service to aircraft engines, and civil air regulations as required for C.A.A. private pilot certificates.
36. **Meteorology and Navigation.** (5) W. Hales
The problems in weather and navigation met by the pilot will be studied. The course includes all theory required for C.A.A. examination for private pilot certificates.
37. **Aerodynamics and Airplane Structures.** (4) A.S. Hales
This course includes the elementary theory of Aerodynamics as required for secondary C.P.T. A number of wind tunnel experiments will be performed by the student.
38. **Airplane Engines.** (4) A.S. Hales
A study of types of aircraft engines and the theory back of their operation, including timing, ignition, carburetion, supercharger, etc.
- 39 a, b, c, d, e. **Flight Training.** A.W.S. Hales, Staff
- a. Private Course (1) Instruction sufficient for Private Pilot rating. 55 hours.
 - b. Commercial Course (1) Instruction sufficient for Commercial Pilot rating. 210 hours.
Prerequisite: Physics 39a.
 - c. Flight Instructor (1) Methods of instruction leading to Flight Instructor rating. 47 hours.
Prerequisite: Physics 39b.

d. Instrument (1) Twenty hours dual and twenty hours Link instruction leading to Instrument rating. Prerequisite: Physics 39b.

e. Multi-Engine ($\frac{1}{2}$) Fifteen hours maximum instruction leading to Multi-Engine rating. Prerequisite: Physics 39a.

Arrangements will be made by the student to take this flight training under the direction of the Provo Flight Service or the Central Utah Aviation, Inc.

Political Science

Assistant Professors Carr, J. R. Clark, III; Mr. Grow, Mr. Hamblin, Mr. Sandgren.

Requirements for a Major in Political Science

A Political Science Major requires the completion of 45 hours of work in this field. Political Science 1, 10, 11, and 12 are required courses and should be completed by the end of the sophomore year. The additional work shall consist of upper division courses which will be selected by the student with the consent of the major professor.

A student deciding to major in Political Science must immediately consult the head of the department who will determine in consultation with the student upon the minor field of work.

Lower Division Courses

1. Introduction to Political Science. (5) A. Carr

An exploratory course covering the whole field of political science and designed for both major and general course students.

10. American National Government. (5) A.W. Grow, Carr

The historical development of the American Government; origin and growth of the constitution; constitutional rights of the citizen; a detailed study of the executive, legislative, and judicial departments of the national government.

11. State and Local Government in the United States. (5) W. Grow

The nature of the federal government; the evolution of states from territories; place of the states in the nation; a study of the legislative and judicial branches of state government; the types of municipal government and their relative values.

12. Comparative World Governments. (5) S. Carr, Grow

A general study of selected European and Asiatic governments, their development, organization and administration.

15. Introduction to International Relations. (5) A. Carr

Survey of international relations in the contemporary world. Development of the modern state system, problems of international relations, and the emergence of international law and government.

Upper Division Courses

100. Principles of Political Science. (3) S. Carr

Systematic study of the principles of political science; the scope and method of politics; origin, basis, and nature of the state; sovereignty; the structure and province of government; citizenship and nationality.

104. Ancient, Medieval, and Early Modern European Political Thought. (3) A. Carr

A study of political thought from the Greek and Roman period, through the Middle Ages to the eighteenth century.

105. Modern European Political Thought. (3) W. Carr

A study of modern and contemporary political thought, including the rise and development of individualist, socialist, communist, fascist, and collectivist doctrines.

106. American Political Thought. (3) S. Carr

An examination and interpretation of American political ideas from the colonial period to the present with an analysis of their influence on the development of American history and government.

110. Political Parties and Party Government. (3) A. Grow

A study of the organization and methods of action of political systems in the United States; the development of the party system; the party system in the leading European countries.

115. Public Opinion. (3) (Not given this year.) Staff

120. **Legislative Processes: National and State.** (3) (Not given this year.) Staff

125. **Municipal Government.** (3) W. Grow

A study of municipal growth and development in the United States and in some of the principal European countries. Attention is given to municipal structure, organization, powers, and administration.

130. **Public Administration.** (3) S. Grow

An examination of the field of public administration emphasizing the relationship of the administration to other branches of government, the organization and personnel of administrative service, types of control of the administration, central and local administration, etc.

135. **American Constitutional Development.** (3) S. Grow

A course dealing with the history and development of the Constitution of the United States, a study of its fundamental provisions, their interpretation, and their application in the functioning of the American system of government. (Prerequisite: Political Science 10.)

140. **Democracies and Totalitarian Governments.** (3) (Not given this year.)

145. **English Government and Politics.** (3) W. Carr

Development of the English constitution; an examination of the growth of cabinet government, the Crown, Parliament, Civil Service; local government and administration; the British system of justice and courts of law; a general survey of Imperial governments and relations.

148. **The Pacific Area.** (3) (Not given this year.) Carr

157. **Commercial Law.** (4) A. Sandgren

Fundamental legal principles and institutions: the formation, operation and effect, and performance of contracts.

158. **Commercial Law.** (4) W. Sandgren

A study of the laws governing (a) negotiable instruments and the rights and liabilities of parties thereto, (b) real and personal property, and (c) sales and bailments of personal property.

159. **Commercial Law.** (4) S. Sandgren

A study of the laws governing relationships arising out of business associations: agency, partnerships, and corporations

will be studied by an examination of the leading cases decided by the courts.

168. **Theories of International Relations.** (3) S. Carr
An examination of theories of international relations from the time of the ancient Chinese and Hindus to the present.
170. **International Politics and Relations.** (3) W. Carr
A study of the major present day problems and developments in the field of international relations.
175. **The Practice of Diplomacy.** (3) (Not given this year.)
180. **International Law.** (3) A. (Not given this year.) Staff
A study of the sources, principles, and sanctions of international law; the law of peace, war, and neutrality. Problems growing out of World Wars I and II.
183. **Introduction to Administrative Law of U. S.** (3) S. Hamblin
Study of the legislative setting for administrative bodies and judicial control of administrative action. Cases in administrative law will be read and discussed.
186. **Constitutional Law of the United States.** (3) W. Hamblin
The doctrine of judicial review, jurisdiction of federal courts, citizenship, personal liberty, due process and equal protection of the laws, police power, eminent domain, taxation, regulation of commerce, impairment of obligation of contracts.
- 190, 191, 192. **Seminar.** Staff
- 193, 194, 195. **Research.** Staff
- 196, 197, 198. **Directed Readings.** Staff

Psychology

Professors Poulson, Lambert; Associate Professor Allen

All students in the university may find in this department courses of importance to their personal development and often, also, courses of vital importance to their professional training. They may find here groups of courses designed to serve their special interests in teaching, homemaking, business, industry, personnel work, social work, counseling, law, medicine, nursing, or graduate study in psychology.

A major in psychology requires a total of from 36 to 40 approved hours. The most fundamental courses to be included are Psychology 11, 152, 155 (or 156), 171, and 190. The next most important courses for majors and minors are Psychology 120, 139, 173, 183, 187 and two psychology seminars. Also see the department head about appropriate supporting work in other departments.

Lower Division Courses

1. **Effective Study.** (2) A.W.S. Staff
A practical course in such things as budgeting time, note-making, memorizing, straight thinking, etc.
11. **General Psychology.** (5) A.W.S. Poulson, Allen, and Staff
Foundation course covering the essentials of the whole field of modern scientific psychology. An average of two hours each week will be devoted to laboratory demonstrations and experiments.
12. **Applied Psychology.** (3) A.W.S. Staff
An elementary survey of certain applications of psychological principles in everyday life. May either precede or follow Psychology 11.
54. **Experiments in General Psychology.** (2) S. Two lectures or demonstrations and four additional hours of laboratory work weekly. Allen
An elementary laboratory course to be taken with or subsequent to Psychology 11.

Upper Division Courses

120. **Social Psychology.** (5) A. Prerequisite: Psychology 11 or equivalent. Poulson
Fundamental psychological consideration of such topics as: social factors in individual development; language development; suggestion and suggestibility; frustration and aggression; role and status; leadership; prejudice; propaganda and counterpropaganda; religion; war and peace.
122. **Child Psychology.** (3) S. Prerequisite: Psychology 11 or equivalent. Poulson
Psychological consideration of child growth and development until puberty. (See also Household Administration 122.)

- 123. Psychology of Adolescence.** (2) S. Prerequisite: Psychology 11 or equivalent. Poulson

Development from puberty to maturity. Critical examination of certain hypotheses concerning mental development. Important educational implications.

- 125. Mental Hygiene.** (3) W. Prerequisite: Psychology 11 or equivalent. Poulson

Intended to yield insight toward the prevention and amelioration of mental and personal difficulties. Important for prospective parents, teachers, and social workers. (See also Philosophy of Education 169, Health 125, and Household Administration 125.)

- 129. Educational Psychology.** (3) A.W. Prerequisite: Psychology 11 or equivalent. Allen

A consideration of basic facts of learning, individual differences, mental development, and personality and their application to certain problems of education.

- 130. Clinical Psychology.** (3) A. Prerequisite: Psychology 11 or equivalent. Allen

Sociology

Professors Ballif, Bradford; Professors Emeritus Swensen, Boyle; Assistant Professor Payne; Mr. Canning, Mr. Smith.

As a prerequisite to any upper division course in the department, a student must take either Sociology 11 or 12.

Majors in the department are required to take courses 11, 12, 102, 104, 182, 186, and 190 or 192, and to present total sociology credit of 40 hours or more.

Recommended courses, beyond those required, are listed below for each of several goals that sociology majors might have in mind:

General Cultural education—any or all courses.

Teaching—124, 128, 136, 152, 156, 160, 170, 172, 176.

Social Work—116, 124, 128, 132, 134, 136, 138, 144, 146, 148, 150, 170, 172.

Administration—114, 116, 118, 132, 134, 136, 138, 150, 172.
Research and/or graduate study—114, 118, 150, 152, 156, 160, 170, 172, 178.

Majors and minors are not only advised to take as many courses in the department as they can, but to broaden their background with courses in related fields, such as Economics, History, Political Science, Psychology, Zoology, Geography, Geology, Philosophy of Education, etc.

Sociology is one of the subjects comprising the composite major in Social Science designed for prospective teachers. (See College of Education.)

Lower Division Courses

11. Introductory Sociology. (5) A.W.S. Staff

This course is designed to give the groundwork for all sociological study. It presents a general view of social organization, social forces, and a practical working theory of the nature of society.

12. Social Problems. (5) A.W.S. Staff

This course is a study of the forces within society which produce disorganization and develop social problems. Specific problems such as crime, poverty, political corruption, racial conflicts, mental illness, etc., will be discussed.

Upper Division Courses

102. Development of Sociological Thought. (3) W. Bradford, Canning

An analytical study of leading social theories from early times to the Medieval Period.

103. Development of Sociological Thought. (3) S. Bradford, Canning

A study of social thought from the Middle Ages to Herbert Spencer. The origins of sociology.

104. Contemporary Sociological Theory. (3) S. Bradford

Emphasis is given to major developments in contemporary sociology. The contributions of leading present-day sociologists are analyzed.

108. **Cultural Anthropology.** (3) W. Bradford
Consideration is given to the institutions and structures of various societies. The meaning and content of culture is analyzed.
110. **Principles of Sociology.** (3) W. Swensen
An analysis of the various principles upon which society operates.
114. **Social Psychology.** (3) W. Ballif
A study of the social factors which influence human behavior. This course attempts to evaluate the social significance of mob-mind, propaganda and other group phenomena.
116. **Social Control.** (3) S. Swensen
A study of the means of control of the individual by groups. Such agencies as public opinion, belief, social suggestions, ceremony, personal ideals, etc., will be studied in detail.
118. **Social Ethics.** (3) W. Lloyd
(See also Philosophy of Education 190.)
124. **Crime and Delinquency.** (3) A. Ballif, Smith
A study of the nature and extent of criminal behavior, including the causes of crime and the treatment of offenders.
128. **Race Relations.** (3) S. Ballif
A study of the basic processes operating in present-day inter-relations of racial groups. Attention is given to problems of the second generation arising out of conflicting cultural backgrounds.
132. **Labor Problems.** (3) A. Miller
(See also Economics 161.)
134. **Social Legislation.** (3) S. Ballif
A study of the underlying principles and techniques of social legislation. A consideration of social legislation now operative, with special reference to needed measures.
136. **Community Organization and Leadership.** (3) A. Ballif
Problems of community life and action, and the methods of promoting them through organization and leadership.
138. **The Cooperative Movement.** (2) A. Ballif
The meaning of cooperation and the development of the cooperative movement. The course logically includes consideration of the types of cooperatives, the problems that

have grown up with them and a consideration of the principles upon which cooperatives work.

140. Social Structure in the United States. (3) S. Bradford

This course will analyze some of the distinctive features of the major social institutions of the United States. Special attention will be given the kinship, occupational, property and authority patterns.

144. An Introduction to Social Work. (2) A. Ballif, Payne

An introductory survey of the various fields and methods of social work; the extent of social work and its implications for related professions.

146, 148. Social Case Work. (2-2) W. Staff

Principles and practices of case work with the maladjusted and the dependent.

150. Human Ecology. (3) W. Ballif, Smith

A study of the spacial relationship of man as determined by his adaptation to physical and social environments. Discussions will center on such subjects as isolation, interaction, segregation, invasion, etc.

152. Population. (3) A. Bradford, Smith

Deals with theories of population increase as well as with problems relating to composition, distribution, density, and migration. The qualitative and quantitative aspects of suggested population policies are analyzed.

156. Rural Sociology. (3) A. Bradford

An analysis of the sociology of rural life. Attention is given to rural associations, organizations, population, and social processes. Special consideration is accorded certain rural social problems.

160. Urban Sociology. (3) S. Bradford

A study of the evolution and problems of urban life. Special emphasis is accorded the institutional aspects of the family, occupational, political, and class and caste structures in cities. Consideration is also given deviant behavior patterns and attempted measures of reintegration and control.

162. Sociology of Recreation. (3) W. Ballif

The modern social situation and the rise of the recreation movement; the basic theories of play and recreation; the relation of recreational activities and interests to personal growth, group behavior, and social maladjustments.

- 164. Juvenile Sociology.** (2) A.W.S. Boyle
(See also Secondary Education 189.)
- 170. Marriage.** (3) W. Ballif, Bradford
An advanced course designed for the specialist in family counseling, and for both the married and those ready for marriage who desire a better understanding of the institution and the problems involved. Sociological discussions will be supplemented from time to time by lectures from specialists in other fields.
- 172. The Family.** (3) A. Bradford, Canning
A study of the history and development of the family as a special institution. The course also considers the modern family and its problems.
- 176. Educational Sociology.** (3) A. Swensen
An introductory study of the principles of educational sociology and their application to the theory and practice of school administration, curricula and methods of instruction.
- 178. The Sociology of Religion.** (2) W. Ballif

Zoology and Entomology

**Professor Tanner; Associate Professors Hayward, Beck;
Assistant Professor H. J. Nicholes.**

Students majoring in Zoology will be required to complete the following courses or their equivalents during the first two years: Zoology 11, 12, 13, 18 or 29, 46, and Entomology 30. This will constitute the basic lower division course. The remainder of the program of the major will be determined by the department staff, and will depend upon the interests and particular needs of each individual student.

Pre-medical students may take Zoology for their major, and should complete the following courses: Freshman, 11; Sophomores, 12, 13, 29; Juniors, 165, 166, 170; Seniors, 172, 175, 182, 183.

Students who desire to teach Biology in the high school should complete the following courses: Zoology 11, 12, 13, 18 or 29, 30, 45, 157, 158, 159, 175, 182, 183; Botany 1, 2, 3, 140; Bacteriology 21, 22. Students who desire to minor in the department and teach high school should complete the following courses: Zoology 11, 18 or 29, 45, 46, and Entomology 30.

Students majoring in Entomology should complete the following courses: Freshmen, Zoology 11, 12, 13; Sophomores, Entomology 30, 31, 32, and Zoology 28; Juniors, Entomology 133 and Zoology 171; Seniors, Entomology 194 and Zoology 175.

Facilities for the Study of Zoology and Entomology

The natural history collections consist of a complete collection of Utah fish, amphibians, reptiles, birds, and mammals. This collection is also supplemented by the Chester Van Buren collection of birds of the Magdalena River of Columbia, the David Starr Jordan collection of fish from the Hawaiian Islands, and a collection of reptiles from Oceania and the Philippine Islands. The entomological collection contains authoritatively named specimens in all the orders of insects. The pinned insects are placed in 450 trays, 18x19 inches in size, 2 inches deep. The specimens are pinned in unit boxes. The Lepidoptera collection is fairly complete,

containing specimens from Utah and the Great Basin region. It contains over 600 named species and 10,000 specimens. It is made up of the famous Tom Spaulding collection and the Chester Van Buren collections. The Coleoptera collection contains over 6000 determined species and 50,000 specimens. It contains a fairly complete collection of weevils, the Charles W. Leng collection of 1676 species, 300 species from the Blatchley collection and Charles Schaeffer weevil collection consisting of 813 species. A large collection of insects was made by staff members and former students in the South Pacific Islands, 1942-45. Many types, cotypes, and paratypes specimens are in the collections. All these collections are housed in the fireproof George H. Brimhall Building.

College of Commerce

Herald R. Clark, Dean

The purpose of the College of Commerce is to provide training for leadership in industry and finance. Courses are so arranged that students will be given the training that will best fit them for analyzing business conditions, for efficiency in office administration, and for the demands of the industrial and financial world. The degrees, Bachelor of Arts and Bachelor of Science, are given to graduates of this College.

Majors may be selected from the following departments: Accounting and Business Administration, Agricultural Economics, Economics, Finance and Banking, Marketing, Political Science, and Secretarial Practice.

DEPARTMENTS OF INSTRUCTION

Accounting and Business Administration

Professors Hoyt, Clark, Boyle, Eyring, Poulson, Miller, Lambert, Pond; Associate Professors Taylor, Smith, Peterson; Assistant Professors Lowe, Crandall; Mr. McKnight, Mr. Evans.

Students majoring in this department are required to take Accounting and Business Administration 2, 35, 152, 162 or 167, and 174 or 175; Economics 2; Marketing 157; Finance and Banking 151 or 153, and 157, 158, 159.

Accounting is one of the subjects comprising the composite majors in Business designed for prospective teachers.

Lower Division Courses

1. **Elementary Accounting.** (5) A.W.S. Five one-hour laboratory periods per week. Boyle, Smith, Lowe, McKnight, Crandall, Peterson, Evans

An introduction to college accounting. Purpose, preparation to enter business at once, and a foundation for advanced work in accounting.

- 2. Elementary Accounting.** (5) A.W.S. Five one-hour laboratory periods per week. Boyle, Smith, Lowe, McKnight, Crandall, Peterson, Evans

Continuation of Course 1.

- 26. Office Machines.** (1) A.W.S. Prerequisite: Accounting and Business Administration 1. Croft
(See Secretarial Practice 26.)

- 35. Methametrical Theory of Investment.** (3) A.S. Staff
Application of mathematics to business and accounting. Compound interest, annuities, logarithms, progressions. (See Mathematics 35.)

- 36. Graphical and Statistical Methods.** (3) S. Staff
(See Mathematics 36.)

Upper Division Courses

- 150, 151, 152. Intermediate Accounting.** (3-3-3) A.W.S. Prerequisite: Accounting and Business Administration 2.

Clark, Smith, Lowe

Basic accounting theory applied to going concerns. Special attention to corporations and partnerships and preparation of various types of accounting statements.

- 154. Credits and Collections.** (3) S. Hoyt
Granting of credit, control of credit, how collections are made, retail credit bureaus, contracts, installment selling plans. (See also Marketing 154.)

- 155. Principles of Risk-Bearing.** (5) W. Boyle
(See Finance and Banking 170.)

- 160. Office Organization and Management.** (3) S. Hoyt
(See Secretarial Practice 160.)

- 161. Labor Problems.** (3) A. Miller
(See Economics 161.)

- 162. Business and Industrial Management.** (3) W. Hoyt
The organization and planning of business operations for the most effective control and execution.

- 163. Personnel Management.** (5) S. Prerequisite: Psychology 12. Boyle

Developing a modern personnel organization for protecting the welfare of employees and promoting effective

labor management. Employee selection, training, promotion, and incentives.

- 164. Industrial Psychology.** (3) A. Poulson
(See Psychology 164.)
- 165. Business Psychology.** (3) S. Poulson
(See Psychology 165.)
- 167. Personnel Psychology.** (3) A. Prerequisite: Psychology 11.

College of Education

Reuben D. Law, Dean

The College of Education has as its principal function the educating of teachers, principals, supervisors, and superintendents. It offers courses leading to the degrees of Bachelor of Arts and Bachelor of Science and also to the advanced degrees in the professional fields of education. Its offerings meet the requirements of the Utah State Board of Education for elementary and secondary teacher certification and for certificates in administration and supervision. Work leading to such certificates in other states and other nations may also be taken at Brigham Young University.

Students who contemplate entering the teaching profession are advised to make application for admission to the College of Education as early as possible in their college career. Acceptance by the Admissions Committee of the university does not automatically carry the right to register in the College of Education. It is necessary, also, to be approved by the Committee on Selective Admission to the College of Education after making formal written application on blanks which are available at the dean's office. Application should be made well in advance, and students should remain alert for announcements regarding qualifying tests which may be given periodically. Under certain circumstances students may be permitted to register tentatively for a quarter while being given opportunity to comply with the requirements for regular admission to the College of Education. The important work of teaching is not a right to be demanded by any citizen. It is a privilege to be granted by society on the basis of worthiness.

The following departments are at present organized in the College of Education: Education, Educational Administration, Elementary Education, Philosophy of Education and Guidance, Secondary Education, and Health, Physical Education and Recreation. Elementary teachers are expected to major in Elementary Education accompanied by broad academic preparation in many fields needed in the modern elementary school.

In connection with the departments of Elementary Education and Secondary Education modern elementary and secondary schools (kindergarten to twelfth grade) are provided as laboratories wherein teachers may secure experience in teaching under helpful guidance and supervision.

A teacher placement bureau is maintained by the College of Education as a service to prospective teachers, to experienced teachers and administrators, and to school districts and institutions seeking to employ professional personnel.

Students entering teaching in the elementary or secondary fields are expected to be proficient in the basic skills and to possess a socially desirable background of common information. Tests will be given at announced times at which the standard of proficiency can be determined. It is urged that the tests be taken at the time of the first courses in Education or earlier. Better guidance will be made possible if the tests are taken early.

It is expected that prospective teachers will maintain a desirable standard of scholarship in all of their work and especially in their major fields of professional and academic preparation.

All students who expect to take student teaching are required to make formal written application on blanks provided by the teacher education divisions of the College of Education at least three months prior to the date of beginning student teaching, and preferably not later than the end of the second quarter of the junior year. Before applicants are permitted to begin student teaching their applications in the case of secondary teachers must be approved by a committee in the Department of Secondary Education and by the head of the respective major subject matter department; and applications for elementary student teaching must meet the approval of a committee in the Department of Elementary Education.

The certificates for which students may prepare are listed below:

Teacher's Certificate for Elementary Schools.

Librarian's Certificate for Elementary Schools.

Teacher's Certificate for Secondary Schools.

Librarian's Certificate for Secondary Schools.

Counselor's Certificate.

Administrative-Supervisory Certificate for Elementary Schools.

Administrative-Supervisory Certificate for Secondary Schools.

Administrative Certificate for Superintendents.

The requirements in terms of the program at B. Y. U. for elementary and secondary certificates for teachers are given below in some detail. For further clarification of these requirements and for guidance in qualifying for the librarian's

certificate, the counselor's certificate, and for administrative and supervisory certificates, students should consult with the dean and the department heads.

When all requirements have been met, certificates are issued by the State Department of Education upon the written recommendation of the Dean of the College of Education. Seniors and graduate students expecting to receive any of the certificates listed above should call at the office of the dean and fill out the necessary application form before leaving the campus.

- A. Nine quarter hours in an adequate understanding of children, of the nature of the physical, intellectual, and emotional development of children before and through the years of schooling (physical and psychological foundations).
 1. Child Growth and Development3 hrs.
 2. Health Education3 hrs.
 3. Educational Psychology3 hrs.

B. Six quarter hours in understanding the school and its relation to the community and public school organization and administration, with emphasis on Utah public schools and Utah school law.

1. Philosophy of Education3 hrs.
2. School Administration and Utah School Law3 hrs.

C. Twelve quarter hours in elementary school curriculum and methods including public school art, public school music, and physical education for elementary schools.

D. Twelve quarter hours in elementary school student teaching.

III. Academic Preparation: Elementary teachers are advised to develop a broad background of scholarship in the many fields related to the elementary school as a means of being prepared to meet the demands for versatile teachers to serve in modern, non-departmentalized elementary schools. As a means of giving some focus to this broader preparation, students are encouraged to develop a group of at least thirty hours in one related area. This group may include the requirements for a degree minor and the general preparation requirements listed under No. 1 above.

PREPARATION FOR TEACHER'S CERTIFICATE FOR SECONDARY SCHOOLS AT B. Y. U.

I. General Preparation: (Minimum of 57 hours as per general University requirements).

A. Twelve quarter hours in each of the following fields: social science, physical science, and biological science. The College of Education recommends that three hours of general psychology or practical psychology be included in the biological science group.

B. Eighteen hours in English. Students with foreign languages may substitute six hours in the English group.

C. Three quarter hours of physical education.

D. Courses in art, music, and speech are also recommended.

II. Professional Preparation (minimum 33 hours):**A. Psychological and Physical Foundations:**

1. School Health3 hrs.
2. Educational Psychology3 hrs.
3. Growth, Development, and Problems of Youth3 hrs.

B. Social and Legal Foundations:

1. Philosophy of Education3 hrs.
2. School Administration and Utah School Law3 hrs.

C. Student Teaching, Curriculum and Methods:

1. Secondary School Curriculum and Methods3 hrs.
2. Student Teaching with Related Special Methods and Curriculum.....12 hrs.

III. Special Academic Preparation (minimum 60 hours):**A. Composite Majors:**

Experience has shown that teachers on the secondary level are more qualified to serve the needs of the average high school when they are students of several related subjects rather than when they are trained in a single subject. (Recommended by State Department of Education).

It is recommended that as early as the beginning of the sophomore year prospective secondary school teachers select one of the groups of related subjects as their chosen field of instruction.

The composite major takes the place of the traditional major and minor. It must consist of not less than sixty hours of credit distributed in two or more related fields (preferably three) with not less than eighteen hours in any one subject.

For guidance in selecting and completing a composite major, students may consult with the Dean of the College of Education and with the chairman of the Department of Secondary Education whose responsibility it is, under cooperative advisement with the academic departments, to administer the composite majors which cut across two or more departments. Secondary teachers may use the approved composite teaching majors of sixty or more hours as degree majors in the College of Education along with the professional major in-

licated above. (See Department of Secondary Education for detailed listing of composited majors).

B. Teaching Major and Minor:

Students who do not elect a composite major may select a teaching major and a teaching minor. The teaching major shall consist of thirty-six to forty-five quarter hours of a subject taught in Utah high schools and approved by the College of Education. At least half of the academic major shall be upper division work. The teaching minor shall consist of not less than twenty-four quarter hours in a subject taught in the secondary schools of Utah, one-third of which must be upper division work.

Graduate Work In Education

On the Graduate level the College of Education offers the following graduate majors: Education, Educational Administration, Educational Psychology, Elementary Education, Health, Physical Education and Recreation, Philosophy of Education and Guidance, and Secondary Education.

An adequate knowledge of undergraduate courses in Education is a prerequisite for graduate work in the fields of Education. The department chairman will determine if a student is sufficiently qualified to undertake graduate study in a specific department. Before the end of the first quarter of graduate work the student is required to take a written qualifying examination administered by a committee appointed to conduct such examinations for the departments of the College of Education.

Credit in Education 218 (Research and Thesis Writing), or an equivalent course, is required of all candidates for the Master's degree in any department in the College of Education.

A student who plans to complete the requirements for the Master's degree in Education may choose his major professor from among the staff listed for graduate work in the department in which the student is majoring. The major professor and two additional members of the University faculty chosen by him will constitute the student's thesis committee. This committee will have the responsibility of directing the preparation of the thesis.

Students should read carefully the "Requirements for the Master's Degree" as found in the section of the catalogue devoted to the Graduate School.

Law, Bishop, H. G. Clark, Moffitt, Morrill, Woolf

Elementary Education

Professor Bishop, Chairman

A major in Elementary Education (45 quarter hours) should include Education 151 or 193, Education 153, 158, 163, Elementary Education 160, 165, 181, 182, 184, 190. Either Elementary Education 192 or 164 as a recommended elective should also be included if possible. Other electives for the major may be selected from the various departments in Education and Psychology.

Major students in Elementary Education should, with the approval of the major professor, select a minor which is applicable to elementary school teaching.

Supporting fields must include four hours in Children's Literature and four hours in games and rhythms for elementary school children (Physical Education 120 and 121). A course in piano music for teachers is highly recommended for those who do not already play the piano. The remaining work in supporting fields is to be selected with the approval of the head of the department of Elementary Education, selection to be made with a view to strengthening and broadening the academic and cultural background needed by the teacher in the elementary school. Elementary teachers need broad understanding regarding children and great versatility in many subject matter fields to a much greater extent than they need extensive academic specialization in a single subject. However, the desired courses should be selected so as to provide at least thirty hours in a given area of interest, such for example, as language arts, or science, or social science, or some other area included in the elementary school. The degree minor may serve as this area.

The group requirements for the degree of Bachelor of Science or Bachelor of Arts are listed elsewhere in the catalogue. In filling these group requirements, the student should be guided by the following: The Biological Science group should include a course

in either Bacteriology, Botany, or Zoology, and a course in Landscape Architecture (1). The Physical Science group should include a course in Earth Science and other courses needed to enlarge the teachers' background in science. The Social Science group should include courses in Sociology, Economics, Political Science, and History. Western History is especially recommended. The freshman and sophomore years should be devoted largely to building up a broad and rich academic background, leaving the professional work in Education for the junior and senior years, with the possible exception of Elementary Education 160 and Education 151 which may be taken during the Sophomore year.

156. Industrial Arts and Crafts for Elementary Teachers. (2) A.S.
Fisher, Staff

A practical course in handicrafts. Students will participate in simple pottery-making, book-making, spinning, weaving, dyeing, and other craft processes that can be carried on by children in the elementary school. (There will be a small fee for materials.)

159. Arts and Crafts for Early Childhood. (2) Fisher, Staff

A practical course in handicrafts for teachers in kindergarten and first grade. (There will be a small fee for materials.)

160. Child Growth and Development for Elementary Teachers. (3) A.W.S.
Laboratory work to be arranged.

Peterson and Staff

The classwork and study in the field of child development will be based upon observation of child behavior. This course meets a state requirement for elementary certification and may be taken by sophomores, juniors, or seniors, preceding the courses in curriculum and methods.

165, 166, 167. Art for Elementary School Teachers. (3-3-3) A.W.S.
Jenson and Fisher

Materials and procedures for stimulating and guiding child development in the various phases of art in the elementary school. Attention will be given to the relationship of art to the entire school program. (See Art 68, 69, 70 and 168, 169, and 170.)

168. Children's Literature. (5) A.W.S.
Hammond

A study from the literary and educational points of view of the best literature available for children. Also, an introductory treatment of a simplified system of classifying, cataloging, and operating an elementary school library.

181. Elementary Curriculum and Methods. (5) A.
Prerequisite: Fifteen hours of selected work in education.

Peterson, Bishop, Candland, Hammond

This course deals with the curriculum and the materials of the elementary school together with methods in elementary education. It must be taken before or parallel with Elementary Education 184. Required for certification. Limited to seniors and graduate students.

- 182. Elementary Curriculum and Methods.** (5) W. Prerequisite: Elementary Education 181.

Peterson, Bishop, Candland, Hammond

This is a continuation of Elementary Education 181. It should be taken at the same time or before Elementary Education 184. Required for certification.

- 183. Elementary Curriculum and Methods.** (3) S. Prerequisite: Fifteen hours in education. Peterson, Candland, Hammond

This course is designed especially for experienced elementary teachers and secondary teachers who wish to get some training on the elementary school level. Secondary teachers who qualify also for elementary teaching certificates are required to complete this course. Limited to seniors only.

- 184. Student Teaching.** (6) A.W.S. Prerequisites: Fifteen hours of selected educational work, including Elementary Education 160, Education 153 and 163, and passing of subject matter tests administered by the College of Education. Elementary Education 181 and 182 should precede or parallel this course. Bishop, Candland

This is essentially a laboratory course affording opportunity for student teachers to apply the principles of teaching developed in Elementary Education 181 or 182. Teachers should reserve the 4:00 o'clock hour on Tuesdays and Thursdays for supervisory meetings.

Application for elementary student teaching must be made to the head of this department at least three months prior to registering for this course. Registration is contingent upon the granting of the application by a committee in the department which has been appointed for the purpose. The facilities of the training school are limited. Only those regularly enrolled in the College of Education may be admitted to elementary student teaching.

- 190. Music for Elementary School Teachers.** (3) A.W.S. McAllister

Materials and procedures for stimulating and guiding child development in the various phases of music in the elementary school. Attention will be given to the relationship of music to the rest of the school program.

- 192. Early Childhood Education.** (3) S. Hammond

Problems of early childhood education will be considered.

A study of the activities, subject matter and concrete materials which should form the basis of the work with young children. Classroom observation required.

Graduate Courses

- 230-235. Independent Readings in Elementary Education.** (Maximum of two credit hours in any one quarter.)

Law and Bishop

Qualified students may read in fields not adequately covered in their course work and make an organized report of the information gained. This reading should be planned to meet the needs of the student's graduate program. Registration by consent of instructor.

- 244. Advanced Student Teaching for Elementary Schools.** (3-6) A.W.S. Bishop

Designed for experienced teachers, supervisors, and administrators who desire further study and experience in working with children. Application for this work should be made in advance. Students may register for the course only upon the approval of the chairman of the Department of Elementary Education.

- 250-251. Seminar in Education.** Any quarter. Time to be arranged. Law, Bishop, and Staff

A seminar in educational research is organized any quarter for five or more graduate students. It provides an opportunity for qualified workers to extend their studies of educational problems and for graduate students to secure aid in pursuing and reporting their investigations.

- 254. Science Teaching in the Elementary School.** (3) Bishop

A study of science as an essential part of the curriculum. Includes the use of content from the physical and biological sciences.

- 257-259. Research in Elementary Education.** (2) Any quarter. Law and Bishop

Qualified students may pursue research in the field of elementary education and may receive credit upon the satisfactory completion of a paper embodying the results of such research. Registration by consent of the instructor.

- 260. Child Growth and Development for Elementary Teachers.** (3) A.W.S. Laboratory work to be arranged. Peterson

The classwork and advanced study in the field of child development will be based upon observation of child behavior.

- 261. Teaching Language Arts in the Elementary School. (3)**
Maeser and Bishop
Considers curriculum materials and procedures involved in teaching the language arts in relation to all phases of student experience.
- 279. Recent Developments in the Teaching of Reading. (3)**
Bishop, Hammond
A study of theory and practice in the teaching of reading with special attention to the results of recent research in this and related fields.
- 282. Elementary School Curriculum and Methods. (5) W.** Pre-requisite: Elementary Education 181 or its equivalent.
Bishop, Hammond
This course deals with the curriculum and the materials of the elementary school together with methods in elementary education.
- 283. Recent Trends in Elementary Education. (3) S.** Prerequisite: Law, Bishop
A study of modern practice and theory in the field of elementary school teaching.
- 286. Curriculum Building in Elementary Schools. (3) W.**
Law, Bishop
A study of basic principles, procedures, materials and other considerations involved in curriculum building in elementary schools. This course is designed to assist in meeting the state requirements for a certificate in elementary school supervision, and to provide opportunity for advanced study in this field by experienced teachers, supervisors, and administrators.
- 292. Early Childhood Education. (3) S.** Hammond
Problems of early childhood education will be considered. A study of activities, subject matter and concrete materials which should form the basis of the work with young children. Classroom observation required.
- 295. Supervision of Education. (3) S.** Law, Bishop
A study of the problems involved in elementary school supervision in the light of present day practice and theory in this field. (Accompanied by laboratory work.)
- 298. The Elementary School Principalship. (3) W.** Bishop
The work and responsibilities of the elementary school principal in the modern, nondepartmentalized elementary school.

300. **Thesis for Master's Degree.** Any quarter. Prerequisite: Credit in Educational Administration 118, or an equivalent course.

Law, Bishop

Credit of four to six hours is given upon the completion of an acceptable thesis that embodies the results of independent research upon a significant problem in some field of concentration. Students should read the section of the catalogue that contains the requirements of the graduate school.

Health, Physical Education, and Recreation

Professor Hart, Chairman

The department of Health, Physical Education, and Recreation offers courses in these three areas to meet freshman requirements, graduation requirements, and elective desires of students.

Each freshman student is required to take Health 1 and to register for one lower division physical education course during each quarter of his freshman year. A variety of activities is available for choice. Three quarters of activity will provide the opportunity for organic development, neuromuscular skill, social contact in game and team situations, and other carry-over values.

Extra-curricular activities are promoted for student participation: games, sports, hikes, dancing, and intramural athletics. The department urges all students to participate regularly in some form of physical activity.

The Brigham Young University is a member of the Mountain States Athletic Conference. A full schedule of interscholastic athletic competition, as sponsored by the Conference, is participated in by the school.

Students using the towel service are required to make a 50 cent deposit by purchasing a towel check. The towel check is exchangeable for towel service during school hours. Towel checks are redeemable at any time.

A thorough physical and medical examination will be given each freshman student upon entering the institution.

Students registered for physical education activity courses are required to provide themselves with the official uniform which

may be purchased at the University book store. They are also required to provide themselves with an approved combination pad-lock for use on basket locker.

The department offers work leading to a Major in Physical Education, a composite Major in Health and Physical Education and a Minor in Health, Physical Education or Recreation.

PHYSICAL EDUCATION MAJOR

Students majoring in Physical Education will take the following courses: Physical Education 51, 52, 53, 54, 55, 56, 88, 89, 130, 133, 140, 141, 146, 154; Recreation 131; Health 195. In addition to the above, men majors will take Physical Education 101, 102, and 103. Women majors will take 80, 81, 82, 83, 84, 85, and 87.

PHYSICAL EDUCATION MINOR

Students desiring to minor in Physical Education should take the following courses: Physical Education 51, 52, 53, 54, 55, 56, 88, 130, 141. In addition to the above, men minoring in Physical Education should take 101, 102, and 103. Women minors should take 80, 81, and 82 and an additional three hours to be elected.

HEALTH MINOR

Students may minor in Health by completing the following courses: Health 21, 22, 45, 50, 157, 160, and 195.

RECREATION MINOR

Secondary Education

Professor Woolf, Chairman

I. BASIC SKILLS AND GENERAL COMPETENCE

Students in the Department of Secondary Education are expected to be proficient in the basic skills and to demonstrate competence in their general and specialized preparation. Therefore, to register in the college they must have the approval of the Committee on Selective Admission to the College of Education.

In addition, before he begins student-teaching, the student must secure the approval of the Committee on Admission to Secondary Student Teaching, which sets standards for entrance into that work. (Secondary Education 184a, 184b.) **Applications to the committee are to be filed, on forms provided, three months before the student-teaching begins.** The following areas of information are brought under review: (1) Detailed list of courses and grade-point averages in the fields in which teaching is to be done. (2) Similar listing of courses taken in professional education, with grade-point average. (3) Results of teacher examinations required by the Secondary Department and other information from official sources.

For the purpose of guidance it is desirable that prospective students confer with the Chairman of the Department as early as possible. This should be at least as early as the Sophomore year.

Students in this department are urged to fill part of the biological science group, required for graduation, with a course in general psychology.

II. SPECIAL ACADEMIC PREPARATION

(Usual amount required 69 hours; minimum 60 hours)

A. COMPOSITE MAJORS:

Experience has shown that teachers on the secondary level are more qualified to serve the needs of the average high school when they are students of several related subjects rather than when they are trained in a single subject. (See recommendation of State Department of Education.)

It is recommended that as early as the beginning of the Sophomore year prospective secondary school teachers select one of the groups of related subjects as their chosen field of instruction.

The composite major takes the place of the traditional major and minor. It must consist of not less than sixty hours of credit distributed in **two or more** related fields (preferably three) with not less than eighteen hours in any one subject.

For guidance in selecting and completing a composite major, students may consult with the Dean of the College of Education and with the Chairman of the Department of Secondary Education whose responsibility it is, under cooperative advisement with the academic departments, to administer the composite majors which cut across two or more departments. Secondary teachers may use the approved composite teaching majors of sixty or more hours as degree majors in the College of Education along with the professional major.

Developing Composite Majors

A composite major in three related fields will consist of (1) a dominant subject in which a minimum of 24 hours will be required; (2) a related subject with a minimum of 18 hours required; (3) another related subject with a minimum of 18 hours required.

A composite major developed in two related fields will consist of (1) a dominant subject in which the course work will amount to a minimum of 36-45 hours; (2) a related subject in which the course work will amount to a minimum of 24 hours.

In the following lists of courses the twenty-four hours of credit in any given subject may be selected either as the dominant subject material in a composite of three fields, or as the related subject material in a composite of two fields.

Many combinations may be selected from the fields described below. Early consultation with the Chairman of the Department of Secondary Education is recommended to assure students that their preparation is directed toward the greatest needs of the schools to be served.

COMPOSITE MAJORS IN AGRICULTURE

Agronomy:

24 hour list: Agronomy 20, 21, 22, 25, 41, 155, 173, 192.

37 hour list: Agronomy 20, 21, 22, 25, 41, 150, 155, 157, 159, 173, 192, 196.

B. TEACHING MAJOR AND TEACHING MINOR .

Students who do not elect a composite major may select a teaching major and a teaching minor in any of the academic departments. The teaching major shall consist of thirty-six to forty-five quarter hours of a subject taught in Utah high schools and approved by the College of Education. At least half of the academic major shall be upper division work. The teaching minor shall consist of not less than twenty-four quarter hours in a subject taught in the secondary schools of Utah, one-third of which must be upper division work.

In a few departments where composite majors have not been developed there are listed single-subject teaching majors and teaching minors.

Art:

- Teaching Major 40 hours: Art 10, 13, 14, 21, 22, 27, 28, 33, 34, 39, 41, 50, 56, 62, 63, 104, 105, 107, 108, 174.
- Teaching Minor 26 hours: Art 10, 13, 14, 21, 22, 27, 28, 33, 34, 50, 62, 63.

Organization and Purpose

The Training Schools are organized on a kindergarten 6-3-3 basis; viz., an elementary division, including kindergarten, a junior and senior high school.

Students enrolled in the training schools have all the advantages of the University plant such as the use of the libraries, gymnasiums, laboratories, shops, athletic fields, auditorium, etc. These enlarged opportunities, with the advantages of expert teachers, make the training schools especially attractive and advantageous to students of elementary and high school age.

Provisions are made for transfers from grade to grade and from one division to another so that pupils may enter the kindergarten and remain in continuous attendance until they are graduated from one of the colleges of the University. The educational welfare of the students is safeguarded by an enriched curriculum. In addition, provisions are made for moral and religious training every year the student is in attendance.

ELEMENTARY TRAINING SCHOOL

The elementary training school covers the range from the kindergarten through the first six grades.

The enrollment in this department is limited to the number of pupils who can be adequately cared for in each grade. Priority of application is the basis upon which students are enrolled.

A staff of especially well-qualified instructors, with the facilities offered by the University and the assistance given by student teachers and special instructors provides wide range of experience for the children. Much attention is given to individual needs and interests and to the development of special abilities. The aim is to exhibit as completely as possible a pattern of the modern progressive school in action.

This school serves as a laboratory in modern school practice for the training of student teachers in the field of elementary education, and for the testing of current educational theory.

JUNIOR HIGH SCHOOL

Pupils completing the first six grades are regularly promoted to the Junior High School. Here departmentalization begins, permitting of variation in courses and a wide range of contact with expert instructors. Entrance to the Senior High School is based upon the completion of the courses outlined for the Junior High School. A maximum of four units plus one year of Theology credit will be allowed for ninth year work to count toward filling group requirements and toward graduation from the Senior High School for those pupils coming from schools which do not maintain a Junior High School.

SENIOR HIGH SCHOOL

Students completing the three years of work prescribed for the Junior High School are admitted to the Senior High School.

Students graduating from the Senior High School will be expected to complete 16 units in three years. Equal credit will be given in all subjects for equal amounts of time spent in the classroom. A course followed for thirty-six weeks with classes meeting five times a week will give one unit of credit. All the constants prescribed must be included in the program of each student.

Aims and Regulations

It is the purpose of the high school to develop in its students, habits of regularity, punctuality, and industry. Willing and serious application to the tasks at hand is considered of fundamental importance in meeting life situations. It is the aim of the school to have students work vigorously during the day in order to develop the above qualities and to minimize home preparation of lessons. To achieve these aims, the following regulations apply to those enrolled:

(1) Students will be held accountable to the school at all times from the beginning of the school day schedule until the end. A student is expected to register for either regular class work or study at each period of the day. Permission should be obtained from the teachers and the principal in case students are required to leave the school at any time during the day. Special permission should be obtained prior to the departure.

(2) All students are required to register for Theology. Students who fail continually to do satisfactory work in their courses in any department will not be permitted to remain in classes.

(3) Students are required to take the regulation courses in physical education during residence at this school. Students are released from this requirement only upon statement of physical disability signed by a physician. Satisfactory grades in physical education courses are required for graduation.

High School Activities

Under the direction of the faculty and the student body organization, an adequate program of athletic and social activities is provided for the junior and senior high school students.

All high school groups have regular social gatherings and recreational activities under faculty supervision and guidance. They have activities in athletics, debating and public speaking, and essay writing. Each year, the school produces a dramatic or a musical program. The school is a member of the State High School Debating Association and the Utah High School Activities Association. In addition to these opportunities for extra-curricular activities, a regular High School Student Body organization is maintained with the various activities that naturally are sponsored by such organizations. The high school students have also the advantage of participation in the regular activities of the University student body.

Credit

Those classes which meet five days each week for a full fifty minutes, and which continue for the full school year of thirty-six weeks of actual class work carry one unit of credit. In some cases students may transfer nine hours college credit for one unit of high school credit.

Students who register late or who discontinue before the end of the school year or miss a portion of their work during the school year can receive no higher grade than "Incomplete" until the required work of the course is completed. An incomplete grade carries no credit. Such a grade may be removed within one year and credit received.

SECONDARY TRAINING SCHOOL CURRICULA

Junior High School

Core Curricula

It is the philosophy of the junior high school that certain areas of work should be organized around student needs into a core program. By having students remain with one teacher for a

two-hour period, it is thought that greater strides may be made in guiding the pupil in solving his personal problems, in integrating his school activities with those which he carries on in the community, and in developing a wholesome personal outlook; therefore, core curricula have been set up in the seventh, eighth, and ninth grades.

7th Grade Subjects

Constants: Religion, Physical Education, English I, Social Science, Mathematics I, Music, Reading, Homemaking, Study Periods, and Assembly. Core curriculum.

Electives: Art, Orchestra, Band.

8th Grade Subjects

Constants: Religion, Physical Education, English II, General Science, History, Mathematics II, Music, Reading, Study Periods, and Assembly. Core curriculum.

Electives: Art, Orchestra, Band.

9th Grade Subjects

Constants: Art, Religion, Physical Education, English, General Science, Mathematics, Community Civics and Assembly. Core curriculum.

Electives: Chorus, Homemaking, Orchestra, Shop, Theory of Music, and Band.

Senior High School

Students desiring to graduate from the B. Y. U. High School and to qualify for college entrance at the same time, are required to register for the following courses:

Grade X. English B, Theology B, Physical Education.

Grade XI. English C*, Theology C, Physical Education.

Grade XII. U. S. History, Theology D, Physical Education.

Some time during the senior high school years the following courses must be taken: Algebra or Geometry; Problems of Democracy or World History; Physiology and Eugenics; Physics or Chemistry or a second year of Mathematics or Basic Skills.

Special courses may be planned for those high school students who do not intend to be officially graduated from high school or who do not intend to go to college.

College of Fine Arts

Gerrit de Jong, Jr., Dean

The educational policy of the University has always provided for a liberal patronage of the fine arts. A constantly growing desire to offer greater opportunities for better coordinated academic and professional growth to those whose inclinations and talents lead them into the field, resulted in 1925, in the organization of the College of Fine Arts.

With an exceptionally well prepared faculty, who have received the benefits of extended study and travel in recognized art centers, and adequate physical equipment in each department, this college is able to do work of high scholastic standing.

Any course offered in this college, leading to a degree, is the culture equivalent to other college courses, differing from them mainly in respect to the emphasis placed upon the study of the fine arts.

At present the following departments, fully organized, are included in the College of Fine Arts: Art (Drawing, Painting, Modeling, Design, History and Appreciation); Music (Theory, Instrumental, Vocal); and Speech (Public Speaking, Dramatic Art, Play Production, Speech Correction, Radio.) Majors, may be selected from the work offered in these departments; minors from these, or from other departments in the university which offer allied work. Students graduated from the College of Fine Arts receive the degree of Bachelor of Arts or Bachelor of Science.

Those who do not expect to be recommended as a teacher of instrumental music in the public schools, may substitute more work on the major instrument for the Minor Instrument Workshop requirement (Instrumental Music 41, 42, 43, 141, 142, 143).

Those who are graduated with a major in instrumental music must have a minimum of 20 minutes of recital appearance as soloist or ensemble player.

Students preparing to teach piano should also take Instrumental Music 190 or 190-P.

VOCAL MUSIC

Vocal music majors follow the same general course as instrumental music majors, but substitute chorus (three hours each year) or Vocal Music 75-80 or 175-180 (Opera Workshop) for Band and Orchestra work. They also take Linguistics 42 (Practical Phonetics).

It is recommended that vocal music majors fill their foreign language requirement by taking at least 30 hours, 15 in each of two languages. Students who do not intend to teach any instrumental music in the public schools are not required to study minor instruments, but should have at least three years of voice and two years of piano when they are graduated.

Those who major in vocal music must have a minimum of 20 minutes of recital appearance as solo or ensemble singers when they are graduated.

MUSIC THEORY

A major in Theory of Music may be taken only on recommendation of the Chairman of the Department. A student must have a thorough practical knowledge of the piano to begin as a major in Music Theory.

DIVISION OF RELIGION

This Division is under the immediate direction of the President of the University.

Sidney B. Sperry, Director of Religious Instruction

Hugh B. Brown, Director of Religious Activities

It has always been the view of the Church of Jesus Christ of Latter-day Saints that in the training of its youth, there should be a proper integration of moral and religious values with secular knowledge. From its inception Brigham Young University, firm in the belief that no life is full and complete unless established upon a sound ethical and religious basis, has therefore offered courses in religion.

The Division of Religion administers all religious instruction and is responsible for the development and functioning of the program of religious activities which is sponsored by the University.

The following departments are at present organized: (1) Theology and Religious Philosophy; (2) Bible and Modern Scripture; (3) Church History; (4) LDS Church Organization and Administration. Through these departments every student in the University is given the opportunity to benefit from religious instruction.

Students in any college of the University who complete thirty-four quarter hours of religious instruction, which must include at least four hours in each of the above named departments of the Division of Religion will receive special recognition for such achievement at the time of their graduation.

The Master's degree is now offered in religion, and in the near future it is contemplated that the Doctorate will also be offered. Students interested in graduate work should write to the Division of Religion, Brigham Young University, for information.

Lower division students are given the privilege of electing any two of the following sequences during their freshman and sophomore years. (Returned missionaries may register for upper division religion courses exclusively, if they desire.)

Theology: 4, 5, 6. The Principles and Doctrines of Mormonism.

Scripture: 11, 12, 13. An Introduction to the Book of Mormon and Its Teachings.

Scripture: 17, 18, 19. An Introduction to the Old Testament and Its Teachings.

Scripture: 23, 24, 25. An Introduction to the New Testament and Its Teachings.

Ch. History: 31, 32, 33. Latter-day Saint History and Doctrine.

Ch. Adm.: 41, 42, 43. Religion and Family Life. (Not given this year.)

* This list includes only principal administrative officers and faculty members who teach courses offered in Home Study (correspondence). For Extension Classes, many more faculty members are available if sufficiently large groups ask for their services. Thus most of the courses taught in residence are available as Extension classes if demand justifies.

Home Study Service

Since the organization of Brigham Young University Extension Division in 1921, formal instruction by home study and extension classes has been given to many thousands of individuals. Other thousands have received instruction through Leadership Institutes, including the annual Leadership Week of the University, and through lectures by members of the faculty, club programs, and other services.

The Extension Division offers correspondence work, among other services, to aid in enlarging the educational horizons of the many people who cannot take standard college work in residence. It is the desire of the Extension Division to assist anyone, anywhere, to continue his or her education.

Supervised individual instruction from highly trained instructors has definite advantages to the correspondence student, but perhaps the greatest advantages come through the serious application and independent thinking the student must contribute to the completing of his course. His success in the work depends largely upon his own initiative and eagerness for knowledge, and upon his personal standards of the quality of the work he is doing.

B. Y. U. Nationally Accredited

Brigham Young University, founded and endowed in 1875 by Brigham Young, is a standard American university. It is on the approved list of the Association of American Universities,

Association of American Colleges, the American Council on Education, the Northwest Association of Secondary and Higher Schools, and the National Organization of Associated Women Students. The Extension Division is a member of the National University Extension Association and of the American Association for Adult Education.

Eligibility

A student may begin correspondence work (for credit) if he has met, or can meet, the entrance requirements of Brigham Young University as designated in the general catalogue, and if he is not regularly enrolled in residence work. (Students carrying residence work must have the signed approval of their dean, if they wish to enroll for correspondence classes.) A mature student may take correspondence work provided he can do the work satisfactorily, but the credit will not apply toward a degree until entrance requirements to the University are met.

Credit

Correspondence courses are not a short cut. With few exceptions each course carries credit equivalent to the corresponding course given in residence.

Not more than 45 hours, of the total 186 required for graduation, may be correspondence credit.

No graduate credit can be earned in correspondence courses.

Examinations

Examinations are required in all correspondence courses unless otherwise stipulated. Examinations may be taken in the Extension Division Office, or elsewhere under the supervision of a responsible school official (principal or superintendent). Examinations will not be given until all lessons are completed.

The instructor for the course determines the student's final grade. While the grades given on lesson papers are considered, a student must pass the final examination in order to receive a passing grade for the course.

Grading

Papers will be marked by grade or percentage. Relative values are illustrated below.

| | |
|---------|-------------------|
| A | 90 to 100 percent |
| B | 80 to 90 percent |
| C | 70 to 80 percent |
| D | 60 to 70 percent |
| E | Failure |

Time Allowed

A course may be started at any time and should be completed one year from the date of registration.

Courses will not be renewed after a period of one year after expiration date.

A course cannot be completed faster than three assignments per week (the standard length of courses is five lessons per quarter hour) except by special permission from the instructor. Even with special permission, a student may complete no more than six quarter hours per month.

A student who does not report either by letter or lesson within a period of 90 days will forfeit his right to further instruction in the course, and be allowed to take up the work again only upon payment of a reinstatement fee. Having once enrolled, the student is under obligation either to begin the work or to report promptly the reason for not doing so.

Students who wish to apply correspondence credit toward graduation, certification, etc., should complete the work at least two weeks before credit is needed. This is particularly necessary during the summer months when faculty members are often off the campus.

Home Study Fees

1. **Tuition Fees.** The enrollment fee for any college course is \$3.00 per quarter hour. Corresponding study courses cost therefore:
 - \$ 6.00 for a two-hour course
 - 9.00 for a three-hour course
 - 12.00 for a four-hour course
 - 15.00 for a five-hour course
 - 18.00 for a six-hour course
2. **High School Fees.** The enrollment fee for a high school course is \$11.00 for one unit of credit or \$6.50 for one-half unit of credit.
3. **Postage.** Students pay all postage on Home Study lessons. This will be taken care of by a postage fee of 30c per credit hour on each course.
4. **Refunds.** After an enrollment is complete all fees are deposit-

- ed with the Treasurer and no refunds will be allowed.
5. **Transfers.** A transfer is possible from one course to another if no work has been done and if the request is made within 90 days from the date of enrollment. A fee of \$1.00 is charged to cover the cost of the transfer. The date of expiration of the new course will be the same as the date of expiration of the original course.
 6. **Extension.** A three-month extension of time, after the regulation year has past, will be granted upon payment of a \$1.00 fee.
 7. **Reinstatement.** Reinstatement in a course from which a student has been dropped generally may be obtained by the payment of a reinstatement fee of \$3.00. No reinstatement can be made if the course is no longer given by the Home Study Bureau or if it is applied for more than one year after expiration date.

PURCHASE OF TEXTBOOKS

Necessary textbooks may be obtained wherever convenient. They will, however, be sent from the Student's Supply Association upon receipt of the amounts given in the course description. Required texts should be ordered at the time of enrollment in order to avoid delay in beginning the assignments of the course. A book order form will be found on the last page.

Because of unstable market conditions, prices listed for textbooks are not guaranteed and prompt filling of orders cannot be assured. Also, books may go out of print without notice, making the course for which they are used unavailable or necessitating substitutions.

Occasionally, used books will be available at three fourths of the price quoted. It is suggested that the student indicate if a used copy is desired. If possible it will be supplied and a refund made for the difference between the prices of new and used books. Send money for books to the Student's Supply Association, Provo, Utah. Checks or money orders should be made payable to the Student's Supply Association.

If a student wishes to sell his book upon completion of the course, the Students' Supply Association will repurchase it at 60% of the list price, provided the book is in good condition and its use is to be continued by the Extension Division. Before returning any books for resale, the student should first write for instructions.

Students are advised to use their local libraries as much as possible. Librarians are glad to cooperate with correspondence students. Reference books are available at the BYU Library and may be borrowed for a two-week period. Enclose 10c for each book desired and address the request to the Extension Division, Brigham Young University, Provo, Utah.

HIGH SCHOOL COURSES

High school units of credit are available in some subjects. Enrollees of high school age must send with their applications a letter from their principal, who will state the reason why such credits should be earned in correspondence, and who will give signed approval. High school courses taken through the BYU Home Study Bureau will help satisfy entrance requirements at the Brigham Young University.

UNITED STATES ARMED FORCES INSTITUTE COURSES

The Extension Division is cooperating with the Armed Forces Institute at Madison, Wisconsin, to provide BYU Home Study courses at a reduced cost to men and women who are on active service in the Army, Navy, Air Force, Marine Corps, or Coast Guard. Members of the armed forces who wish to enroll for such courses should contact either their educational officer or write directly to Home Study Bureau, Brigham Young University, Provo, Utah, for specific instructions and special prices for approved courses.

Restrictions

A student may not enroll for more than two courses at one time. One course at a time is suggested.

If credit is desired, the student must meet entrance requirements of Brigham Young University and course prerequisites.

A student may not take correspondence work while in residence without the consent of his dean. If his total hours amount to more than eighteen, he must submit a petition to the petitions committee for the extra credit.

General Information

Lower Division courses are numbered from 1 to 99 inclusive.

Upper Division courses are numbered from 100 to 199 inclusive.

The State Department of Public Instruction, State Capitol, Salt Lake City, Utah, should be consulted about certification.

The Registrar's Office, Brigham Young University, Provo, Utah, will give necessary information on entrance and graduation requirements and transfer of credits.

The Home Study Bureau, Brigham Young University, Provo, Utah will supply any additional information on correspondence courses. Write for a special Home Study Catalogue which contains complete course descriptions.

OTHER EXTENSION SERVICES

Extension Classes

Classes meeting about once a week may be organized in communities which can be reached from Provo, and a member of the regular faculty engaged to conduct the course. Such classes are usually the equal to any residence class. A course in practically any department of the institution may be given provided there is a sufficiently large group to justify it.

In addition to the correspondence and extension classes, the Extension Division offers the following services:

1. Programs For Women's Clubs. Study outlines in a number of subjects, each of which covers a full year's work are available to women's clubs upon the payment of a nominal subscription fee of \$6.00. Additional copies of the outline may be had for 50c each.

2. Lyceum and Lecture Courses. Professional lyceum numbers in music, drama, and lectures are available at nominal charges. Where communities desire, they may secure a series of lectures by members of the faculty on a variety of subjects. A lecture course of eight to ten numbers is recommended to commercial clubs, school districts, and other civic or religious groups.

3. Leadership Institutes. In addition to the general Leader-

ship Week held at the University each year, members of the faculty sometimes go into communities and hold local institutes. With the cooperation of the university, and of the L. D. S. stakes concerned, Leadership Weeks are now held annually in several places in the West.

4. Lecture and Entertainment Service. Within reasonable distance from Provo, student groups may be secured for the payment of expenses. High schools, ward organizations, civic clubs, and others have availed themselves of this opportunity in the past.

5. Audio Visual Aids Service. The Bureau of Audio-Visual Instruction maintains a library of hundreds of educational motion pictures, glass slides, and filmstrips which may be borrowed by schools, churches, and other non-theatrical organizations. A catalogue listing the materials available, rules under which they may be borrowed, and service fees will be sent upon request.
